Overview:

Revenue for the six-months ended 30 June 2012, was up 17.3%, at Kshs647.3 million (2011: Kshs551.8), with profits before tax up 57.2%, at Kshs118.4 million (2011: Kshs75.3). Earnings before interest and taxes increased from Kshs60.3 million to Kshs101.3 million in the same period.

The increase in turnover was achieved through strong sales. An improved economic climate, input cost stability together with the restructuring actions implemented in 2010 and 2011, resulted in the improved profitability.

The financial statements have been prepared on the basis of the same accounting policies as in the previous audited accounts.

Outlook:

The board expects that the stable macro-economic environment enjoyed in the first half of the year will continue in the second half. Should this be realised, the positive trading results of the Company will be maintained for the full year.

Dividend:

The board of directors have declared an interim dividend of Kshs 2.00 per share for the six-months ended 30 June 2012 to be paid on or around 5 October 2012 to shareholders on the register at close of business on 6 September 2012. In view of the ambitious capital projects that the company is considering, the dividend policy will be reviewed in the second half of the year.
