Dr. Uzziel Ndagijimana, Group CEO, commented

“BK Group entered 2026 with continued momentum across the franchise. Consolidated operating income grew 13.8% year-on-year and net income reached RWF 26.9 billion, even as we absorbed higher operating and tax costs and navigated a more demanding credit environment. Our capital position strengthened further, giving us the headroom to keep investing across our banking, insurance, investment, and technology businesses.

As an integrated financial services group, our priority remains disciplined growth, prudent risk management, and the steady expansion of Rwanda's financial system — supported by the breadth of our subsidiaries and the strength of our balance sheet.”

FY 2025 Financial Highlights

Earnings performance:

BK Group delivered a solid revenue performance in the first quarter of 2026, with total operating income reaching RWF 72.3 billion, up 13.8% year-on-year. Net interest income was the primary driver, rising 15.2% to RWF 57.8 billion as interest income grew 8.4% to RWF 71.4 billion and interest expense declined 13.3% to RWF 13.6 billion. The reduction in funding costs reflected active liability management, with the cost of funds easing to 2.4% from 3.1% a year earlier.

Net non-interest income increased 8.8% to RWF 14.5 billion. Net fee and commission income grew 26.7% to RWF 9.5 billion, while foreign-exchange-related income declined 34.8% to RWF 3.5 billion against an elevated prior-year comparative. Net income rose 6.9% year-on-year to RWF 26.9 billion; growth trailed operating income as recurring costs and the effective tax charge increased during the period.

Operating Efficiency:

Total recurring operating costs increased 22.6% to RWF 26.4 billion, outpacing operating income growth and lifting the cost-to-income ratio to 36.6%, from 33.9% in Q1 2025. The increase was concentrated in administration and general expenses, which rose to RWF 11.2 billion from RWF 7.3 billion, while personnel costs increased 3.7% to RWF 11.8 billion. The cost-to-income ratio nonetheless improved from 41.6% in the fourth quarter of 2025. Management continues to monitor administrative cost growth as it invests in the Group's operating platform.

Credit Risk & Asset Quality

Net impairment on loans and advances was RWF 6.9 billion, up 8.2% year-on-year. The non-performing loan ratio rose to 4.8% at 31 March 2026, from 3.6% a year earlier and 2.9% at 31 December 2025, and the annualised cost of risk was 1.56%. The NPL coverage ratio stood at 49.5%. Management is monitoring the increase in non-performing loans and the associated coverage level, and continues to apply its provisioning framework under IFRS 9.

Balance sheet growth remained solid:

Total assets grew 13.1% year-on-year to RWF 2,947.3 billion (US\$ 2.01 billion) and were broadly stable relative to year-end 2025. The year-on-year position was supported by:

- Net loans and advances of RWF 1,661.5 billion, up 7.3% year-on-year; against the high base at 31 December 2025, net loans were 1.6% lower on a year-to-date basis.
- Client balances and deposits of RWF 1,876.8 billion, up 11.7% year-on-year and broadly stable year-to-date (-0.4%).
- Cash balances with banks of RWF 689.9 billion, more than double the prior-year level (RWF 326.9 billion) and up 27.1% from year-end 2025, supporting liquidity buffers.
- Shareholders' equity of RWF 522.1 billion, up 12.7% year-on-year.
- The gross loan-to-deposit ratio stood at 81.8%, unchanged from year-end 2025 and within the Group's operating range. The Group's capital position strengthened, with the core capital ratio at 22.1% and the total qualifying capital ratio at 23.4% of risk-weighted assets, both ahead of regulatory minimums and improved from a year earlier. Liquid assets represented 40.6% of total assets.

- The bancassurance channel generated RWF 516.9 million in GWP, up 45.6% year-on-year, and the agent network expanded to 143 agents. BK General Insurance remained the fourth-largest insurer in the market by gross written premiums and the most profitable..

3. BK Capital

- Assets under management reached RWF 153.1 billion at 31 March 2026, a 66% year-on-year increase, supported by new client acquisitions and increased pension contributions, though broadly flat over the quarter (-1%) following large redemptions in the Aguka fund in March 2026.

Gross margin compressed to 53% from 65% a year earlier, reflecting higher USSD charges and a reclassification of certain Software-on-Demand costs to cost of sales.
- The business recorded a loss before tax of RWF 206 million for the quarter, compared with a loss of RWF 81 million in Q1 2025, as lower gross margin and reduced grant income offset operating cost savings..
