NOTES TO INTERIM FINANCIAL STATEMENTS

The same accounting policies and methods of computation are followed in the interim statements as compared to the most recent annual financial statements.

BUSINESS COMMENTARY

Cash flow from operation has improved compared to corresponding period of 2010. However increase of Inventory, tax payment and capital Investment contributed to reduced lower cash in hand on 30th June, 2011. Group Turnover has increased by 27% with corresponding period of 2010. However net margin could not be sustained in proportion to turnover growth due to currency devaluation and increase of raw material prices.

OUTLOOK

Outlook for second half is a matter of concern due to the current economic situation in the country and the board has taken effective measure to sustain profitability with positive note.

DIVIDEND

The Board of Directors does not recommend payment of an interim dividend.

By Order of the Board
Conrad Nyukuri
Company Secretary
