Diamond Trust Bank (DTB) is a leading, Tier I East African commercial bank headquartered in Nairobi, Kenya and listed on the Nairobi Securities Exchange (NSE) since 1972. As one of Eastern Africa's leading and longest established banking groups, we understand the intricacies of the region's markets and provide a wide range of services in business and retail banking. To continue staying at the forefront of the industry, we are **re-imagining banking**.

We use innovation and digital technology to extend our reach, provide convenience and a better customer experience, as well as become more agile in creating tomorrow's solutions. The Group remains **a purpose-driven institution** with a tailored corporate culture to the local markets in which it operates in and is driven towards a more **customer-centric and innovative business organisation**.

MACRO- ECONOMIC HIGHLIGHTS

GDP Growth

Exchange Rate to USD

Inflation, CBR and 91-Day T-Bills rate (%) Kenya

- T-bill rates have recorded a decline as the Government extends the tenor of its domestic borrowings to ease its liquidity pressure.
- Inflation pressures are expected to be elevated in the near term mainly driven by increases in food and fuel prices, and the impact of the recently implemented tax measures

Central Bank Rates (CBR)

- CBR remained fairly stable in the region.
- As at 31 July 2021, CBR is only applicable to 29% (KShs 18.7 bn) of DTB Kenya's legacy Kenya Shilling denominated loans still under Rate Cap Law (now repealed).

Our business strategy, *DTB Vision 2020*:

- Rank among the top tier banks by liabilities.
- Be a sustainable deposit led bank (CASA).
- Play a leading role in transitioning economies to support economic development.
- incorporated digital channels (enriched mobile banking and enhanced on-line banking platforms, cards, cash management solutions, digital branches, social media channels, etc.)

2010

2020

DTB Strategy 2030 and Beyond: under review and modification:

- will take into account the changing environment and customer behaviour, including the ongoing effects of the unexpected COVID-19 pandemic and the post-pandemic business landscape.
- will be anchored on the improvement in the quality of lives of customers – those that DTB is currently serving, as well as those that are under-served.
- will be digital at the core through continued investment in its people, new skills and technologies (Big Data analytics, Artificial Intelligence (AI), robotics, cloud computing, etc) and innovation.

NIMS broadly similar to 2020.

Low interest yields and higher cost of funds on skewed funding mix to expensive deposits.

Continued efforts to reduce DTB's cost of funds.

Efforts to grow a sustainable deposit base composed of CASA to lower the over cost of funds.

Continued focus on fee income driven by digital products and services offerings.

Through a revamped digital platform and new product offerings, the Bank is optimistic of improving its fee income ratio.

Optimism on performance rebound.

Based on the current performance, there are indications of improving performance going forward.

NPLs and cost of risk to remain at elevated levels.

The current credit risk environment is still volatile and default risk remains elevated.
