COMMENTARY ON PERFORMANCE

Due to cheap and low quality products imported into the Country by competition, the gross turnover dropped by 7% to Kshs 330.3 Million from Kshs 355.8 Million reported for a similar period last year.

In spite of the high cost of sales, the group's profit from operations improved by 98.4% to Kshs 38.2 Million (2013: Kshs19.25 Million) which translated to profit before tax of Kshs 15.4 Million up from Kshs 9.1 Million posted last year.

The profit after tax improved to Kshs 10.43 Million up from Kshs 7.16 Million reported in a similar period last year.

FUTURE OUTLOOK

In spite of the economic challenges faced across board, the Board of Directors is confident that the next half of the group's financial year would reflect better performance

The group has embarked on a Kshs 500 Million plan to redevelop its real estate property based strategically along Enterprise road, Industrial Area, Nairobi.

After completion of the ongoing property redevelopment, the group's real estate entity would be expected to improve its rental

income substantially.

The ongoing sale of the group's Nanyuki road property where its fully owned PVC manufacturing subsidiary is based is expected to be completed by the end of this financial year.
