Commentary on the results

The Board of Directors is pleased to announce the unaudited results for the half-year ended 30th June 2021. The same accounting policies and methods of computation have been used as were in the last financial statements.

BUSINESS COMMENTARY

During the half-year ended 30th June 2021, the increased uptake of our product has seen Group revenue grow by 25% compared to a growth of 10% for the comparable June period in 2020. The covid-19 containment measures continue to negatively impact the cost of production as we have witnessed an increase in the cost of raw materials and transport cost. This impact remains a challenge to the business as it puts pressure on the profitability of our products and cashflow. The regional governments continue to put emphasis of the need for people to take up the Covid Vaccinations being rolled out. This is hoped to ease the pressure of its effects in the economy. The Group hopes that the strengths of our brand, our network of stakeholders and the loyalty of our customers continues to yield better returns for the business and this is hoped to remain into the foreseeable future.

DIVIDEND

The Board of Directors does not recommend payment of interim dividend.

By Order of the Board

Conrad Nyukuri,
Company secretary
27th August 2021
