- DTB 2020 Integrated Report & Financial Statements

VISION

Enabling people to advance with confidence and success

MISSION

To make our customers prosper, our staff excel and create value for our stakeholders.

VALUES

Integrity - Be Ethical and Fair

- We honour our commitments and do what is right
- We are fair, respectful and honest at all times
- We are ethical in our decisions and interactions
- We take responsibility for our actions
- We are prudent and responsible with the assets entrusted to DTB

Customer Centric - Deliver Great Experiences

- We value our customers and develop products and services around their needs
- We provide exceptional service to all we serve
- We understand and respect our customers
- We deliver solutions that add value to our customers' lives
- We consider the impact of our policies and decisions on our customers
- We endeavor to be fully transparent with our customers

Value People - Respect, Empower, Appreciate

- We treat our people equitably and make decisions on merit
- We invest in people and provide opportunities for learning and growth
- We empower people to do what is needed for success
- We provide a positive and collaborative work environment
- We celebrate our successes and recognise people for their contributions
- We encourage and embrace diversity

Progressive - Innovate and Challenge

- We challenge our thinking to raise the bar
- We encourage our team members to question the status quo
- We innovate and adapt to change
- We positively impact and serve the communities in which we live

Excellence - Be Your Best

- We take ownership of what we do
- We relentlessly pursue quality without compromise
- We consistently adhere to measurable standards and look for ways to exceed them
- We benchmark against the best

- a leading, Tier I East African commercial bank headquartered in Nairobi, Kenya
- listed on the Nairobi Securities Exchange (NSE) since 1972.
- understand the intricacies of the region's markets and provide a wide range of services in business and retail banking.
- continuously re-imagining banking.
- use innovation and digital technology to extend DTB's reach, provide convenience and a better customer experience, as well as become more agile in creating tomorrow's solutions.
- remaining a purpose-driven institution with a tailored corporate culture to the local
- driven towards a more customer-centric and innovative business organisation.

DTB Vision 2020:

- Rank among the top tier banks by deposits.
- Be a sustainable deposit led bank (CASA).
- Play a leading role in transitioning economies to support economic development.
- Incorporated digital channels

DTB Vision 2020 targeted DTB to be rank among the top tier banks by deposits with a market share of over 5%

Achieved in 2015

Source: CBK Bank Supervision Annual Report 2010, 2015 and 2020

DTB Vision 2020, envisioned DTB as a 'one- bank, one customer' omnichannel regional bank – provides seamless and consistent customer experience, across borders, through a multiplicity of channels – traditional (branches, agency banking, etc.) and also digital channels (enriched mobile banking and enhanced on-line banking platforms, cards, cash management solutions, digital branches, social media channels, etc.) DTB is now looking to build on this foundation with a new draft business strategy which is under review- DTB's growth strategy for 2030 and beyond :

takes into account the changing environment and customer behaviour, including the ongoing effects of the unexpected COVID-19 pandemic and the post-pandemic business landscape.

is anchored on how DTB will contribute to the improvement in the quality of lives of customers – those that it is currently serving, as well as those that are under served - and, indeed, the broader community in which DTB operates.

will involve having a robust and all-inclusive SME ecosystem which provides financial and non- financial value- added services to SMEs and their owners, employees, vendors and customers.

will be implemented in the midst of an even more fast evolving and disruptive business landscape than has been the case thus far, the strategy will be anchored on three principle pillars:

- (i) DTB being digital at the core, whilst abiding by the disciplines of
- (ii) operational excellence and
- (iii) compliance excellence.

will involve developing ecosystems through partnerships with telcos, fintechs, etc, and use of digital channels, DTB plans to broaden the SME ecosystem to cover different customer sub-segments such as women and youth.

seeks to ensure that as a leading Tier 1 commercial banking group operating in East Africa, it continues to remain relevant, as a financial services intermediary player, in all the markets it is present in.

will require DTB to continually invest significantly in its people, new skills, technology assets (Big Data analytics, artificial intelligence (AI), robotics, block chain technology, cloud computing, cyber security etc.) and innovation capabilities over the 2021-2030 strategy period and beyond.

Tapping into SME Ecosystems: (Financial Services)

Employees:

- Digital account
- DTB Inua- Employee salary advances
- Unsecured salaried loans

Suppliers:

- CASA Accounts
- Value chain financing- Distributor and buyer financing
- Invoice discounting
- DTB Inua Biashara*

Customers:

- DTB Supply Express
- CASA Accounts
- Unsecured salaried loans
- DTB Inua Biashara*

Owners:

- Digital account
- Credit card
- Mortgage

Tapping into SME Ecosystems: (Value Added Services)

Diamond Trust Bank (DTB), in partnership with the Kenya Bankers Association (KBA), has been hosting an online series of **financial literacy training sessions** aimed at empowering micro and small-business owners to grow their businesses.

Nearly 1,000 MSME operators across Kenya have been trained since 2019 (**420 MSME operators** covered in 2021).

In June 2021, DTB partnered with the University of Nairobi's Women's Economic Empowerment Hub (WEE) and the National Treasury. Women entrepreneurs were sensitised about access to the National Treasury sponsored **Credit Guarantee Scheme** and engage them on how to access quality and affordable credit.

Over KShs 120 bn transferred through the *m24/7* channel from Jan 2021 to Sep 2021

Customers deposits using mobile platforms up by **3X**

Using *m24/7* mobile banking platform our customers can:

- **open a Bank 24/7 digital account** in **under 5 minutes**.
- make **seamless payments** to settle their **credit card balances**.
- worry less about security by **authenticating transactions** using leading **biometrics** such as **facial recognition**.
- conveniently be informed of recent and upcoming transactions through **in-app notifications**.
- **confirm** their beneficiary's name **before sending money** to another DTB customer.
- effortlessly **book fixed deposits** directly from their phone promoting a convenient savings culture.
- easily conduct **foreign currency internal transfers** denominated in USD, GBP and EUR.
- comfortably **send/ receive Western Union transfers** directly on their phones.
- **send money** to and from their DTB account effortlessly to third party.

Using *i24/7* our internet banking platform, is a 'walk in the park' experience for our customers as they can:

- **pay** their **taxes** real time on KRA's iTax portal.
- no longer queue in long lines to **pay bills** to Kenya Power and Nairobi Water.
- easily **transfer foreign currency** denominated in USD, GBP and EUR.
- **transact securely** with a one-time pin sent on email every time they log in to the *i24/7* portal.
- **view accounts** of **related companies** effortlessly on a single screen.
- get a **360 view** of **all** the **products** they subscribe to, without a hitch.

DTB's approach to improving its sustainability disclosures and outcomes is guided by the following SDGs:

Major Sustainability Milestones:

DTB joined the UN Global Compact in August 2021 and committed to support and implement the UNGC Principles on human rights, labour, environment, and anti-corruption.

DTB has embarked on collecting, calculating, reporting, reducing, and offsetting the Bank's carbon emissions with the aim of being carbon neutral by 2030.

DTB has collected and recycled **over 3.7 tonnes** of paper waste since October 2019.

DTB focused efforts on access to clean water by funding the drilling of 3 boreholes and construction of 40 water catchment springs in Mombasa and Migori, **enabling over 20,000 households access safe water**.

In the effort to promote SDG 5 on Gender equality the ratio of men to women in 2021 is **51:49**. 31% of the executive management across the Group comprises of women.

As part of the effort to sustainably contribute to Environmental Conservation and offset our Carbon emissions DTB runs a campaign dubbed **Much More Than Trees (#MMTT)**. The campaign aims to engage and empower various community members to plant, nurture and protect trees within the Environment as they benefit from them in the long run. So far **more than one million trees have been planted** through the initiative

DTB hosted a series of financial literacy training sessions aimed at empowering micro, small and medium-business owners to run their businesses in a sustainable and efficient manner. The Bank hosted **3,200 participants** over 8 sessions.

DTB is also one of seven banks that has partnered with the National Government to implement the Credit Guarantee Scheme, which offers SMEs affordable credit to sustain their operations from the adverse effects of the pandemic. So far, **over 170 loans** amounting to KShs 249 plus have been disbursed upto 31 October 2021.

DTB launched an initiative dubbed **#AchieveMoreGirls** in which DTB is committed to spend **Kshs 50 Million over five years** on an initiative to support over 30,000 schoolgirls access quality menstrual health products. In 2020 and 2021 more than 15,000 girls have been reached.

MACRO- ECONOMIC HIGHLIGHTS

Real GDP Growth (Y-o-Y)

Source: WorldBank-
Economic Survey 2021
8 October 2021

Macro economic review:

- Economic recovery propelled by renewed momentum from key sectors previously adversely impacted by COVID-19 induced hardships since 2020 i.e. manufacturing, tourism, and real estate.
- Economic growth could be hampered by high debt service costs, high fiscal deficits due to unanticipated COVID-19 response expenditures.
- The increasing debt has resulted in a rise in sovereign risk through diversion of development funds towards debt repayment, increase in taxation to enable the Government meets its obligations.

Real GDP Growth (Y-o-Y)

Source: WorldBank-
Economic Survey 2021
8 October 2021

Macro economic review:

- GDP growth supported by increased domestic demand and exports.
- Overall macroeconomic framework remains sound, with low inflation and moderate external and fiscal vulnerabilities, however COVID-19 has adversely affected employment and income.
- Overall economic recovery and general expectations indicators remain weak, reflecting both the COVID-19 shock and sluggish recovery anticipated owing to delayed enactment of containment measures by the Government.
- The global economic recovery is expected to bolster demand for Tanzania's non-traditional goods and services exports while increasing foreign direct investments and capital project financing.

Real GDP Growth (Y-o-Y)

Source: WorldBank-
Economic Survey 2021
8 October 2021

Macro economic review:

- Ugandan economy is recovering from a sharp contraction due to the COVID-19 induced shocks that had slowed growth to its lowest pace in over three decades.
- This growth is anchored on agricultural output and export coupled with the use of improved farming practices to manage weather variability.
- With modest recovery in foreign direct investment, Government borrowing has financed the current account deficit, which widened to 9% of GDP in the first half of year 2021.

Real GDP Growth (Y-o-Y)

Source: WorldBank-
Economic Survey 2021
8 October 2021

Macro economic review:

- The weak economic growth in relation to the population growth is leading to a continuous rise in the poverty rate, which is expected to reach 87.1% in 2021.
- The Government has strongly mobilised internal resources, but this has not been sufficient to meet an ever-increasing social demand, driven by sustained population growth.
- COVID-19 impacted the fragile economic recovery and intensified macroeconomic imbalances.

"The appreciation of the Shilling has been due to strong forex inflows, especially portfolio inflows, attracted by yields on government securities in comparison with yield obtainable on safe haven investments in advanced economies,"
 -Dr Adam Mugume, Bank of Uganda, Executive Director for Research.

Kenya Average Short Term Interest Rates (%)

- The upward shift in the yield curve is due to increased budgetary financing pressure: revenue shortfalls are being funded by the accelerated domestic borrowing.

Tanzania Average Short Term Interest Rates (%)

- Treasury bonds of >3 years tenor exempted from taxes July 2021, has shifted demand for short dated treasury bills to bonds.

Uganda Average Short Term Interest Rates (%)

- The prevailing high liquidity levels within the banking industry, coupled with the shift by Government to replace domestic debt with foreign borrowing from the Brettenwood institutions on more concessionary terms led to a lowering of the yield curves.

Burundi Average Short Term Interest Rates (%)

- Fairly stable rates maintained since September 2020.

Inflation Rates (%)

- Save for Burundi, inflation remained anchored at single-digit levels despite supply side pressures related mainly to rising energy prices globally and weakening of local currencies.
- Inflationary pressures are expected to escalate if the prevalent drought conditions in Kenya persist.

NIMS broadly similar to 2020.

Low interest yields and higher cost of funds on skewed funding mix to expensive deposits.

Continued efforts to reduce DTB's cost of funds.

Efforts to grow a sustainable deposit base composed of CASA to lower the over cost of funds.

Continued focus on fee income driven by digital products and services offerings.

Through a revamped digital platform and new product offerings, the Bank is optimistic of improving its fee income ratio.

Optimism on performance rebound.

Based on the current performance, there are indications of improving performance going forward.

NPLs and cost of risk to remain at elevated levels.

The current credit risk environment is still volatile and default risk remains elevated.

Forward-looking statements are not statements of fact, but statements made by the Group based on our current estimates, projections, expectations, beliefs and assumptions regarding the Group's future performance. No assurance can be given that forward-looking statements will be correct and undue reliance should not be placed on such statements. These statements, by their nature, involve risk and uncertainty, as they relate to events and depend upon circumstances that may or may not occur in the future. Factors that could cause actual future results to differ materially from those in the forward-looking statements include, but are not limited to, changes in (a) global and national economic conditions, (b) our trading environment, (c) future strategies as contained in our strategic priorities and plans included in the strategic trends, (d) interest rates, (e) credit conditions and the associated risks of lending, (f) actual cash collections, (g) gross and operating margins, (h) capital management and (i) competitive and regulatory factors. The Group does not undertake to update or revise any of these forward-looking statements publicly, whether to reflect new information or future events or otherwise. The Group does not assume responsibility for any loss or damage arising as a result of the reliance by any party thereon, including, but not limited to, loss of earnings, profits, or consequential loss or damage.
