Commentary on the results

The Board of Directors is pleased to announce the unaudited results for the half-year ended 30th June 2022. The same accounting policies and methods of computation have been used as were in the last financial statements.

Business commentary

During the half-year ended 30 June 2022, Group's revenue grew by 22% to KShs 6 billion from KShs 4.9 billion in June 2021. Profit before tax stood at KShs 426 million, a decrease of 15% compared to a profit before tax of KShs 503 million for the period ended 30 June 2021. The decrease in profitability is largely attributed to the increased cost of raw materials, volatility in foreign exchange rates and general increase in operating costs due to price inflation. The Board is monitoring the current economic situation and its impact on the business profitability.

Dividend

The Board of Directors does not recommend payment of interim dividend.
