Key Notes

2020 was a watershed year for Nairobi Business Ventures Public Limited Company (NBV). This was the year that Delta International FZE acquired majority shareholding of NBV setting the company on a new path.

During the financial year 2020-21 NBV restarted its business and reported a turnover of KSh 45 million as against zero turnover the previous year. NBV also reported a net profit of KSh 32.94 million as against a net loss of KSh 39.44 million partly as a result of derecognition of financial liability. This is a positive sign of NBV's turnaround and bright future.

NBV is going to the second phase of expansion. NBV will be acquiring four firms which will allow NBV to go into maintenance in aviation, cement manufacturing and truck maintenance in addition to the trading business which shall continue. These proposed acquisitions shall add approximately KSh 3.4 billion worth of assets.

In the third phase, NBV will be coming back to the financial markets to raise funds to support the expansion of the truck fleet maintenance business, the aviation maintenance business, NBV's trading business and, most importantly, the cement manufacturing business.

NBV Board has not declared dividend for the financial year ending 31st March 2021.
