COMMENTARY

Performance

In the first half of 2025, total revenues increased by 8% to Kes 56.8 million in the period compared to Kes 52.8 million realised in the same period of 2024.

The company produced 1,938 tons of green leaf, which in turn was manufactured into 433 tons of black tea. This was a 5% increase in made tea volumes compared to the first half of 2024.

The company posted a pre-tax loss of Kes 22.2 million in the first half of 2025 compared to a pre-tax loss of Kes 19.6 million in 2024. This decline in performance is driven by rising labour cost.

Dividend

The Directors do not recommend an interim dividend.

Prospects

Operational costs have increased significantly due to rising labour expenses, leading to higher overall production costs. Contrary to expectations, market prices have declined, primarily influenced by global foreign exchange challenges in key tea markets.

Management will continue with cost containment measures and quality improvement initiatives to ensure the company continues to deliver steady performance.

Ms. Dorcas Muli

CHAIRPERSON

29th August 2025
