EQUITY GROUP REPORTS STRONG 3RD QUARTER 2022 PERFORMANCE KSHS.34.4 BILLION, PAT AND KSHS.1.364 TRILLION ASSETS

- 28% Profit After tax growth
- 31% growth in non-funded income
- 27% growth in Earnings per Share
- 15% growth in customer deposits
- 21% growth in net loans

November 22nd 2022..... Equity Group Holdings Plc today reported Kshs.34.4 billion shillings profit after tax for the nine months to 30th September 2022. The Group recorded a 15% growth in assets to Kshs.1,363.7 billion total assets driven by a 15% growth in customer deposits of Kshs.1,007.3 billion to surpass Kshs.1 trillion for the first time in the history of the Group. Loans and Advances grew by 21% to reach Kshs.673.9 billion.

“Deliberate and intentional strategic decisions have delivered better performance and quality income mix and stronger balance sheet” said Dr James Mwangi the Group CEO & Managing Director as he released the results. Non-funded income grew faster at 31% compared to 26% growth rate for total gross interest income increasing contribution of non-funded income to 41% of total income. Trade Finance revenue grew at 60% to Kshs.3.9 billion up from Kshs. 2.5 billion. Trade Finance lending grew at 84% to Kshs.36.2 billion up from Kshs.19.7 billion while Trade Finance guarantees and off-balance sheet items grew 39% to Kshs.156.2 billion up from Kshs.112.3 billion. Treasury income contributed 32% of the total gross income at Kshs.40.4 billion out of the total gross income of Kshs.123.3 billion.

Press Release (continued)

Pursuit of business and geographical regional diversification saw subsidiaries enhance their significance contributing 44% of group deposits, 37% of group loans, 42% of group assets, 43% of group revenues and 32% of the Group's profit before tax respectively, recording better return on average equity, return on average asset and cost to income ratio. Strong efficiency gains with digitization, greater use of third-party infrastructure and self-service platforms saw the business witness strong off take of innovative online products with Pay with Equity "PWE" growing transaction numbers by 379% while internet banking "Equity Online" grew its transactions by 556% delivering greater use of self service on own devices and enhanced transaction processing on Fintech capabilities on cards, ATMs, Agency, E-commerce, Mobile and Internet channels.

Strong risk mitigation policies have seen the loan book reflect a diversified risk across various market segments of large enterprises 27%, SMEs 43%, Consumer 21%, agriculture 7% and Micro enterprises 2% and across sovereign geography with Kenya holding 63.6%, DRC 21.4%, Uganda 7.2%, Rwanda 4% and Tanzania 3.7% respectively. Foreign currency denominated loans contributed 47.2% while local currency loans constituted 52.8% of the loan book. On the COVID-19 19 accommodated loans of Kshs.171.4 billion, Kshs.49.4 billion has been fully paid, Kshs.104.8 billion has resumed repayment and is performing. Kshs. 9.5 billion has resumed repayment but behind schedule of repayment and hence categorized as non-performing with remaining Kshs.7.7 billion expected to resume repayment before the end of the year. The loan book quality held at a nonperforming loan ratio (NPL) of 9.0% against industry average of 14.2% as of 31st August 2022. NPL coverage on provision basis stood at 95.2% rising to 120.5% with credit risk guarantees up from 91.2%.

"Continuous pursuit of efficiency gains and our business transformation strategy have repositioned the business for value creation and strategic growth," said Dr Mwangi. Cost to income ratio has improved to 47.1% down from 48.1%. Return on Equity has improved to 27.8% up from 24.0% while Return on Assets has improved to 3.5% up from 3.2%.

Press Release (continued)

The COVID-19 environment management strategies have positioned the Group to steadily steer through volatile and uncertain economic and financial environment characterized by supply shocks, broken supply chains, high inflation and interest rates and slow and declining economic growth. Capital buffers remain strong with core capital to risk weighted asset ratio standing at 16.1%, while total capital to risk weighted asset ratio stands at 20.7%. Provisions buffers remain high with NPL coverage of 95.2% while liquidity buffers remain strong at 51.8% and head room for lending being high at a low loan to deposits ration of 66.9%.

“Our Equity Group brand is at an all-time high with a rating of “Triple AAA” and ranked as the 5th strongest finance brand globally. Our track record of social impact investments, inclusion, transforming lives, giving dignity and expanding opportunities is now a business acquisition driver. The Group is now realigning people, systems, processes, business, business risk through strong governance structures as it rolls out the African Recovery and Resilience Plan envisaged to grow the customer base to 100 million with 5 million businesses and 25 million households and individual borrowers”, added Dr Mwangi while releasing the Q3 2022 results.

Macroeconomic and Operating Environment

Economic Recovery Outlook

Stagflation risk rising amid sharp economic slowdown

International Monetary Fund(IMF) - Global economic activity is experiencing a broad-based and sharper-than-expected slowdown, with inflation higher than seen in several decades. The cost-of-living crisis, tightening financial conditions, Russia's invasion of Ukraine, and the lingering COVID-19 pandemic all weigh heavily on the outlook. Global growth is forecast to slow from 6.0% in 2021 to 3.2% in 2022 and 2.7% in 2023, the weakest growth profile since 2001 except for the global financial crisis and the acute phase of the COVID-19 pandemic.

Source: [IMF; https://www.imf.org/en/Publications/WE0/Issues/2022/10/11/world-economic-outlook-october-2022](https://www.imf.org/en/Publications/WE0/Issues/2022/10/11/world-economic-outlook-october-2022)

The World Bank - Economic growth in Sub-Saharan Africa is set to decelerate from 4.1% in 2021 to 3.3% in 2022, as a result of a slowdown in global growth, rising inflation exacerbated by the war in Ukraine, adverse weather conditions, a tightening in global financial conditions, and the rising risk of debt distress. These trends compromise poverty reduction, already set back by the impact of the COVID-19 pandemic.

Source: <https://www.worldbank.org/en/topic/development/publication/world-bank-regional-economic-updates>

Africa Development Bank (AfDB) - Despite a boost in activity as COVID-19 infections drop worldwide, global growth is projected to remain subdued in the second half of 2022, before slowing further in 2023 to an annual growth of 2.2%. A key factor slowing global growth is the generalised tightening of monetary policy, driven by the greater-than-expected overshoot of inflation targets. Strict lockdowns in China have also impacted the Chinese and global economy.

Source: <https://www.oecd.org/economic-outlook/september-2022/>

Growing pressures on main Economic drivers - Global prices for energy and grains have been increasing since the invasion of Ukraine by Russia leading to imported inflation in the region.

Source: [IMF; https://blogs.imf.org/wp-content/uploads/2022/03/CHART-1-commodities-chart-panel-1.jpg](https://blogs.imf.org/wp-content/uploads/2022/03/CHART-1-commodities-chart-panel-1.jpg)

Economic Recovery Outlook (continued)

Stagflation risk rising amid sharp economic slowdown

Global Economies experiencing unprecedented inflation rates

Global economies have been battling increasing inflation rates since March 2022. The US FED responded by gradually raising the interest rates by 275 basis points to 3.25% as of September 2022, the highest level since 2008.

The move is driving risk-off position to frontier market investments, strengthening the dollar against other currencies.

China's COVID-19 resurgence disrupting global supply chains

COVID-19 outbreaks and mobility restrictions as part of China's zero-COVID strategy have disrupted economic activity widely and severely. Shanghai, a major global supply chain hub, entered a strict lockdown in April 2022, forcing citywide economic activity to halt for about eight weeks.

Source: Bloomberg; <https://www.bloomberg.com/news/articles/2022-03-15/world-economy-braces-for-supply-hit-as-china-battles-covid-again>

Looming Sovereign Default in emerging markets

Sri Lanka defaulted on \$12.6 billion of overseas bonds as its new administration struggles to stabilize the dwindling economy impacted by a lack of dollars and surging inflation. As inflation rages, some emerging markets look vulnerable to sovereign default.

Source: <https://www.bloomberg.com/news/articles/2022-05-17/sri-lanka-default-hints-at-trouble-ahead-for-developing-nations#xj4y7vzkq>

Economic Recovery Outlook (continued)

Tight monetary policy by the US government putting pressure on regional currencies

Economic Recovery Outlook (continued)

GDP growth projected to slow down as inflationary pressure persists

Overview of the “Africa Recovery and Resilience Plan”

The Plan

The Africa Recovery and Resilience Plan is aimed at catalysing a demand complementarity-led transformation of Africa, underpinned by: (i) capacitating and enhancing productivity of raw material producers, (ii) integrating primary producers to more co-ordinated African productive / manufacturing capacities; and (iii) connecting these primary and secondary sectors to global supply chains (and capital markets) that are now more focused on reducing concentration risks with increased focused on assurance of accessibility.

Equity Group's execution of the “Africa Recovery and Resilience Plan” will be underpinned by its **Social and Economic Engines** that capacities value chains (Social Engine) and provide holistic financial solutions to productive ecosystems (Economic Engine).

Equity Group's excess liquidity (currently ~2% of cumulative GDP of east and central Africa) will be redirected to the private sector across various value chains.

6 Pillars of the Plan

The Plan comprises 6 strategic pillars that ensure a systematic, co-ordinated and holistic framework for execution:

- **A more coherent and productive natural resource ecosystem in agriculture and extractives** - more co-ordinated, connected and capacitated primary supply chains will drive higher productivity and throughput
- **Manufacturing and logistic anchors** - Africa has an opportunity to leverage off its natural endowments to anchor expansion of productive capacities and manufacturing capacity. More importantly, a coherent primary sector which is integrated to pan-African productive capacities will drive demand complementarities across regional blocs over the medium- to long-term
- **Trade and investment to give broader market access and support factor mobility** - expanded markets and access to technology, capital and skills will enhance offtake of African products and services
- **MSMEs** - connectivity of small businesses into formal primary and secondary sector value chains will enrich and drive more integrated domestic value chains / demand complementarities
- **Social and environmental transformation** - capacity building of value chain stakeholders, especially amongst smallholder farmers and MSMEs will drive sustainable productivity gains and improve ease of factor mobility
- **Technology-enabled economy** - online businesses will accelerate connectivity and velocity in ecosystems

Objectives of the Plan

The first phase (end-2025) objectives of the plan include:

1. **Inclusivity of 100 million on-line businesses and customers:**
Economic and social inclusion of more productive households and financially enabled value chains
2. **Multiplier effect of 5 million borrowing businesses and 25 million borrowing consumers:**
borrowing businesses to drive value chain expansion and employment, whilst consumer borrowing to enable household aspirations and livelihoods
3. **Employment of 50 million:** 25 million direct jobs to be created as businesses grow and a further 25 million indirect jobs created as value chains expand and deepen
4. **Additional private sector lending of ~2% of regional GDP:** loan book to be directed towards agriculture (30%), manufacturing (15%), MSMEs (65%)

Framework and objectives

Equity Group's 2025 strategy is a multi-pronged and holistic solution to achieve social and economic transformation of Africa. The strategy comprises 6 strategic pillars that will be operationalized through a collaborative, deliberate and ecosystem centric approach. The plan was conceived with execution in mind and with no economic and financial assumptions, only targets!

Focus Area 3: Geographical Expansion and Business Diversification

Equity Group regional presence to drive cross-border trade and support informal traders

Focus Area 3: Geographical Expansion and Business Diversification

DRC significant resource endowment

- On 11th July 2022, DRC became an official member of East African Community (EAC) by depositing instruments of ratification on the accession of the EAC Treaty with the secretariat. This expanded trade and investment opportunities in the region
- On 15th December 2021, the IMF executive board approved the first disbursement of US\$ 212.3 million as part of the US\$ 1.52 billion 3-year Extended Credit Facility to reinforce international reserves given downside risks to the domestic and global economy outlook and recovery
- DRC also has huge copper and cobalt reserves. Copper and cobalt demand will be accelerated by increased usage of electric vehicles and charging stations (5x more than gas car), renewable energy and storage systems, 5G base stations. Kamoia-Kakula copper mine expansion and the increasing global demand for Copper should continue to spur economic growth
- DRC has the largest reserves of Coltan/tantalite (estimated at 60-80% of global reserves). Coltan is used in many electronic devices including mobile phones
- DRC has a large young population, ~93 million, with 45% of the population in urban centres presenting consumption opportunities

Focus Area 3: Geographical Expansion and Business Diversification

Landmark Oil Pipeline deal signed by Uganda and Tanzania

- Tripartite East African Crude Oil Pipeline project agreement (EACOP) signed off on 11th April 2021 between Uganda, Tanzania and large oil companies
- On 9th December 2021, Uganda Parliament passed the East African Crude Oil Pipeline (EACOP, Special provisions) Bill into Act of Parliament to domesticate the treaty between Uganda and Tanzania before the EACOP Company can embark on the pipeline construction
- On 1st February 2022, TotalEnergies, China National Offshore Oil Corporation (CNOOC) and the Uganda National Oil Company finalized the terms for Oil drilling and pipeline construction
- On 4th July 2022, a request for a license to begin the construction of the East African Crude Oil Pipeline (EACOP) was submitted to the government of Uganda by the company in charge of the project, East African Crude Oil Pipeline Company (EACOP) Ltd
- The deal paves way for:
 - US\$ 15Bn investment (c.40% of Uganda GDP)
 - Construction of 1,440km (US\$ 3.55bn) electrically heated crude oil pipeline from Ugandan Albertine region to Tanzanian seaport of Tanga
 - Creation of c.10,000 plus jobs
 - Possible peak production of 230,000 barrels per day

Focus Area 3: Geographical Expansion and Business Diversification

Promising Tanzania Operating Environment

- On 20th May 2021 Tanzania signed the host country EACOP agreement with TotalEnergies and the Ugandan government for the construction of a US\$ 3.55 billion oil pipeline which will see Tanzania earn US\$ 12.7 for each barrel transported. The Final Investment Decision was signed between TotalEnergies and its partners on 1st February 2022
- The admission of Democratic Republic of Congo (DRC) to the East African Community presents a huge opportunity to Tanzania due to its proximity to DRC and its reliance on neighboring countries for agricultural resources. DRC has approximately 93 million population and is rich in natural resources
- On 10th October 2022, the Tanzanian and Kenyan presidents directed line ministries to remove the remaining non-tariff barriers (NTBs) that were undermining trade and investment between the two countries. The heads of state also committed to fast-track construction of Gas Pipeline Project from Dar es Salaam and Mombasa
- Tanzania FY 2022/2023 budget proposes tax measures that support local and foreign direct investment which include:
 - Digital services - Introduction of Digital Service Tax of 2% for non-resident service providers and improving the VAT registration process for non-resident suppliers of electronic services;
 - reduction of money transfer levy, albeit widening its tax base to cover all electronic transactions;
 - waiver of income tax and granting of VAT exemption for Special Strategic Investors under the Tanzania Investment Act;
 - recognising alternative financing arrangements such as Islamic Banking products for Income Tax and Value Added Tax purposes;
 - reduction of Workers Compensation Fund (WCF) from 0.6% to 0.5% for the private sector;

Brand Finance®
The Most Valuable and Strongest Banking Brands

Equity Group, East and Central Africa's largest financial services Group, has been named the 5th strongest banking brand in the world. The Group is the only new entrant among the top ten leading banking brands and has entered the arena with an impressive Brand Strength Index (BSI) of 90.8 compared to the strongest banking brand that scored a BSI index of 94

World's strongest banking brands 2022

- Position 5 - in the World
- Brand Strength Rating (BSR) of AAA+

World's top 500 most valuable banking brands 2022

- Position 338 - in the World
- Position 1 - in Sub-Saharan Africa

David Haigh, the Chairman and CEO of Brand Finance during the release of the report said, "As banks continue to battle the fallout from the COVID-19 pandemic, the importance of a solid brand is more significant than ever. Banking products are becoming commoditised, and banks will need to continue differentiating themselves from other competitors in the market through the use of their brand, particularly in the face of an emerging threat from challenger brands and decentralised finance in the future."

Global Ratings and Accolades

Equity Group's MD and CEO, Dr. James Mwangi, was honoured in the 2019 Bloomberg 50 list. This is an honorary list of fifty innovators, entrepreneurs, and leaders who have impacted the global business landscape in measurable ways. Dr. Mwangi was lauded for his contribution in steering Equity Bank to have presence in the greater Central and Southern Africa region. He was honored alongside environmental activist Greta Thunberg, New Zealand Prime Minister Jacinda Ardern, CNN President and Warner Media Chairman Jeff Zucker, Singer and entrepreneur Rihanna, among others.

Global Ratings and Accolades

Dr. James Mwangi honouree, 2020 Oslo Business for Peace Award

Honourees are chosen by a prestigious Award committee consisting of past Nobel Prize winners in Peace Economics.

“Dr. James Mwangi receives the Award for his businessworthy values in championing financial inclusion for all in East and Central Africa. Dr. Mwangi helped achieve a social revolution by bringing banking services to people who previously had limited access to them bolstering Kenya’s GDP. Dr. Mwangi is an exceptional entrepreneur and humanitarian. The committee sees him as a shining example of how business leaders can accelerate change and help solve the world’s problems,” said Per Saxegaard, Founder of the Oslo Business for Peace Awards.

The Africa Recovery & Resilience Plan

Commonwealth Heads of Government Meeting

As part of continuous efforts to champion post COVID-19 recovery, Equity Group participated in 3 high-level engagements, where the Group's Africa Recovery and Resilience Plan was officially launched and partnership agreements signed to accelerate the implementation of the plan which Equity Group has seeded with a USD 6 billion fund. The three key engagement included the:

- Commonwealth Heads of Government Meeting (CHOGM) in Kigali Rwanda
- Launch of the Africa Continental Free Trade Area (AfCFTA) partnership agreement and
- Launch of the East African Community (EAC) partnership agreement

Dr. James Mwangi, Equity Group Managing Director & CEO addressed delegates from 54 countries at the 2022 Commonwealth Business Forum in Kigali on Equity Group's Kshs 700 billion Africa Recovery and Resilience Plan as the anchor partner to the Commonwealth meetings.

Regional Currencies Depreciation against USD

*Regional currencies marginally affected by the US dollar exchange.

**USD/SSP rates are as per Bank of South Sudan(BOSS)

Regional Outlook

Uganda

- The economy expected to grow by 6% in the medium-term despite sustained commodity price-driven inflation pressures, gradual fiscal consolidation, and tighter monetary policy. Growth will benefit from a gradual increase in investments in the oil sector and dividends from the Ugandan government's promotion efforts for tourism, export diversification and agro-industrialization.
- Service industry (rebounding through construction and manufacturing) will be the main drivers of economic growth.

Tanzania

- Improved tourist results, reopened trade routes and a quicker vaccination implementation are predicted to boost GDP growth. Economic growth is set to pick up this year, as large infrastructure projects, strong credit provision, higher wages and a supportive FY 2023 budget bolster domestic demand.
- As a result of improved tax collection, the government's budget deficit is projected to decrease to below 2.8% of GDP(2022/2023), with the gap to be closed by a combination of domestic and foreign borrowing.

Source: World Bank, IMF & Focus Economics.

Regional Outlook (continued)

Rwanda

- External financing through grants, concessional and non-concessional borrowing, has played a key role in financing public investments.
- Going forward, the private sector looks set to play a bigger role in helping to ensure economic growth.

DR Congo

- Economic growth is estimated at 6.1% in 2022, keeping the strong momentum from 2021 (6.2%). Mining sector investment and exports remain the key drivers of growth supported by improved mineral prices and higher public investment.
- The fiscal deficit is projected to deteriorate to 3.0% in 2022 (from 1.0% in 2021) as improved revenue mobilization cannot fully offset higher capital and current transfer spending. Revenues are estimated at 14.4% of GDP in 2022, owing to favorable commodity prices and digitalization of the revenue collection process.

Source: World Bank, IMF & Focus Economics.

Regional Outlook (continued)

South Sudan

- A two-year extension of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan (R-ARCSS) to February 2025 will allow the government to meet key milestones.
- At the same time, a resumption of oil production in oil fields, previously shutdown due to conflict, has raised the prospects of an economic recovery.
- The country faces the risk of these gains being reversed, though, with incidents of violence increasing in 2021 (and continuing into 2022), severe flooding, and the lingering effects of COVID-19 pandemic all making an already dire situation worse.
