

UNGA GROUP Plc

2017 | ANNUAL REPORT &
FINANCIAL STATEMENTS

WHO WE ARE

Unga Group Plc is a Kenya-based holding company that has a majority shareholding in companies involved with the manufacture and marketing of a broad range of human nutrition, animal nutrition and animal health products.

In 2000, the company entered into a strategic investment partnership with US-based Seaboard Corporation to form Unga Holdings Limited in which Unga Group Plc owns 65% and Seaboard Corporation 35%.

Unga Holdings Limited is headquartered in Nairobi with four operating subsidiaries:

- Unga Limited prides itself on being Kenya's oldest and still one of the largest millers, with over a century of heritage in grain milling.
- Unga Farm Care (EA) Limited is the region's leading manufacturer and marketer of a broad portfolio of quality animal nutrition and health products.
- Ennsvalley Bakery Limited is a specialty bakery producing a wide range of healthy and delicious breads, rolls and baked confectionary products.
- Unga Millers (U) Limited mills wheat flour in Kampala and distributes a range of products from its related companies in Kenya.

“

OUR VISION

Nutrition for Life

OUR MISSION

Achieve and maintain market share leadership in the provision of superior human nutrition, animal nutrition and animal health products and services for the benefit of all stakeholders within East Africa.

”

OUR CORE VALUES

We are an organisation that delivers on the expectations of our customers and other stakeholders by living these core values:

STRATEGIC PILLARS

Unga Group Plc has embarked on its Business Transformation journey built on the following strategic pillars, which will inform the specific activities that will be undertaken over the next five years.

SUPPLY CHAIN OPTIMISATION

UGP will carry out a structural review of its organisation to achieve an overall improvement in its end to end supply chain efficiency as a key measure of success.

GEOGRAPHIC EXPANSION

UGP will develop a regional footprint by setting up new animal feed production sites in East Africa, expanding its bakery business and developing flour market opportunities in Uganda.

CUSTOMER INTIMACY

UGP will be innovative to meet evolving consumer needs and ensure that its products are available On Time, In Full and Error Free.

PEOPLE

UGP will be an equal opportunity employer where diversity and inclusiveness is sought, contribution is valued and with a reward for performance system which attracts and retains top talent.

NEW PACK. SAME GREAT QUALITY & TASTE.

Touching lives through quality nutrition

Human Nutrition.

As one of the largest millers in East Africa with a heritage of over a century in grain milling, we strive to provide a variety of superior human nutrition products ranging from wheat flour products to maize meal, porridge, pulses and rice. Our range of wheat, maize and products are versatile to suit the needs of our customers. They are made from the finest and carefully selected grains to ensure that they offer superior nutrition to our customers. Our range of pulses and rice products are well preserved to ensure that they maintain their natural richness and nutrition right from harvest to packaging. We accomplish all this by paying attention to detail and striving to ensure quality consistency so that we offer the very best to our customers.

Alama ya Ubora

A heritage of consistent quality animal nutrition and health products across the East African Region

Animal nutrition

As the region's leading manufacturer and marketer of a broad portfolio of quality animal nutrition and health products, we offer a range of products to ensure that your livestock get the best in class nutrients and health care. Our range of animal feeds provide the right nutrients and offer a complete source of nutrition for poultry, cattle and pigs. We also have a range of minerals which are well balanced and formulated to derive the best results for your livestock. For the poultry range, we have a number of premixes which can be used to make mash for chicks ranging from 1 day old to 9 weeks and even for hens. For poultry health we offer a range of vaccines for broad range of diseases protection and nutritional supplements and multivitamins.

Livestock

We also have dairy premixes which are used in dairy feed formulation for higher sustained milk production. On animal health, we offer a range of products for tick control, worm management and a range of antibiotics.

CHAIRMAN'S STATEMENT

Isabella Ochola-Wilson

Key Highlights

Dear Shareholder,

I am pleased to present to you the Unga Group Plc Annual Report and Financial Statements for the year ended 30 June 2017.

Unga Group Plc remains amongst the leading Human and Animal Nutrition companies in Kenya, recording an average annual revenue growth rate of 6% between 2014 and 2016. However, the operating environment in 2016-17 was challenging for most businesses characterised by political uncertainties, tight credit and region-wide drought that resulted in serious shortages of one of our key raw materials, maize. Against these difficult conditions, sales volume grew 3.3% and revenue by 3.1%.

Economic Landscape

The economic environment in two of the East African countries in which Unga operates remained fairly stable. In Kenya, the economy grew by 5.8% while overall year-on-year inflation was 9.2% as of June 2017. Agriculture contracted 1.7% amid poor rains that affected crop production and animal rearing; maize declined in production by 12.7% from the previous year due to drought, the high cost of farm inputs and residual effects of maize necrotic virus disease, while wheat production declined by 6.8%. Uganda's economy recorded annual growth of 3.9% with all sectors experiencing slower growth compared to the previous year; the annual inflation rate was 6.4% in June 2017.

Performance in a Challenging Operating Environment

In a year characterised by shortage of raw materials, aggressive and ever increasing competition, unstable supermarket chains and electioneering, our wheat and porridge brands delivered strong volume growth of 10% and 6% respectively, whilst maize brand volumes dropped by 2% compared with the previous year. During the year we introduced new packaging for the porridge portfolio, accompanied by a strong marketing and promotional campaign, which delivered strong results. The growth of wheat products was driven mainly by higher demand in the face of maize flour scarcity, a continually improving route-to-consumer model and competitive pricing.

Performance in the Animal Feeds business saw volume growth of 18% and 5% for the Dairy and Layer feeds respectively while Broiler feed volumes declined by 25%, primarily due to unfavorable pricing when compared with lower quality and cheaper products produced by small millers.

A significant part of Ennsvalley Bakery Limited's business was anchored in its in-store bakery operations in a large number of Nakumatt stores, a relationship that has existed for several years. In 2016-17, the business was negatively impacted by credit challenges facing the retail sector forcing us to exit from most Nakumatt outlets in order to put an end to the ever increasing debt level. This however substantially reduced sales both from the shelves and from the counters. Whilst management immediately embarked on a strategy to grow volumes and revenue through a direct distribution channel, the significantly reduced operations resulted in a goodwill impairment of Shs 151 million.

CHAIRMAN'S STATEMENT (continued)

The Board nevertheless remains committed to its pursuit of value-added opportunities in the bakery sector and now owns 100% of Ennsvalley Bakery Limited, having reached an agreement with the minority shareholder to purchase their entire non-controlling interest (NCI) in the company. The agreed consideration resulted in a gain of Shs 153 million. The goodwill impairment was booked in the Statement of Profit or Loss while the gain on acquisition of the NCI was recognised directly in retained earnings within shareholders equity.

In Uganda, our business continued to be faced by a challenging business environment and sustained price wars that saw the business record operating losses for the third consecutive year. Bad debt provisions and local currency depreciation against the US dollar significantly worsened the company's performance. The Board consequently reviewed the existing Ugandan business and reached a decision to cease flour milling operations while it evaluates available business re-modelling options going forward. We are therefore reporting the entity as a discontinuing operation.

In order to reduce employee-related costs, the company carried out a staff rationalisation program at Ennsvalley prompted by the exit from most Nakumatt stores. This, coupled with increased marketing expenditure and the significant depreciation cost associated with the commissioning of a new ERP system, resulted in a 72% decline at the Operating Profit level. In line with this, Profit after Tax recorded a 106% drop compared to the previous year.

The year 2016-17 was a mixture of highs and lows. Amongst the highs, we commenced the construction of a new wheat mill in Eldoret in order to respond to capacity constraints and a growing demand for wheat products, we completed the upgrading of our grain storage silos in Nairobi and Eldoret, we redesigned the packages of our porridge brands to give us high visibility on the shelf, and also launched 1kg packs for Hostess®, Exe® Mandazi and Exe® Atta Mark 1 in order to drive volumes in the price sensitive consumer category.

In the animal feed business we diversified from our traditional livestock portfolio into a new market segment. We recognise the need to engage with strategic partners to drive our brand equity and penetration across our region of operation and do so through continuous engagement with suppliers and established organisations such as Nutreco, a global leader in animal nutrition and aqua feed. We have partnered with Nutreco's subsidiary Skretting

to leverage on their technical expertise in the production of quality fish feed. A fish feed production facility was commissioned in March 2017 with a view to a full market roll out of a portfolio of tilapia feeds in 2017-18.

In spite of the unfavourable results we continue to do our best to give our shareholders a return on their investment, while we strive to strengthen the business for future growth. We propose to pay a dividend for the year ended 30 June 2017, making this the eighth consecutive year we have done so.

The Journey Ahead

Looking forward and continuing with our transformation agenda to align ourselves to the changing consumer and market needs, the aim of the Board and management is to see Unga quickly return to growth and profitability. To accomplish our objective, we shall be focusing in implementing our 2017-2022 strategic plan and strictly adhering to the planned initiatives and timelines therein in order to accelerate sales growth, improve productivity and empower our organisation and culture to deliver sustained, exceptional performance.

Some of the key initiatives that we shall undertake will entail product rationalisation, entry into new growth areas and new investments that will see us make entry into new human food business segments and strengthen our animal feed business locally and regionally. To enhance our communication technology across the business we are increasingly using online tools which enable us to collect regular feedback from our customers and assess the impact of our initiatives so as to get closer to and improve the overall customer experience.

Organisational Culture Transformation

In recognition of the fact that our success depends upon the people who carry out our vision and build our products i.e. our employees, we embarked on a culture transformation journey in 2016-17. The main objective was to align our employees with our strategic direction, enhance healthy interactions within the workplace and extract the best out of every employees by identifying performance gaps as well as areas of success. To understand the key competencies of our employees, we undertook an extensive competency evaluation exercise and, based on the results, we have put in place career development plans, an improved succession planning process and developed leadership and sales competency frameworks.

CHAIRMAN'S STATEMENT (continued)

Corporate Governance

The Board has fully embraced the 'Code of Corporate Governance Practices for Issuers of Securities to the Public' in line with the requirements of the Capital Markets Authority. For example, Board appraisal is now conducted annually and its findings openly discussed with a view to strengthening its responsibilities and effectiveness. In future such appraisals shall be conducted by an external independent consultant. The Board continues to review its structure in order to have diversity and competencies which are aligned to its strategy.

Sustainability

Over the years, we have undertaken key initiatives to ensure we continue to operate in an eco-friendly environment whilst providing the best possible care to our members of staff. At the beginning of this financial year, we embarked on a number of initiatives the first being the metering of our key sub-systems which has been completed. In addition, we have also completed the installation of variable speed drives at fans at Unga Limited. A similar project is in progress at Unga Farm Care (EA) Limited which we expect to be complete by the end of June 2018. The installation of online oxygen analyzers on boiler chimneys has begun; in the interim we are using portable flue gas analyzers.

This year we once again met the statutory requirements relating to energy management, environmental impact, industrial and fleet safety and health and wellness.

Outlook

We are aware that there will continue to be challenges. According to the World Bank's Kenya Economic Update, Kenya's GDP growth is projected to decelerate to 5.5% in 2018. Poor rains and drought are expected to lead to a continued grain shortage, food insecurity and higher energy costs while the prevailing credit squeeze in the banking industry is likely to continue. The Kenya Shilling is also expected to depreciate 3% by June 2018 on account of slowed inflows around the electioneering period. Although the operating environment is unlikely to ease, we believe that we have set in motion initiatives that will enable us to accelerate our efforts to execute and deliver on our budget and strategy. Total business volumes are targeted to grow by 9% over 2016-17; this will be driven by improved distribution focus, aggressive

marketing and product positioning as well as an expanded product portfolio. Gross Margins and Profit before Tax are expected to improve commensurate with expected volume and revenue growth.

Appreciation

In ending this report, I want to appreciate all our stakeholders and especially you, our shareholder. Without your support Unga would not be able to weather the difficult times and deliver during the good times.

I also want to convey our special thanks to our consumers who, in the face of shortages experienced this year have shown their loyalty to Unga by making many phone calls to find out where they could find their favourite maize meal brands, Jogoo® and Hostess®.

I also appreciate the support we have had from our suppliers and from our other service providers, especially the Ministry of Agriculture, Livestock and Fisheries, who worked very closely and positively with the maize millers to ensure that unga was available to most Kenyans at affordable prices.

The Board also wishes to thank our management and the rest of the staff who have worked extremely hard to ensure that Unga remained a formidable player in the market place despite the very challenging operating environment of 2016-17.

Finally, my special thanks to the Board for the total support they have given me and their very valuable contributions and commitment they have shown at both the Board and Board Committees level.

Thank you.

I Ochoa-Wilson (Mrs)
Chairman of the Board

GROUP MANAGING DIRECTOR'S REPORT

Dear Shareholder,

It is my pleasure to present an overview of our business performance for the financial year ended 30 June 2017.

In this financial year, we have recorded modest growth in sales volumes across the different business lines compared to the prior year. In the Human Nutrition segment, Unga Limited recorded a 6% growth in sales volume. This was mainly driven by active demand creation and production efficiencies for wheat. On the other hand, there was a significant decline in sales volumes for maize which can be attributed to scarcity of raw materials.

Unga Millers (U) Limited noted a 45% growth in sales volumes for the Home Baking category which was driven by Exe® Chapati, a new product. However, total sales volumes for the full financial year were notably lower compared to prior year due to stiff market competition and the security situation in South Sudan.

Ennsvalley Bakery Limited recorded a significant decline in volumes due to the exit from most Nakumatt stores. New supply agreements were signed with Chandarana and Tuskys supermarkets to cushion the business from the impact of the exit.

In the Animal Nutrition segment, our sales volumes grew by 3%. This was mainly driven by Layers and Dairy whose sales volume grew by 5% and 18% respectively. Revenue for this segment declined marginally compared to prior year as a result of a drop in Broiler category sales volumes due to competitive pricing pressure.

Operating Environment

The operating environment has continued to be dynamic in the markets we operate in. Our profitability in the Ugandan market was impacted negatively by price wars. Poor payment by customers and reduced sales volume also constricted our cash flows. Given our business model and product offering, we do not believe there is a good business case to continue operating a flour mill in this market.

In Kenya, Unga Limited recorded lower gross margins compared to the prior year. This was due to the loss of maize volumes occasioned by the scarcity of raw materials and availability of lower priced competitor products. As a requirement of the Government subsidy programme, we ceased production of Hostess® mid-May 2017; we hope to resume production of this key brand in November 2017.

Our participation in the Government Tender through the National Drought Management Authority contributed positively towards the financial performance of Unga Farm Care (EA) Limited, allowing us to successfully deliver more than 1,500 metric tons of drought pellets to affected communities. It is worth noting that this product is now available in the company's portfolio as a standard item.

The closure of Nakumatt outlets, non-payment of outstanding debt, low capacity utilisation and increased prices of key raw materials affected the overall financial performance of Ennsvalley Bakery Limited. In response to this, we focused on securing supply arrangements with Tier II supermarkets, whilst maintaining key accounts such as the United Nations and NAS Servair.

GROUP MANAGING DIRECTOR'S REPORT (continued)

Products and Capacity Enhancement

As has been our custom, we undertook a number of initiatives to expand our business lines and, in this year, to enhance our grain storage capacity. Towards the end of the year, Unga Limited launched new Famila® packs and smaller bales, aimed at increasing off-take within the general trade where cash flow is a barrier to purchase. We also rolled out an inventory replenishment module to our customers. The module assists them with tracking their stock levels so as to reduce instances of stock outs and speculative buying.

As reported last year, Unga Farm Care (EA) Limited partnered with a number of public and private entities under the FoodTech Africa consortium to assist in the development of the aquaculture market in the region. Through this consortium, we commissioned a state-of-the-art production facility in March 2017 which will be used to manufacture high quality fish feed. The plant has the capacity to produce 5,000 tons of feed annually which will be sold under the brand name Fugo® Fish feed. We also established a technical partnership with Skretting, a globally renowned manufacturer of aquafeed, who are availing their expertise on feed formulation, production and marketing. With this venture, we expect to stimulate fish farming in East Africa.

Due to the reduction in the number of in-store bakeries and counters, we are exploring opportunities to develop new markets for our baked products. These initiatives are aimed at driving growth in volume in non-traditional segments for Ennsvalley Bakery Limited. We believe this will help improve the overall performance of the bakery in the coming financial year.

In order to increase Unga Limited's storage capacity, we rehabilitated the Commercial Street wheat silos and also installed a new 11,540 metric ton silo complex in Eldoret. The new silos are expected to reduce our input costs previously incurred from warehousing, handling and bagging.

Raw Material

Securing raw materials has remained a challenge in this financial year. Adverse weather in the broader Eastern Africa region resulted to low crop yield leading to the Government of Kenya making the decision to facilitate the import of duty-free white and yellow maize in April 2017. The costs of raw materials for Unga Limited increased compared to the prior year with maize and finger millet prices increasing by 12% and 21% respectively within this financial period. Unga Farm Care (EA) Limited experienced cases of irregular flow of raw materials, particularly maize, in the last quarter which impaired our ability to fulfill market demands. To manage this impact we opted to utilise substitutes such as local wheat and barley which was competitively priced, although in limited supply.

Looking Ahead

With regards to raw materials, we expect the wheat crop harvest in 2017-18 to be of fair quality and quantity. It will also be more highly priced compared to imports, as the Government continues with the managed wheat buying program. Imported wheat prices are projected to remain low as seen in the financial year 2016-17.

GROUP MANAGING DIRECTOR'S REPORT (continued)

Maize supply is also expected to stabilise with effect from July 2017 as the Government maize subsidy program settles down. The unusually high import levels of maize have created significant pressure on port logistics causing delays in both maize and wheat receipts at the mills. The North Rift maize crop is expected to find a market that is in relatively short supply, thereby forcing pricing for a 90kg bag to be above Kes 3,000.

The ban on plastic bags in August 2017 is also expected to affect our costs of production as we source for paper alternatives for Unga Limited's balers and Unga Farm Care (EA) Limited's outers for transport of its mineral and pre-mix products. We also foresee potential shortages in supply of paper alternatives due to high demand which might further increase our cost of purchase.

Regionally, as mentioned earlier, we have made a strategic decision to cease flour milling in the Ugandan market. However, we will continue to distribute our animal nutrition products and specialty flour products targeted at the modern trade in selected areas.

We will continue to engage, through appropriate industry associations, with the Government to quickly identify a sustainable solution to the ever increasing threat of less expensive wheat flour imports from Tanzania, a consequence of Kenyan entities having to mill higher cost local wheat and incurring higher logistics costs.

In the coming financial year, our main distribution focus will be on driving a stronger foothold in the grocery channel, which contributes 60% of total industry volume. For the wheat Category, we will aggressively drive Exe® specialties (Chapati, Mandazi, Self Raising & Atta) through product positioning. We will leverage on the addition of key product extensions to grow the high-end segment by exploring culinary excellence and adventures for the maize category. In addition, we will actively seek to recruit younger consumers (age group 19-30 years) with the new Famila® pack by expanding the portfolio in line with trends in the category.

In the Animal Nutrition segment, we will continue with the implementation of an improved Route-to-Consumer model, which will be supported by an integrated communication campaign to drive our brand visibility in the ruminant and poultry categories.

On behalf of the management and staff, I extend our sincere appreciation to our Board, Shareholders, Customers, Business Partners and Regulators; we continue to count on your support and commitment.

Nick Hutchinson
Group Managing Director

NEW PRODUCTS AND OPERATIONAL EXCELLENCE

On the 16 May 2017, the Permanent Secretary, Fisheries and the Blue Economy, Professor Micheni Ntiba CBS, representing the Cabinet Secretary, Ministry of Agriculture, Livestock and Fisheries, officially opened the Unga Farm Care (EA) Limited extruded fish feed production facility in Nairobi, Kenya, alongside the Board Chair of Unga Group Plc and His Excellency Mr. Frans Makken, the Netherlands Ambassador to Kenya. Amidst the growing demand for fish protein to improve food security in East Africa, Unga Holdings Limited, a manufacturer of human nutrition and animal nutrition products invested in the fish feed plant within the framework of the Dutch Public-Private Partnership program, FoodTechAfrica (FTA). Key project partners of this program include Nutreco/Sktretting, Ottevanger Milling Engineers, Almex Extrusion and Larive International.

The fish feed plant is designed to produce high quality floating fish feed for fish farmers, to increase their output and lower their production costs per kilogramme. The initiative is intended to enhance aquaculture ecosystems, create entrepreneurship opportunities and meet the escalating demand for fish protein among consumers in East Africa. The extruded pellets will be manufactured and sized to offer the best in quality and nutritional Value whilst supporting optimum growth and development.

The floating pellets come in a four-part-offering from 'starter' to 'finisher' feeds based on the lifecycle of the Tilapia fish. They are easy to consume and provide key nutrients for growth, proper immune system support and overall health of the fish. The supply gap for fish has been rapidly increasing due to the dwindling fish stocks in Lake Victoria caused by overfishing, and the fast growing population is in need of affordable fish protein

Famila®

With an aggressive new product development process, we have better speed-to-market for product launches. Our Porridge, Rice and Pulses categories have undergone packaging changes.

Our new vibrant Famila® packs have been very well received. As market leaders in the category, we wanted to make the Porridge category more vibrant as well as disperse the various myths surrounding porridge. This way, we will recruit younger consumers (age 19-30 year olds) by positioning Famila® as a perfect porridge for a healthy lifestyle through all the stages of life - Baby to Adult.

In addition, in line with the consumer trends, we plan to expand the portfolio by adding products on the health, medicinal and convenience platforms for the Adult and Baby segments.

NEW PRODUCTS AND OPERATIONAL EXCELLENCE (continued)

Amana®

We revamped our rice and pulses category under the Amana® brand to introduce the pillow-pack format packaging that looks and "feels" better on the shelf, which will encourage trial and re-purchase.

ISO Certification

The Kenyan milling plants retained their ISO certification (22000-2005) as did the central laboratory (17025) in Nairobi.

Ennsvalley attained HACCP certification this year and plans are being developed to implement the ISO certificate implementation. We believe that these certifications give us an advantage in targeting strategic customers in the region.

STATEMENT OF CORPORATE GOVERNANCE

Committed to the highest standard of corporate governance, Unga Group Plc complies fully with all requirements of a publicly listed company, including clarity of financial reporting and shareholder accountability. Our policy is to set best practice standards in product and service quality, combined with fair conduct towards our employees, suppliers and customers.

Recognising its responsibilities of good citizenship in national and international communities, Unga Group Plc particularly concentrates on issues of social welfare, environmental care and principles of integrity.

Composition of the Board

The Board consists of the Chairman, who is independent and has non-executive responsibilities, one executive and six non-executive directors. More than one third of the directors are both independent and non-executive; one third retires by rotation each year but is eligible for re-election. Collectively, the directors possess a broad range of leading edge skills and competencies, covering the areas of legal, finance, banking, operations and management. The directors' profiles appear on pages (20 and 21) of this Annual Report.

Role of the Board

The responsibility of the Board is to hold the Group's long-term vision, set broad goals, plans and organisational policies to uphold it, and offer guidance on strategic decisions and actions of management. It ensures compliance with auditing and accounting standards, and is also tasked with the management of risk, through overseeing the implementation of adequate control systems.

Other Board Information

The roles of the Chairman and Chief Executive are clearly separated, to ensure true accountability of management to shareholders through the Board, in parallel with equally clearly defined autonomy and authority of management in the day-to-day operation of the Group. Directors are kept fully informed of all company activities through both regular and special event reports.

Board Meetings

The Unga Group Plc Board has four scheduled meetings per year and stands ready for additional meetings on any specific or urgent matters. In the period under review, it met four times.

Board Committees

Under its mandate to establish appropriate committees for technical or other specialised issues, the Board operates four standing committees but also sets up ad-hoc committees to deal with specific issues where necessary.

Audit and Risk Committee

The Audit and Risk Committee has the primary function to assist the Board in fulfilling its oversight responsibilities for the integrity of the Group's financial statements, compliance with legal and regulatory requirements, corporate governance, risk management and performance of the internal audit function and that of the independent auditors.

The committee consists of four members, the majority of whom are independent non-executive directors. It was chaired by Mr. Patrick Obath up to 15 November 2016; thereafter Ms. Shilpa Haria assumed the role of chair. The other members were Mr. Jinaro Kibet, Mr. Andrew Ndegwa and Mr. Vitalis Ojode. It met five times.

Nominations and Remuneration Committee

The Nominations and Remuneration Committee has the mandates to review the size and structure of the Board, review succession planning within the Board and that of the CEO, identify and nominate for the approval of the Board, suitable candidates to fill Board and Board Committee vacancies as and when they arise. In addition, it reviews and recommends the structure and level of non-executive directors' fees, subject to approval by the Board and shareholders.

The committee members were Mr. Patrick Obath, Mr. Jinaro Kibet, Mr. Andrew Ndegwa and Mrs. Isabella Ochola- Wilson. Mr. Kibet chaired the committee until 22 June 2017; Mr. Obath assumed the role thereafter. It met three times.

Investment and Operations Committee

The role of the Investment and Operations Committee is to assist and advise the Board on matters relating to investment, occupational health and safety, technical operational matters and the status of major capital works projects approved by the Board.

The members who served during the year were Mr. Patrick Obath (Chairman), Mr. Andrew Ndegwa and Mr. Alan McKittrick. It met four times.

STATEMENT OF CORPORATE GOVERNANCE (continued)

Human Resources Committee

Its responsibility is to review and monitor the Company's Human Resources Management strategy to determine whether the Human Resource plans and initiatives will enable the Company to achieve its strategic objectives; review and when appropriate, recommend to the Board the Company's Human Resources policies.

It is also responsible for the evaluation of management performance and making recommendations to the Board regarding incentive-compensation plans. The Committee was composed of two members, Mr Alan McKittrick (Chairman) and Mrs Isabella Ochola-Wilson. It met five times.

The key management compensation for the financial year ended 30 June 2017 is disclosed in Note 34 of the financial statements.

Communication

The Board receives management reports in advance of all scheduled meetings and as necessary at other times. It issues an Annual Report and Financial Statements to all shareholders and other interested parties, and keeps the public advised through half-yearly and annual press notices of results and any significant developments. The Annual General Meeting provides an opportunity for shareholder engagement, allowing the Chairman to explain the Company's progress and answer questions. Shareholders have direct access to the company in line with conventional business practices. Information is also available on the Company's website

In the year under review, Directors have received no benefits other than fees and no loans to directors have been advanced.

Directors' Interest

The interest of the Directors in the shares of the Company as at 30 June 2017 was as follows:

Name	No of shares
Alan McKittrick	13,472

There were no material contracts involving directors' interests during the year

The ten largest shareholdings in the company and the respective number of shares at 30th June 2017 are as follows

Name	Number shares	% shareholding

CORPORATE SOCIAL RESPONSIBILITY

Unga Group Plc remains committed to provide continued support to communities residing in our areas of operation. This is because we believe that our Citizenship efforts are a force for good and important for our growth. Some of the key corporate social responsibilities initiatives undertaken during this financial year are:

(a) Visit to Dream Children's Home in Ngong

In June 2017, Unga Group members of staff from the Finance, Information Technology and Internal Audit Departments visited Dream Children's Home in Ngong. Dream Children's Home takes care of destitute, orphaned and abandoned children with their primary goal being to restore hope and provision of basic needs to orphans and vulnerable children in Kenya. During the visit, the members of staff donated food and personal items from the Group as well as from individual contribution. In addition, the members of staff engaged the children in motivation talks and took up the onus to continue mentoring and coaching in matters relating to Finance, Information Technology and Internal Audit.

(b) Unga Limited (Eldoret)

The members of staff implemented two key initiatives to assist in raising funds to educate bright and needy children in Uasin Gishu County. Proceeds from the bakery at Wareng High School, which is one of the initiatives, were used to pay tuition for twenty students. Aside from funding student's education, the team also provides scrap wood which is used as firewood in the bakery. Members of staff also provide training on Life Skills and during the financial year created a team to sustain Fire and First Aid activities.

The team is happy to note that two of the sponsored students who completed their high school education have been called to University. The Unga Limited members of staff played a vital role in mentoring them and contributed to their overall performance.

(c) Unga Farm Care (EA) Limited (Nakuru)

UFCEA Nakuru in partnership with neighboring institutions set up a group called Neighbors for Clean Environment-NECE (pronounced NEKE - what's the matter - in the Kikuyu dialect). The key objective for NECE was to forge a common front in environmental awareness and conservation to benefit employers and employees operating within the industrial area. In

addition, the group wanted to promote healthy living by working with food kiosks to ensure they use Unga Limited's branded products. To be able to meet these objectives, NECE

- i. Came up with a programme to communally conduct environmental clean-ups every four months. Each company was to have at least 5 people taking part in the exercise. The garbage was to be put in strategic locations for collection by the County government.
- ii. Agreed to carry out a tree planting exercise in permissible areas and form groups to nurture them.
- iii. Agreed to install two waste receptacles in strategic locations to enhance collection of waste before eventual dispatch to disposal sites by the County government.
- iv. Purposed to raise public environmental awareness, particularly the need for environmental sustainability and legislation.

Events and outcomes:

The first communal environmental clean-up and tree planting coincided with World Environment Day on 5 June 2017. Riding on the day's theme 'connecting people to nature', the group cleaned, slashed bushes collected about 10 metric tonnes of garbage and planted 10 trees in Unga Limited's compound. Additionally a talk on environmental sustainability was delivered by an environmentalist.

Some of the long term objective for NECE include

- Construction of washrooms to benefit groups such as kiosks owners and truck drivers operating within the industrial area.
- Construction of two waste receptacles to better manage wastes generated.
- Have the food kiosks use Unga products.

SUSTAINABILITY

Unga Group Plc and its operating subsidiaries considers sustainability as a necessary requirement for long-term development. The Group's sustainability initiatives are centered on managing the environmental impact of its operations, energy conservation, health and safety. In order to ensure conformity, the subsidiaries conduct regular audits to determine factors that have material impact on growth and includes them in their sustainability strategies and targets. The Group continuously reviews its policies and procedures relating to energy conservation to ensure that they meet industry best practice and global trends.

Below is a summary of the key sustainability initiatives which the Group undertook in this Financial Year.

AREA OF FOCUS	INITIATIVES
ENVIRONMENT IMPACT	• Effluent Discharge Analysis for waste water was done in March 2017 and the respective licenses issued. • We collected a total of 2,360 kilograms under the Electronic & Hazardous waste disposal programme. • Noise Level and Air Quality surveys were carried out during the year and reports disseminated as appropriate. • Environmental Impact Assessments for infrastructural projects were carried out and all projects licensed. • Waste segregation was conducted as per new PaTaMu standards. • Each Plant has been provided with a minimum of 20,000 liters storage capacity for rain water harvesting. Plans are underway to roll out at Ennsvalley. • Statutory Environmental Audits are due in December 2017.
ENERGY MANAGEMENT	• With the exception of Nakuru Feeds, all Plants were audited in August 2015 as per the 3 year statutory requirement; Nakuru Feeds was audited in January 2017. The next audit will be done in 2018/2020. • The Eldoret & Nakuru Feeds plants were recognised for their participation in the Energy Management Awards. • Lighting motion sensors were installed at Nairobi Feeds. • Energy saving bulbs were installed at all our sites.

HEALTH & WELLNESS	• Quarterly Food Handlers tests and drinking water analyses were carried out. • Implemented Monday Health Tip e-awareness as part of the Health Awareness program. • Initiated Aerobics classes and also prepared a "Be-well" baseline assessment proposal as part of Corporate Wellness initiative. • The annual statutory Occupational medical examination will be done in December 2017.
INDUSTRIAL, FLEET SAFETY	• All statutory and internal audits relating to facilities, equipment and fire safety completed per requirements. • Each site has a well-functioning SH&E Committee to handle safety related matters. • Monthly program to encourage hazard spotting, tagging and elimination has been implemented. • Induction and continual assessment of contractors to ensure compliance with safety policy and procedures is ongoing. • Contracted FROTCOM for Fleet monitoring. • Hand & Finger Injury Prevention campaign scheduled for the next financial year.

DIRECTORS' REPORT

The directors submit their report together with the audited financial statements for the year ended 30 June 2017, which disclose the state of affairs of Unga Group Plc (formerly Unga Group Ltd) (the "Company").

PRINCIPAL ACTIVITIES

The principal activities of the Group continue to be the manufacturing of human nutrition products, animal nutrition products and the distribution of animal health products.

BUSINESS REVIEW

The Kenyan business environment was characterised by maize grain supply challenges caused by the region-wide drought and increased political activity as a build up to the August 2017 general election. Government intervention through duty free importation and subsidy programs did not significantly improve maize grain supply until the last few weeks of the financial year. Wheat grain supply and price was stable throughout the period.

The Ugandan subsidiary continued to face challenges from increased competitive pressure leading to depressed selling prices. Its profitability was also impacted by significant bad debt provisions and local currency depreciation against the US dollar, resulting in an unsustainable operating loss for the year. Milling operations have subsequently been suspended while the Company evaluates its options going forward, which has necessitated the reporting of the entity as a discontinuing operation.

The bakery business was impacted by operational and distribution challenges resulting to reduced sales revenue and a significant operating loss for the year. It was also negatively impacted by credit challenges facing the retail sector resulting in delayed and, in the case of Nakumatt, non-payment of aged debt. The Group consequently discontinued operations in most Nakumatt outlets where it had in-store bakeries. This resulted in a goodwill impairment of Shs 151 million. After confirmation of the strategic need to move into value-added businesses, the Board reached an agreement with the minority shareholders to purchase the 48% non-controlling interest (NCI). The agreed consideration for the 48% NCI resulted in a gain of Shs 153m. The goodwill impairment was booked in the Statement of profit or loss while the gain on acquisition of the NCI was recognised directly in retained earnings within shareholders equity.

Group sales volume increased by 3.3% while revenue grew by 3.1% in line with the volume increase coupled with sales mix changes. Wheat and porridge grew by 10% and 6% respectively while maize dropped by 2%. Wheat volume growth was mainly driven by competitive pricing, a continually improving route-to-consumer model and increased demand due to the maize scarcity. The growth in porridge volumes was driven by marketing and promotion activities while maize volumes were negatively impacted by grain scarcity. Broiler feeds volumes dropped by 26% over prior year as a consequence of the portfolio being temporarily priced at an unusually high premium above competitive alternatives, while dairy and layer feeds volumes grew by 20% and 6% respectively

Operating profit declined by 71.7%, selling and general administrative expense having grown by 11.2% mainly due to increased marketing spend, staff costs and depreciation of the new ERP system.

Profit before tax declined by 73.9% as a result of decline in operating profit and increased finance cost.

DIRECTORS' REPORT (continued)

Summary financial performance

	2017	2016
	Shs'000	Shs'000
Revenue	19,528,785	18,947,944
Gross profit	2,243,318	2,213,261
Gross profit margin	11%	12%
Operating profit	201,800	714,328
Profit for the year from continuing operations	86,665	511,476
Loss for the year from discontinuing operations	(118,951)	(2,660)
(Loss)/ profit for the year	(32,286)	508,816
Total assets	<u>10,267,471</u>	<u>9,199,783</u>

RESULTS AND DIVIDEND

The profit attributable to equity holders of Shs 20,961,000 (2016: Shs 327,031,000) has been added to retained earnings. The directors recommend payment of a first and final dividend of Shs 1.00 (2016: Shs 1.00) per share amounting to Shs 75,706,986 (2016: Shs 75,706,986) in respect of the financial year. The dividend is subject to approval by the shareholders at the next Annual General Meeting.

DIRECTORS

The directors who served during the year and to the date of this report are set out on page 20 and 21.

DISCLOSURES TO AUDITORS

The directors confirm that with respect to each director at the time of approval of this report:

- there was, as far as each director is aware, no relevant audit information of which the company's auditor is unaware; and
- each director had taken all steps that ought to have been taken as a director so as to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

TERMS OF APPOINTMENT OF AUDITORS

PricewaterhouseCoopers continue in office in accordance with the Company's Articles of Association and Section 721 of the Kenyan Companies Act, 2015.

The Board Audit and Risk Committee (BARC) monitor the effectiveness, objectivity and independence of the auditor. This responsibility includes the approval of the audit engagement contract and fees.

APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 28 September 2017.

By order of the Board
Winniefred N Jumba
SECRETARY

DIRECTORS' REMUNERATION REPORT FOR THE YEAR ENDED 30 JUNE 2017

Dear Shareholder

I took over the chairmanship of the Board Nominations and Remuneration Committee (BNRC) with effect from 22 June 2017 from Mr Jinaro Kibet.

The BNRC has prepared this report in accordance with the Companies Act 2015 regulations referred to as the Tenth schedule – Quoted companies: Directors' Remuneration Report (the regulations). The report is divided into the following sections:

- The annual report on remuneration for the year ended 30 June 2017.
- The Company's current remuneration policy.
- A statement about the way the Company intends to implement its remuneration in 2017/18.

I present to you, on behalf of the Board, the Directors' remuneration report for the year ended 30 June 2017.

INTRODUCTION

The members of the BNRC during the year were Mr Jinaro Kibet, Committee Chairman until 22 June 2017 when he stood down, Mr Patrick Obath (Chairman from 22 June 2017), Mrs Isabella Ochola-Wilson and Mr Andrew Ndegwa. All members are Non-Executive Directors. The change in the chairmanship was necessitated by the requirement that the position should be held by an independent director.

The Schedule of attendance of BNRC meetings held during the year were as follows:-

Member	No. of Meetings Attended
Mr Patrick Obath*	2/3
Mrs Isabella Ochola-Wilson	3/3
Mr Jinaro Kibet	3/3
Mr Andrew Ndegwa	3/3

*Chairman and independent director

The BNRC's responsibilities have been set by the Board and are outlined in the Board Charter and the Committees terms of reference which are available on the Company's website. The BNRC takes into account the need to recruit and retain valuable Directors in a challenging market environment.

The BNRC believes that the Company complies with the main provisions of the Code of Corporate Governance for public listed companies.

This is the inaugural report under the new Companies Act 2015 and the regulations. Accordingly, the Company is presenting the existing remuneration policy with this report. In subsequent reports, the Company will be required to seek a vote on the Remuneration policy where the policy is changed (or an advisory vote on the implementation is not passed).

The Directors' remuneration report is unaudited except where otherwise stated.

Regulatory Changes

The Regulatory landscape in Kenya has witnessed a number of changes that have had an impact on the remuneration of Directors and the associated reporting.

In March 2016, the Capital Markets Authority ("CMA") issued the Capital Markets Code for Issuers of Securities ("The Code") which became operational after a year. The Code has outlined various compliance requirements in relation to Directors' Remuneration.

The new Companies Act 2015 was enacted in September 2015 and became operational in June 2016. According to the new Act, the Company is now required to table a Directors' Remuneration Report to its shareholders as part of its audited financial statements.

The Board has adopted a Board Charter and aligned it with the provisions of the Code and the new Companies Act. The Board Charter outlines a guideline on the Directors' Remuneration and Expense Policy.

Remuneration for Non-Executive Directors

The Company's Non-Executive Directors' (NEDs) were issued with Directors' Service Contracts in compliance with the requirements of the new Act. These are contracts for service and not contracts for employment. The NEDs are compensated in the form of annual fees but are not entitled to any pension, bonus or long term incentive plans.

DIRECTORS' REMUNERATION REPORT FOR THE YEAR ENDED 30 JUNE 2017 (continued)

In June 2016, the Board approved a compensation package for the Non-Executive Directors. The package had previously been reviewed in 2012.

Elements of the compensation schedule include the following:-

- i) Annual Honorarium for the Chairman and other NEDs;
- ii) Sitting allowances for Board and Board Committee meetings;
- iii) Expenses incurred with respect to travel, accommodation, pre-approved consultancy fees or other expenses incurred as a result of carrying out duties as a Director as reimbursed at cost.

The compensation structure was determined following a benchmarking exercise with comparable entities that had been conducted in the year 2015.

Remuneration for Executive Directors

In order to remain an attractive employer, the Group ("Unga") annually reviews its competitiveness against prevailing market practices.

In 2015/16, Unga embarked on a Remuneration Survey and Job Evaluation exercise. The Company's remuneration advisors during the year were PricewaterhouseCoopers, Hay Group and Federation of Kenya Employees. The Company also participated in the Deloitte Best Company to work for survey. The outcome of the exercise was alignment of job titles and identification of necessary changes in Unga's structure. The Company adjusted Salaries for inflation by 14% for the year 2016/17. The remuneration for the Executive Director was reviewed by the Board Nomination and Remuneration Committee in line with the contract for employment and the internal performance structure. The matrices used in assessing performance conditions were Unga's financial and Hoshin Kanri ("HK") goals and objectives.

The Executive Director's terms of employment were within the Companies HR policies.

Link to Strategy

During the year, the Board of Directors approved the 2017 to 2022 Strategic plan which intends to transform the group to its newly adopted Vision of 'Nutrition for Life.'

Unga's aim is to achieve an integrated approach to reward, linking Company strategy in the form of the achievement of corporate objectives and individual performance to salary increases and bonus awards.

The major objective of the Group remuneration policy is to ensure that there is a clear link between each employee's individual level of performance and their reward. These, along with other factors such as market positioning and the overall reward budget, go into the annual salary and bonus review process for all employees including the executive team.

This ensures that a co-ordinated and consistent approach is taken – encouraging and supporting a high-performance culture whilst ensuring fairness and transparency across the Group.

To this end, an Integrated Performance Management Framework was rolled out with effect from January 2017.

Pension entitlements

Only the Executive Director is entitled to participate in the Group's Pension Plan. Participation is restricted to defined monthly contributions that are applicable to permanent employees within the Group.

Share options and long-term incentive scheme

All Directors are not entitled to any share option arrangement or long term share incentive schemes.

Payments to past Directors

There was no payment of Directors' fees to past directors during the year.

Review of the Remuneration Policy

Owing to the business challenges experienced by the Company in the current year and the slowed economy resulting from the prolonged election process, the Board resolved to retain the salary structure on current basis for the remaining financial year 2017/18 but to consider a review in the subsequent years.

The compensations schedule for the NEDs will also remain the same for the current financial year.

DIRECTORS' REMUNERATION REPORT

FOR THE YEAR ENDED 30 JUNE 2017 (continued)

The following table shows a single figure remuneration for the Executive Director, Chairman and Non-Executive Directors in respect of qualifying services for the year ended 30 June 2017 together with the comparative figures for 2016. The aggregate Directors' emoluments are shown in note 33 (iv).

Year ended 30 June 2016	Salary	Fees	Bonuses	Expense allowances	Total

*Payment for qualifying services provided by Andrew Ndegwa as stated in the table above was made to First Chartered Securities Limited.

Percentage change in the elements of pay from 2016 to 2017

	Base salary/fees	Benefits in kind	Annual bonus
Executive Director	54.54%	0.0%	-100%
Average change for staff	14.00%	0.0%	-100%

DIRECTORS' REMUNERATION REPORT

FOR THE YEAR ENDED 30 JUNE 2017 (continued)

This section of the Remuneration Report describes the current policy for Directors' remuneration. It can be summarised as follows:-

a) Executive Director	
Base Salary	
Purpose/Link to Corporate Strategy	Part of a basic competitive package to retain individuals of the necessary caliber to execute the Company's business strategy. The People Strategy was approved by the Board in June 2015.
Operation	The Executive Director is entitled to a Salary only. No separate Directors' fees are paid. The salary is reviewed annually in line with the Company's Human Resources plan with changes effective 1 July, if appropriate.
Opportunity	Salary reviews are based on market comparisons and increases to other Group staff. Details of salaries for 2016/17 are shown in Note 33 (iv) of the report. Increases in Executive Director salary is aligned to the average staff increase in the Group.
Performance Metrics	None - This is linked to the annual bonus plan.
Pension	
Purpose / Link to Corporate Strategy	To provide executives with a long-term savings opportunity; the pension forms part of a basic competitive package to recruit and retain.
Operation	A Defined Contribution plan for all Executive Directors.
Opportunity	Company contribution as percentage of basic salary up to 7.5%, CEO up to 7.5%.
Performance Metrics	None
Benefits	
Purpose / Link to Corporate Strategy	Insured benefits are included to provide employee protection for the benefit of the employee and Company.
Operation	Insured benefits provided as part of Group schemes.
Opportunity	Group Medical Insurance
	Group Life Assurance
	Critical illness cover
	Income Protection Policy
	Car Allowance
	Club membership for business and personal use.
Performance Metrics	None
Annual Bonus Plan	
Purpose / Link to Corporate Strategy	The bonus payment is implemented in accordance with an approved Compensation Philosophy for the period 2014 to 2018.
	The objective is to incentivise and focus attention on Company KPIs; to reward the achievement of financial, operational and individual targets and provide a competitive performance-related annual earnings opportunity.
Operation	Targets and KPIs are set at start of year. 85% of opportunity is based on corporate achievement and 15% on individual performance. The bonus pool is unlocked upon attainment of 85% of budgeted profit before tax. 100% of the award is paid in cash soon after approval by the Board of Directors.

DIRECTORS' REMUNERATION REPORT

FOR THE YEAR ENDED 30 JUNE 2017 (continued)

Opportunity	The Executive Director's terms of employment were within the Companies HR policies. The Executive Director is entitled to bonus pay of 10% gross annual salary in accordance with Unga's bonus pay-out policy.
Performance Metrics	Company element based on challenging corporate, operational and financial KPIs. Measures, targets and weightings are set in respect of each financial year. Personal elements based on performance measures set each financial year relevant to the individual's role and accountabilities. Details of the corporate performance measures applicable in the current financial year are contained in the Group Variable Pay pay-out policy. All bonus payments are at the discretion of the Board.
Executive Share Option Plans	
The Company has not introduced Executive Share Option Plans. No plan has been recommended for the next financial year.	
b) Non-Executive Directors	
Annual Fees	
Purpose / Link to Corporate Strategy	Competitive fee to recruit and retain. The NED fee structure was implemented with effect from 1 January 2016.
Operation	The fee includes both an annual retainer and a meeting attendance fee that is paid quarterly in arrears.
Opportunity	Fees are determined in accordance with market practice. The Remuneration Committee recommends the fees payable to the Chairman and other NEDs. - Sitting allowance applies to attendance at Board meetings, Annual General Meeting, Board Committee meetings, Strategic Planning Workshop and Board Training Workshops; - The fee structure will pay the Board Chair and the Board Committee Chairs a higher meeting attendance fee than that paid to other Directors in attendance. - Directors attending out-of-country Board meetings will be entitled to receive an additional allowance. - No additional fees/allowances will be paid over and above the retainer and meeting attendance fees
Performance Metrics	None
Performance Share plan	
The Company has not introduced any Executive and Non-Executive Performance Share plans.	

Other Key Policies influencing Directors' Remuneration

a) Recruitment policy

The Company's philosophy is that all executive Directors should be remunerated at an appropriate level based on Unga's remuneration policy and taking into account the experience and calibre of the individual. Executive directors are entitled to a salary and not the annual directors' fees.

A new non- executive director will be entitled to the applicable annual fees as per the existing compensation schedule on retainer and sitting allowance.

DIRECTORS' REMUNERATION REPORT FOR THE YEAR ENDED 30 JUNE 2017 (continued)

b) Policy on payment for loss of office

The Executive Director's employment contract provides for a maximum of 12 months' notice.

On termination of an Executive Director's service contract, the Company's policy is to pay the salary and benefits to which the executive is contractually entitled. There is no contractual entitlement to receive any bonus but depending on the circumstances, the Company may decide to make a bonus payment in respect of the period up to the termination date. It is not the Company's policy to make payments in respect of bonus if the Company is entitled to dismiss a Director for cause.

The letters of appointment for Non-Executive Directors do not provide for any notice period. However, the appointment ceases immediately upon termination by resignation, a resolution of the Board or shareholders and no further remuneration accrues to the Director thereafter.

c) Obligations in Service contracts

There are no obligations to individuals in Directors' Service contracts or Letter of Employment which give rise to entitlement beyond that described in the policy table and the policy on payment for loss of office.

d) Discretions retained by the Remuneration Committee

The Company does not operate any long term incentive plan such as Share Option Plan, Share Performance plan, etc. Accordingly, there are no areas of discretion to disclose.

The BNRC and the Board feel confident that the remuneration policy continues to be appropriate for the Company and will support the implementation of the Group's short term and long-term objectives.

The regulations relating to the Directors' Remuneration Report were gazetted on 15 September 2017. The BNRC plans to develop a Remuneration policy that addresses the requirements set out in the regulations. The new remuneration policy will be tabled at the next Annual General Meeting for adoption.

Patrick Obath
Chairman, Nomination and Remuneration Committee

28 September 2017

STATEMENT OF DIRECTORS RESPONSIBILITIES

The Kenyan Companies Act 2015 requires the directors to prepare financial statements for each financial year which give a true and fair view of the financial position of the Group and the Company at the end of the financial year and its financial performance for the year then ended. The directors are responsible for ensuring that the Group and Company keeps proper accounting records that are sufficient to show and explain the transactions of the Group and Company; disclose with reasonable accuracy at any time the financial position of the Group and Company; and that enables them to prepare financial statements of the Company that comply with prescribed financial reporting standards and the requirements of the Kenyan Companies Act 2015. They are also responsible for safeguarding the assets of the Group and Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors accept responsibility for the preparation and presentation of these financial statements in accordance with International Financial Reporting Standards and in the manner required by the Kenyan Companies Act 2015. They also accept responsibility for:

- i. Designing, implementing and maintaining internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error;
- ii. Selecting suitable accounting policies and then apply them consistently; and
- iii. Making judgements and accounting estimates that are reasonable in the circumstances.

In preparing the financial statements, the directors have assessed the Group's and Company's ability to continue as a going concern and disclosed, as applicable, matters relating to the use of going concern basis of preparation of the financial statements. Nothing has come to the attention of the directors to indicate that the Group and Company will not remain a going concern for at least the next twelve months from the date of this statement.

The directors acknowledge that the independent audit of the financial statements does not relieve them of their responsibility.

Approved by the Board of Directors on 28 September 2017 and signed on its behalf by:

I Ochola- Wilson (Mrs)
Director

REPORT OF THE INDEPENDENT AUDITOR TO THE MEMBERS OF UNGA GROUP PLC (FORMERLY UNGA GROUP LIMITED)

Report on the audit of the financial statements

Our opinion

We have audited the accompanying financial statements of Unga Group Plc (the “Company”) and its subsidiaries (together, the “Group”) set out on pages 44 to 91, which comprise the consolidated statement of financial position at 30 June 2017 and the consolidated statement of profit or loss and consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, together with the separate statement of financial position of the Company at 30 June 2017 and the statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Company for the year then ended, and the notes, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the Group and the Company at 30 June 2017, and of the Group’s and Company’s financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Kenyan Companies Act 2015.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

REPORT OF THE INDEPENDENT AUDITOR TO THE MEMBERS OF UNGA GROUP PLC (CONTINUED)

<i>Key audit matter</i>	<i>How our audit addressed the key audit matter</i>
<i>Information technology (IT) systems and controls</i> The Group implemented SAP, a new Enterprise Resource Planning (ERP) system effective 1 January 2016. This was the first full year of operation with SAP. The new system is a fully integrated financial accounting and reporting system. A new system has an inherent risk of key financial data integrity, and the breakdown in operation or monitoring of IT dependent controls within critical business processes such as purchasing selling and recording of transactions, which could lead to financial errors or misstatements and inaccurate financial reporting. This being the first year of full operation there is the risk that challenges experienced during migration and the first six months of operation may still impact the proper operation of the IT systems. The group's financial accounting and reporting systems are heavily dependent on the new system and there is a risk that automated accounting procedures and related IT dependent manual controls are not designed and operating effectively.	We examined the framework of governance over the Group's IT organisation and the controls over program development and changes, access to programs and data and IT operations, including compensating controls where required. We assessed and tested the design and operating effectiveness of the controls over the continued integrity of the new systems that were relevant to financial accounting and reporting during the year. Where necessary we also carried out direct tests of certain aspects of the security of the Group's IT systems including access management and segregation of duties. We re-performed selected automated computations and compared our results with those from the system and the general ledger. We tested the significant system interfaces to ensure the accuracy and completeness of the data transfer. Our procedures included assessment and testing of the General IT control environment, including IT access and segregation of duties, as well as IT dependent controls within critical business processes. The combination of these tests of the controls and the direct tests that we carried out gave us sufficient evidence to enable us to rely on the continued and proper operation of the Group's IT systems for the purpose of the audit of the financial statements.

REPORT OF THE INDEPENDENT AUDITOR TO THE MEMBERS OF UNGA GROUP PLC (CONTINUED)

Other information

The directors are responsible for the other information. The other information comprises the director's report, the chairman's statement including five year financial review, group managing director's statement, director's remuneration report, and the statement of director's responsibilities, which we obtained prior to the date of this report.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of directors and those charged with governance for the financial statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and with the Kenyan Companies Act 2015, and for such internal control as the directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's

report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the Group's financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other matters prescribed by the Kenyan Companies Act, 2015

Report of the directors

In our opinion the information given in the report of directors' report on pages 31 to 32 is consistent with the financial statements.

Directors' remuneration report

In our opinion the auditable part of the directors' remuneration report on page 15 has been prepared in accordance with the Kenyan Companies Act, 2015.

The engagement partner on the audit resulting in this independent auditor's report is FCPA Michael Mugasa – P/No. 1478.

A handwritten signature in black ink, appearing to read 'Michael Mugasa'.

NOTES

1 General information

Unga Group Plc is incorporated in Kenya under the Companies Act as a limited liability company, and is domiciled in Kenya. The address of its registered office is:

Plot No.209/6841
Ngano House, Commercial Street
Industrial Area
P O Box 30096, 00100
Nairobi

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The measurement basis applied is the historical cost basis, except for equipment and buildings, which have been measured at fair value. All values are shown in thousands of Kenya Shillings.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

Changes in accounting policy and disclosures

(i) *New standards and amendments to published standards effective for the year ended 30 June 2017*

The following new and revised IFRSs were effective in the current year and had no material impact on the amounts reported in these financial statements.

Amendments to IAS 1, 'Presentation of Financial Statements': The amendments are made in the context of the IASB's Disclosure Initiative, which explores how financial statement disclosures can be improved. The amendments provide clarifications on a number of issues, including:

- Materiality – an entity should not aggregate or disaggregate information in a manner that obscures useful information. Where items are material, sufficient information must be provided to explain the impact on the financial position or performance.
- Disaggregation and subtotals – line items specified in IAS 1 may need to be disaggregated where this is relevant to an understanding of the entity's financial position or performance. There is also new guidance on the use of subtotals.
- Notes – confirmation that the notes do not need to be presented in a particular order.
- OCI arising from investments accounted for under the equity method – the share of OCI arising from equity-accounted investments is grouped based on whether the items will or will not subsequently be reclassified to profit or loss. Each group should then be presented as a single line item in the statement of other comprehensive income.

(i) *New standards and amendments to published standards effective for the year ended 30 June 2017(continued)*

Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities

The amendments to IAS 32 clarify the requirements relating to the offset of financial assets and financial liabilities. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realisation and settlement'.

Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation
The IASB has amended IAS 16 Property, Plant and Equipment to clarify that a revenue-based method should not be used to calculate the depreciation of items of property, plant and equipment.

IAS 38 Intangible Assets now includes a rebuttable presumption that the amortisation of intangible assets based on revenue is inappropriate. This presumption can be overcome if either:

NOTES (continued)

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Changes in accounting policy and disclosures (continued)

(i) *New standards and amendments to published standards effective for the year ended 30 June 2017(continued)*

- The intangible asset is expressed as a measure of revenue (i.e. where a measure of revenue is the limiting factor on the value that can be derived from the asset), or
- It can be shown that revenue and the consumption of economic benefits generated by the asset are highly correlated.

As these amendments merely clarify the existing requirements, they do not affect the company's accounting policies or any of the disclosures.

(ii) *New standards, amendments and interpretations not yet effective and not early adopted*

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 July 2017, and have not been applied in preparing these financial statement. None of these is expected to have a significant effect on the financial statements of the Company, except the following set out below.

IFRS 9 Financial instruments'

Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS 9 was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through OCI and fair value through Profit or loss.

The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI not recycling.

There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39.

For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes.

Contemporaneous documentation is still required but is different to that currently prepared under IAS 39. The standard is effective for accounting periods beginning on or after 1 January 2018. Early adoption is permitted. The company is yet to assess IFRS 9's full impact.

IFRS 15 Revenue from Contracts with Customers

The IASB has issued a new standard for the recognition of revenue. This will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts.

The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer – so the notion of control replaces the existing notion of risks and rewards.

A new five-step process must be applied before revenue can be recognised:

- identify contracts with customers
- identify the separate performance obligation
- determine the transaction price of the contract
- allocate the transaction price to each of the separate performance obligations, and
- recognise the revenue as each performance obligation is satisfied.

Key changes to current practice are:

- Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements.
- Revenue may be recognised earlier than under current standards if the consideration varies for any reasons (such as for incentives, rebates,

NOTES (continued)

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Changes in accounting policy and disclosures (continued)

(ii) *New standards, amendments and interpretations not yet effective and not early adopted (continued)*

performance fees, royalties, success of an outcome etc) – minimum amounts must be recognised if they are not at significant risk of reversal.

- The point at which revenue is able to be recognised may shift: some revenue which is currently recognised at a point in time at the end of a contract may have to be recognised over the contract term and vice versa.
- There are new specific rules on licenses, warranties, non-refundable upfront fees and, consignment arrangements, to name a few.
- As with any new standard, there are also increased disclosures.

These accounting changes may have flow-on effects on the entity's business practices regarding systems, processes and controls, compensation and bonus plans, contracts, tax planning and investor communications. Entities will have a choice of full retrospective application, or prospective application with additional disclosures.

The new standard is effective for annual periods beginning on or after 1 January 2018. The directors do not anticipate the standard to have a significant impact on the company.

IFRS 16 Leases

IFRS 16 will affect primarily the accounting by lessees and will result in the recognition of almost all leases on balance sheet. The standard removes the current distinction between operating and financing leases and requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short-term and low-value leases.

The income statement will also be affected because the total expense is typically higher in the earlier years of a lease and lower in later years. Additionally, operating expense will be replaced with interest and depreciation, so key metrics like EBITDA will change.

Operating cash flows will be higher as cash payments for the principal portion of the lease liability are classified within financing activities. Only the part of

the payments that reflects interest can continue to be presented as operating cash flows.

The accounting by lessors will not significantly change. Some differences may arise as a result of the new guidance on the definition of a lease. Under IFRS 16, a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The standard is effective for annual periods beginning on or after 1 January 2019. Early adoption is permitted only if IFRS 15 is adopted at the same time. The directors do not anticipate the standard to have a significant impact on the company.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

(b) Consolidation

(i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets

Investments in subsidiaries are accounted for at cost less impairment in parent company financial statements. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Cost also includes direct attributable costs of investment.

NOTES (continued)

2 Summary of significant accounting policies (continued)

(b) Consolidation (Continued)

(i) Subsidiaries (Continued)

The excess of the consideration transferred over the amount in the acquiree and the acquisition-date fair value over any previous equity interest in the acquiree over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net

assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in profit or loss

Inter-Company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(ii) Transactions and non-controlling interests

The Group treats transactions with non-controlling interests as transactions with equity owners of the Group. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

When the Group ceases to have control or significant influence, any retained interest in the entity is re-measured to its fair value, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief

operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the steering committee that makes strategic decisions.

d) Functional currency and translation of foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Kenya Shillings, which is the Company's functional currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency of the respective entity using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Translation differences on non-monetary items, such as equities held at fair value through profit or loss are reported as part of the fair value profit or loss in profit or loss. Translation differences on non-monetary items, such as equities classified as available-for-sale financial assets are included in the fair value reserve in equity.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and

NOTES (continued)

2 Summary of significant accounting policies (continued)

(d) Functional currency and translation of foreign currencies (Continued)

(iii) Group companies (Continued)

- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities are taken to statement of other comprehensive income. When a foreign operation is sold, such exchange differences are recognised in the income statement as part of the gain or loss on sale.

e) Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax (VAT), returns, rebates and discounts and after eliminating sales within the Group.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognised as follows:

- Sales of goods are recognised in the period in which the Group has delivered products to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customers' acceptance of the products. Delivery does not occur until the products have been accepted by the customer.

No element of financing is deemed present as the sales are made with a credit term of 30 days, which is consistent with the market practice. The Group does not operate any loyalty programmes.

- Interest income is recognised on a time proportion basis using the effective interest method. Interest income is recognised using the effective interest rate method.

- Dividends are recognised as income in the period in which the right to receive payment is established.

f) Property, plant and equipment

Property, plant and equipment are stated at cost or as professionally revalued less accumulated depreciation and any impairment losses.

Professional valuations are carried out in accordance with the Group policy of revaluing items of property, plant and equipment that are carried at valuation at least every five years.

The basis of valuation is as follows:

- Buildings – open market value;
- Other assets – depreciated replacement cost.

Increases in the carrying amounts of property, plant and equipment resulting from revaluation shall be recognised in other comprehensive income and accumulated in the revaluation surplus. However, the increase shall be recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss.

Decreases that offset previous increases of the same asset are recognised in other comprehensive income and charged against the revaluation surplus; all other decreases are charged to profit or loss. Each year the difference between depreciation based on the revalued carrying amount of an asset (the depreciation charged to profit or loss) and depreciation based on the asset's original cost is transferred from the revaluation surplus to revenue reserves.

Depreciation is calculated to write off the cost or valuation of property, plant and equipment in equal annual instalments over their estimated useful lives.

The annual rates used are:

Leasehold buildings	Shorter of 40 year or over the lease period
Computer equipment	33.30%
Plant and machinery	5 - 7.5%
Furniture and fittings	12.50%
Motor vehicles	25%
Silos	Shorter of 50 years or the unexpired period of the lease in respect of the land on which they are built

NOTES (continued)

2 Summary of significant accounting policies (continued)

(g) Intangible assets

(i) Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess consideration transferred over interest in fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

For the purposes of impairment testing, goodwill acquired in a business combination is allocated to each of the cash generating units (CGUs) or Groups of cash generating units CGUs that is expected to

benefit from the synergies of the combination. Each unit or Group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of the value in use and the fair value less costs to sell. Any impairment is recognized immediately as an expense and is not subsequently reversed.

(ii) Computer software

Costs associated with maintaining computer software programmes are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognized as intangible assets when the following criteria are met:

- It is technically feasible to complete the software product so that it will be available for use;
- Management intends to complete the software product and use or sell it;
- There is an ability to use or sell the software product;
- It can be demonstrated how the software product will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the software product are available; and

- The expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalized as part of the software product include the software development employee costs and an appropriate portion of relevant overheads. Other development expenditures that do not meet these criteria are

recognized as an expense as incurred. Developments costs previously recognized as an expense are not recognized as an asset in a subsequent period.

Computer software development costs recognized as assets are amortized over their estimated useful lives, which does not exceed three years.

Directly attributable costs that are capitalized as part of the software product include the software development employee costs and an appropriate portion of relevant overheads. Other development expenditures that do not meet these criteria are recognized as an expense as incurred. Developments costs previously recognized as an expense are not recognized as an asset in a subsequent period.

Computer software development costs recognized as assets are amortized over their estimated useful lives, which does not exceed three years

(h) Non-current assets (or disposal Groups) held for sale

Non-current assets (or disposal Groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell.

(i) Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to depreciation or amortisation but are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are Grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

NOTES (continued)

2. Summary of significant accounting policies (continued)

(i) Impairment of non-financial assets (Continued)

(j) Financial assets

The Group classifies its financial assets in the following categories: financial assets at fair value through profit and loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the assets were acquired. Management determines the classification of its assets at initial recognition and re-evaluates such designation at every reporting date.

i) Classification

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Derivatives are also categorised as held for trading. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the statement of financial position date. These are classified as non-current assets. The Group's loans and receivables comprise 'receivables and prepayments', 'non-current receivables and prepayments' and 'cash and cash equivalents' in the statement of financial position.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the statement of financial position date.

i) Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade date, which is the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value, plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial

assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed.

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are carried at amortised cost using the effective interest method.

Gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss' category are included in the income statement in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement when the Group's right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in other comprehensive income.

When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in profit or loss.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the income statement. Dividends on available-for-sale equity instruments are recognised in the income statement when the Group's right to receive payments is established.

a) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

b) Impairment of financial assets

Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or Group of financial assets is impaired. A financial asset or a Group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that

NOTES (continued)

2. Summary of significant accounting policies (continued)

(i) Impairment of non-financial assets (Continued)

loss event (or events) has an impact on the estimated future cash flows of the financial asset or Group of financial assets that can be reliably estimated.

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- a) significant financial difficulty of the issuer or obligor;
- b) a breach of contract, such as a default or delinquency in interest or principal payments;
- c) the Group, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- e) the disappearance of an active market for that financial asset because of financial difficulties; or
- f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - adverse changes in the payment status of borrowers in the portfolio;
 - national or local economic conditions that correlate with defaults on the assets in the portfolio.

The Group first assesses whether objective evidence of impairment exists.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss is recognised in the consolidated income statement. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated income statement.

(k) Accounting for leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

The Group leases certain property, vehicles and equipment. Leases of property, vehicles and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased assets and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in non-current liabilities. The interest element of the finance charge is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Property, vehicles and equipment acquired under finance leases are depreciated over the shorter of the assets useful life and the lease term.

(l) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises expenditure directly incurred in purchasing or manufacturing the inventories plus an allocation of normal overhead expenditure attributable to the processes of production hence the cost is determined using standard costs that approximate actual. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in selling and distribution. Specific provisions are made for obsolete, slow moving and defective inventories.

NOTES (continued)

2 Summary of significant accounting policies (continued)

(m) Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

(n) Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

(o) Share capital

Ordinary shares are classified as 'share capital' in equity. Any premium received over and above the par value of the shares is classified as 'share premium' in equity.

(p) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(q) Employee benefits

(i) Retirement benefit scheme assets

The Group operates defined benefit retirement benefit schemes for its employees. Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability/ asset recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation. In countries where there is no deep market in such bonds, the market rates on government bonds are used.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. Past-service costs are recognised immediately in income. The assets of all schemes are held in separate trustee administered funds, which are funded by contributions from both the Group and employees.

The Group employees also contribute to the appropriate National Social Security Funds, which is a defined contribution schemes.

(ii) Other post-employment obligations

The Group operates an unfunded service gratuity benefit scheme for unionisable employees based on basic salary and years of service. The obligation under the scheme is recognised based on actuarial valuation. A provision is made for the estimated liability for such entitlements as a result of services rendered by employees up to the reporting date.

The estimated monetary liability for employees' accrued annual leave entitlement at the reporting date is recognised as an expense accrual.

(r) Current and deferred income tax

The tax expense for the period comprises current and deferred income tax. Tax is recognised in the income statement except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of the tax enacted or substantively enacted at the reporting date in the countries where the company and its subsidiaries operate and generate taxable income. The directors periodically evaluate positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation.

NOTES (continued)

2 Summary of significant accounting policies (continued)

(r) Current and deferred income tax (continued)

They establish provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax liability is settled or asset realised.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(s) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred.

Borrowings are subsequently stated at amortised cost using the effective interest method; any differences between proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

(t) Dividend distribution

Dividends payable on ordinary shares are charged to retained earnings in the period in which they are declared. Proposed dividends are not accrued for until ratified in an Annual General Meeting.

(u) Provisions

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

(v) Grants

Grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

(i) Revenue Grants

Grants received to compensate expenses or for the purpose of giving immediate support to the company with no future related costs are recognised in the profit or loss in the year of receipt.

(ii) Capital Grants

Where a grant is related to an asset, the grant is presented in the statement of financial position and is credited to profit or loss over the periods and in the proportions in which depreciation expense on those assets they are used to finance is recognised.

3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expected future events that are believed to be reasonable under the circumstances.

(i) Critical accounting estimates and assumptions

Impairment losses

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

NOTES (continued)

3 Critical accounting estimates and judgements (continued)

Impairment losses (continued)

Property, plant and equipment

Critical estimates are made by directors in determining the useful lives and residual values to property, plant and equipment based on the intended use of the assets and the economic lives of those assets. Subsequent changes in circumstances such as technological advances or prospective utilisation of the assets concerned could result in the actual useful lives or residual values differing from initial estimates.

4 Financial risk management objectives and policies

The Group's activities expose it to a variety of financial risks, including liquidity risk, credit risk, the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on its financial performance.

Financial risk management is carried out by the finance department under guidance of the Board of Directors.

Market risk

(i) Interest rate risk

Interest rate risks arise from fluctuations in the bank borrowing rates. The interest rates vary from time to time depending on the prevailing economic circumstances. The Group closely monitors the interest rate trends to minimize the potential adverse impact of interest rate changes.

The Company's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the company to cash flow interest rate risk which is partially offset by cash held at variable rates. The Company regularly monitors financing options available to ensure optimum interest rates are obtained. At 30 June 2017, an increase/decrease by 100 basis points in interest rates would have resulted in a decrease/increase in post-tax profit of Shs 3,451,240 (2016: Shs 4,653,650).

(ii) Price risk

Price risk arises from fluctuations in the prices of equity investments. At 30 June 2017 and 30 June 2016, the Group did not hold investments that would be subject to price risk; hence this risk is not relevant.

(iii) Foreign exchange

Group

The Group undertakes certain transactions denominated in foreign currencies and is therefore exposed to foreign exchange risk primarily with respect to the Euro and the US dollar. Exchange rate exposures are managed within approved policy parameters.

At 30 June 2017, if the Kenyan Shilling had weakened/strengthened by 10% against the USD with all other variables held constant, post-tax profit for the year and equity would have been Shs 124,666,427 (2016: Shs 69,454,576) higher/lower.

Company

The company has no foreign currency denominated financial instruments and thus is not exposed to foreign exchange risks.

Credit risk

Credit risk is managed on a Group-wide basis. Credit risk arises from cash and cash equivalents, deposits with banks, as well as trade and other receivables. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by the banking regulatory authority. The Group management assesses the credit quality of each customer, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the management. The utilisation of credit limits is regularly monitored.

The amount that best represents the Group's and Company's maximum exposure to credit risk is the carrying value of its financial assets in the statement of financial position adjusted for the following:

NOTES (continued)

4 Financial risk management objectives and policies (continued)

Credit risk (continued)

The receivables that are past due relate to trade receivables overdue between 30 to 120 days. The receivables are not impaired and continue to be paid. The credit control department is actively following these receivables. Cash deposits of Shs 31,501,131 (2016: Shs 34,709,131) and bank guarantees amounting to Shs 1,154,570,000 (2016: Shs 1,157,900,000) are held as collateral for trade receivables.

The impaired amounts are fully provided for and the amount of loss incurred dealt with in profit or loss in the year of impairment.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period.

Concentration risk

The concentration risk relates to exposure on sales that the company faces on dealing with its key customers. This is analysed as follows: One customer (Kenchic Limited) accounts for 11% of the revenue of the Group (2016: 10%). This customer has a high credit rating. All other sales are to a wide unrelated customer base.

	2017	%	2016	%
	Shs'000		Shs'000	
Kenchic Limited	2,166,351	11%	2,033,242	10%
Others	17,939,696	89%	17,710,322	90%
	20,106,047	100%	19,743,564	100%

	2017	2016
	Shs'000	Shs'000
Sales from continuing operations	19,528,785	18,947,944
Sales from discontinuing operations	577,262	795,620
	20,106,047	19,743,564

Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which together with management, closely monitors the Group's short, medium and long term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The table below analyses the Group's financial liabilities that will be settled on a net basis into relevant maturity Groupings based on the remaining period at end of reporting period to the contractual maturity date. The amounts disclosed in the table below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new capital or sell assets to reduce debt.

NOTES (continued)
4 Financial risk management objectives and policies(continued)
Capital management (continued)

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings') less cash and cash equivalents. Total capital is calculated as equity plus net debt.

The constitution of capital managed by the Group is as follows:

	2017 Shs'000	2016 Shs'000
Equity	5,478,955	5,696,729
Borrowings (Note 17)	345,125	465,365
Less: cash and cash equivalents (Note 29 (b))	(1,714,755)	(1,102,359)
Net debt	(1,369,630)	(636,994)
Gearing ratio	0%	0%

5 Revenue

Analysis of sales by category:

	Group		Company	
	2017 Shs'000	2016 Shs'000	2017 Shs'000	2016 Shs'000
Human nutrition	10,906,570	10,343,352	-	-
Animal nutrition	8,435,511	8,414,230	-	-
Animal health products	186,704	190,362	-	-
Dividends	-	-	75,707	75,707
	19,578,785	18,947,944	75,707	75,707

6 Earnings per share

Basic earnings per share has been calculated by dividing the net profit attributable to shareholders by the weighted average number of ordinary shares in issue during the year.

	2017	2016
Profit for the year attributable to shareholders (Shs '000')		
- continuing operations	139,912	329,691
- discontinuing operations	(118,951)	(2,660)
	20,961	327,031
Weighted average number of ordinary shares ('000')	75,707	75,707
Basic and diluted earnings per share:		
- continuing operations	1.85	4.36
- discontinuing operations	(1.57)	(0.04)
	0.28	4.32

Diluted earnings per share is the same as basic earnings per share.

NOTES (continued)

7 Dividends

In respect of the current financial year, the directors propose a first and final dividend of Shs 1.00 (2016: Shs 1.00) per ordinary share amounting to Shs 75,706,986 (2016: Shs 75,706,986). The proposed dividend is subject to approval by shareholders at the next Annual General Meeting and has not been included as a liability in these financial statements. Payment of dividend is subject to withholding tax at a rate of 10% for non-resident shareholders and 5% for resident shareholders. For resident shareholders, withholding tax is only deductible where the shareholding is below 12.5%.

8 Other Income

	2017	2016
	Shs'000	Shs'000
Sale of packing material	13,901	5,631
Laboratory income	25,016	16,839
Gain/(loss) on disposal of property, plant and equipment	8,678	1,216
Sundry income	16,932	15,579
	64,527	39,265

9 Segmental Reporting

The principal activity of the Group continues to be the milling of wheat and maize, baking and animal nutrition products, and the distribution of animal health products. Management has chosen to organise the entity around differences in market segments served by their products into two main segments namely human nutrition and animal nutrition and health. Management considers the fact that reports regularly reviewed by the chief operating decision maker in order to allocate resources and to assess performance are based on these two operating segments. Management committee which comprises of the managing director and finance director is considered to be the key decision making organ.

Description of the types of products and services from which each reportable segment derives its revenues

Unga Group Plc has two reportable segments: human nutrition and animal nutrition and health. The human nutrition segment produces products for human consumption. The animal nutrition and health segment produces animal feed and mineral supplement products and distributes products for animal health.

Measurement of operating segment profit or loss, assets and liabilities

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

Factors that management uses to identify the entity's reportable segments

Unga Group Plc segments are strategic business units that serve different market segments. They are managed separately because each business requires different technology and marketing strategies.

Information about major customers

One customer with revenues of Shs 2,166,351 (2016: 2,033,242) under the animal health and nutrition segment accounts for more than 10% of the revenue arising from direct sales while other operating segments have none.

17 Borrowings

	Group	
	2017	2016
	Shs'000	Shs'000
Bank loan	251,525	371,765
Other loans	93,600	93,600
	345,125	465,365
The borrowings are repayable as follows:		
Within one year	213,437	144,050
More than one year	131,688	321,315
	345,125	465,365
Movement in principal borrowings:		
At start of year	465,365	638,910
Repayments	(120,240)	(173,545)
At end of year	345,125	465,365

The borrowing facilities consist of loan from Barclays Bank of Kenya. The borrowings are secured by an all assets debenture for Shs 1.5 billion, corporate guarantees of Shs 1.5 billion and legal charges of Shs 1.5 billion over certain properties. The Group has a term loan facility of USD 7,500,000 with its bankers acquired for purposes of financing installation of a wheat milling plant. Interest is chargeable at 4% above the 3 months LIBOR rate. The loan is expected to mature in June 2020. The outstanding loan at 30 June 2017 amounted to USD 2,423,563 (2016: 3,673,563). The effective interest rate of the loan at 30 June 2017 was 4.98% (2016: 4.36%).

Other borrowings relates to a loan from NAS Holdings Limited which is unsecured and is due for repayment in the next financial year. The weighted average effective interest rates is 0% per annum (2016: 13%).

The Group has undrawn committed borrowing facilities amounting to Shs 322,048,000 and USD 1,679,147 (2016: Shs 380,000,000 and USD 2,333,333). The borrowing facilities consist of loans and bank overdrafts. Security for these borrowings includes an all assets debenture for Shs 1.5 billion issued by a subsidiary company, corporate guarantees by Group companies and legal charges over certain properties owned by subsidiary companies, and a property registered in the name of a Group company.

18 Post-employment benefits obligation– Gratuity

The Group operates an unfunded service gratuity for the unionised employees based on final salary and years of service. The movement in the obligation is as follows

	2017	2016
Group	Shs'000	Shs'000
At start of year	97,099	86,729
Charge to profit or loss	10,607	20,853
Transferred to defined benefit pension fund (Note 28)	(82,351)	-
Payments in the year	(8,204)	(10,484)
At end of year	17,151	97,098

During the year benefits accrued to unionized staff in the Group's subsidiaries, Unga Limited and Unga Farm Care (E.A) Limited, were transferred to the Groups' pension scheme, Unga Holdings Limited Staff Pension Scheme.

The balance of Shs 17.15 million at 30 June 2017 relates to the Group's contract staff and unionised staff in Ennsvalley Bakery Limited

NOTES (continued)
19 Deferred income tax

Deferred income tax is made up of the following

	Group	
	2017	2016
	Shs'000	Shs'000
Deferred income tax asset	32,734	32,276
Deferred income tax liability	(613,725)	(552,753)
Net deferred income tax liabilities	(580,991)	(520,477)

Deferred income tax is calculated using the enacted income tax rate of 30% (2016: 30%). The deferred income tax comprises the following;

Deferred income tax is made up of the following

	Group	
	2017	2016
	Shs'000	Shs'000
At start of year	520,477	538,437
Charge / (credit) to profit or loss (Note 13)	57,733	(15,020)

All buildings and the milling plant were revalued at 30 June 2013 by Knight Frank Valuers Limited, Registered Valuers and Estate Agents. Buildings were revalued on an open market value while plant and machinery were revalued on the depreciated replacement costs basis.

NOTES (continued)
24 Property, plant and equipment (continued)

Included in property, plant and equipment are fully depreciated assets with a cost/valuation of Shs 232,311,872 (2016: Shs 282,982,539). The normal annual depreciation on these assets would have been Shs 64,075,172 (2016: Shs 107,266,999).

The Group has pledged assets with net book value of Shs 251,929,375 (2016: Shs 370,977,000) to secure its borrowings facilities (See note 17).

Work in progress at 30 June 2017 majorly constitutes the costs of the installation of a packaging line.

If the buildings were stated on the historical cost basis, the amounts would be as follows

Year ended 30 June 2017

	Buildings	Plant and equipment
	Shs' 000	Shs' 000
Cost	1,052,022	2,709,481
Accumulated depreciation	(89,177)	(770,989)
Net book amount	962,845	1,938,492

Year ended 30 June 2016

Cost	576,420	2,250,968
Accumulated depreciation	(71,880)	(590,043)
Net book amount	504,540	1,660,925

Net book value	166,343	208,611

(b) Goodwill on acquisition

The goodwill relates to the acquisition of Ennsvalley Bakery Limited. The directors monitor goodwill impairment at the level of the acquired entity, being the cash generating unit (CGU) without taking into account the commercial benefit of the vertical integration of Ennsvalley Bakery Limited to the wheat milling business of Unga Limited. The recoverable amount of the cash generating unit (CGU) is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by the management covering a five-year period

NOTES (continued)

26 Intangible assets (continued)

(b) Goodwill on acquisition (continued)

Management has determined the values assigned to each of the key assumptions used as follows:

Assumption	Approach used to determine values:
Sales volume	Average annual growth rate over the five-year forecast period; based on past performance and management expectations of market development.
Sales price	Average annual growth rate over the five-year forecast period; based on current industry trends and including long term country inflation forecast.
Budgeted average gross margin	Based on past performance and management expectations of the future.
Annual capital expenditure	Expected cash costs in the CGUs. This is based on the historical experience of management, the planned refurbishment, or sustaining expenditure. No incremental revenue or cost savings are assumed in the value-in-use model as a result of this expenditure.
Long term growth rate	This is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rate is based on long term growth rate forecasts for the industry.
Pre-tax discount rate	Based on specific risks relating to the industry and country. Factors considered for the industry include regulatory environment, market competition, and barriers to entry.

During the year, the goodwill on acquisition of Ennsvalley Bakery Limited was impaired following a significant deterioration of its trading performance. The group has embarked on restructuring the business.

27 Investment in subsidiaries – Company

Unquoted investment at cost in wholly owned subsidiary

	2017	2016
	Shs'000	Shs'000
Unga Investments Limited	1,297,335	1,297,335

Unga Foods Limited	Kenya	Dormant company	100%	15,400
Unga Millers (U) Limited	Uganda	Milling of wheat and maize, and distribution of animal nutrition products	100%	7,280
Ennsvalley Bakery Limited	Kenya	Manufacture and sale of cakes, breads and pastry	100%	250

On 30 June 2017, Unga Holdings Limited acquired 48% of the non-controlling interest in Ennsvalley Bakery Limited for Shs 70 million to bring the shareholding to 100% (Note 30).

28 Retirement benefits asset

The Group operates a defined benefits pension plan for employees of Unga Limited and Unga Farm Care (EA) Limited. The Scheme is registered under irrevocable trust with the Retirement Benefits Authority. The Retirement Benefits Act, 1997 ('the Act'). The retirements benefits scheme asset represents the actuarial allocation of the surplus of the fair value of the scheme assets over the value of past service pension obligations after applying an asset ceiling to the Group. An asset ceiling has been applied only to recognise the benefit arising from reduced employer contributions available to the Group as a result of the scheme being in an actuarial surplus position.

The amount included in the statement of financial position arising from the company's obligation in respect of this defined benefits pension scheme is arrived at as follows:

	2017 Shs'000	2016 Shs'000
Present value of funded obligations	562,773	197,046
Fair value of plan assets	(597,474)	(451,627)
Surplus on funded plan	(34,701)	(254,581)
Impact of asset ceiling	16,764	213,275
Retirement benefit scheme asset recognised in the statement of financial position	(17,937)	(41,306)

NOTES (continued)

28 Retirement benefits asset (continued)

The movement in the retirement benefit scheme asset over the year was as follows:

Year ended 30 June 2017	Present value of Obligation Shs'000	Fair value of plan assets Shs'000	Total Shs'000	Impact of asset ceiling Shs'000	Total Shs'000
At start of year	197,046	(451,627)	(254,581)	213,275	(41,306)

NOTES (continued)
28 Retirement benefits asset (continued)

During the year, a full actuarial valuation of the scheme was undertaken therefore all the experience in the intervening years since the last full valuation was factored in the year. One of the key factors for the higher growth of the liability was the rates of interest declared to member balances.

Year ended 30 June 2016	Present value of Obligation Shs'000	Fair value of plan assets Shs'000	Total Shs'000	Impact of asset ceiling Shs'000	Total Shs'000
At start of year	171,436	(437,521)	(266,085)	221,025	(45,060)
Current service cost	34	-	34	-	34
Interest expense/ (income)	23,507	(59,426)	(35,919)	29,839	(6,080)
Charge to profit or loss	23,541	(59,426)	(35,885)	29,839	(6,046)
Re measurements:					
Return on plan assets	-	51,588	51,588	-	51,588
Change in assumptions	(4,199)	-	(4,199)	-	(4,199)
Change in experience	-	-	-	(37,589)	(37,589)
Change in asset ceiling	-	-	-	(37,589)	(37,589)
Charge to other comprehensive income	(4,199)	51,588	47,389	(37,589)	9,800
Contributions :					
Employee	21,703	(21,703)	-	-	-
Employer	-	-	-	-	-
Payments from plan:					
Benefit paid	(15,435)	15,435	-	-	-
	6,268	(6,268)	-	-	-
At end of year	197,046	(451,627)	(254,581)	213,275	(41,306)
Continuing operations	197,046	(451,627)	(254,581)	213,275	(41,306)

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is as follows:

At 30 June 2017

Discount rate	At current discount rate Shs ' million	1% Increase Shs ' million	1% Decrease Shs ' million
Present value of obligation	562.7	566.6	548.8

At 30 June 2016

Present value of obligation	197.0	195.1	199
-----------------------------	-------	-------	-----

NOTES (continued)

28 Retirement benefits asset (continued)

The significant actuarial assumptions were as follows;

	2017	2016
Discount rate	13.50%	14.25%
Rate of salary escalation	10%	10%
Rate of pension increases	0%	0%

Since the bulk of the benefits payable under the scheme are salary related and there are no pensions paid from the scheme, the sensitivity of the liability to a change in the salary escalation assumption is expected to be consistent with the sensitivity to the discount rates.

The plan assets are comprised of the following;

	2017 Shs'0000	2017 %	2016 Shs'0000	2016 %
Quoted equities	139,809	23.4%	126,456	28%
Offshore investments	20,912	3.5%	18,064	4%
Government bonds	410,465	68.7%	248,395	55%
Commercial paper and corporate bonds	23,301	3.9%	27,098	6%
Fixed and time deposits	4,182	0.7%	36,130	8%
Net current assets/ (liabilities)	(1,195)	(0.2%)	(4,516)	-1%
Total	597,474	100%	451,627	100%

Under the current Scheme rules, the contribution rates are expressed as a percentage of the members' basic annual salaries. The group's contribution includes a portion to cover the scheme's administrative expenses. Following the actuarial valuation done in 2016 the actuary recommended that the Group resumes making contributions from February 2017.

Through its defined benefit pension plans the Group is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to treasury bonds yields; if plan assets underperform this yield, this will create a deficit. The plan assets currently exceed the liabilities and this risk is therefore not considered significant.

Changes in bond yields

A decrease in treasury bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

NOTES (continued)

29 Cash generated from operations

- (a) Reconciliation of profit before income tax to cash generated from operations:

Group	2017 Shs'000	2016 Shs'000
Profit before income tax from continuing and discontinuing operations	47,437	734,401
Adjustments for:		
Depreciation (Note 24)	244,860	214,667
Asset write-off	-	12,086
Goodwill written-off (Note 26)	150,473	-
Interest paid	47,341	49,146
Amortisation of prepaid operating lease rentals (Note 25)	953	4,421
Amortisation of intangible assets (Note 26)	85,539	38,235
Amortisation of grant	(190)	-
Gain on disposal of property, plant and equipment	(8,678)	150
Post-employment benefits obligation	(79,948)	10,369
Working capital changes:		
-inventories	240,567	(372,263)
-trade and other receivables	(368,281)	(44,030)
-trade and other payables	1,458,572	264,735
Cash generated from operations	1,818,645	911,917
Company		
Profit before income tax	74,413	93,721
Adjustments for:		
Working capital changes:		
-trade and other receivables	(19,475)	(12,089)
-trade and other payables	38,812	24,691
Cash generated from operations	93,750	106,323

- (b) For the purposes of the statement of cash flows, cash equivalents include short term liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from the bank repayable within three months from the date of advance.

Group	2017 Shs'000	2016 Shs'000
Bank balances	960,295	365,458
Call deposits	754,460	736,901
Cash and cash equivalents	1,714,755	1,102,359
Company		
Bank balances	1,059	574
Call deposits	289,167	271,609
	290,226	272,183

The effective interest rate on call deposit at 30 June 2017 was 9.6% (2016: 11.5%)

NOTES (continued)

30 Acquisition of non-controlling interest

On 30 June 2017, Unga Holdings Limited acquired 48% of the non-controlling interests in Ennsvalley Bakery Limited. The acquisition has been recorded as an equity transaction. The difference between the carrying amount of non- controlling interest at 30 June 2017 and the consideration payable has been recognised in equity and attributed to the equity holders of the Company.

Details of the purchase consideration and the carrying amount of non- controlling interest are as follows:

	2017 Shs'000
Carrying amount of Identifiable assets and liabilities of subsidiary at 30 June 2017	
Cash and cash equivalents	440,224
Plant and equipment	270,987
Intangible assets	462
Inventories	51,551
Trade and other receivables	276,499
Trade and other payables	(397,829)
Retirement benefit obligations	(8,410)
Borrowings	(195,000)
Deferred income tax asset	25,050
Total identifiable net assets	463,534
Carrying amount of non-controlling interest acquired (48%)	222,497
Less: consideration payable	(70,000)
Difference recognised directly in equity	(152,497)

NOTES (continued)
31 Discontinuing operations

On 22 June 2017, the company resolved to cease milling operations of its subsidiary Unga Millers (U) Limited while it evaluates available business remodelling options going forward. The subsidiary results for the year ended 30 June 2017 are presented as discontinuing operations

An analysis of the result of discontinuing operations is as follows

	2017	2016
	Shs'000	Shs'000
Revenues	577,262	795,620
Expenses	(722,108)	(799,303)
Loss before tax of discontinuing operations	(144,846)	(3,683)
Current income tax credit	25,895	1,023
Loss for the year from discontinuing operations	(118,951)	(2,660)
Other comprehensive income	-	-
Total comprehensive loss from discontinuing operations	(118,951)	(2,660)
Attributable to owners of parent	(118,951)	(2,660)
Attributable to non-controlling interest	-	-
	(118,951)	(2,660)
a) Cash flows from discontinuing operations		
Operating cash flows	27,522	12,013
Investing cash flows	(932)	(12,251)
Total cash flows	26,590	(238)

32 Capital commitment

	2017	2016
Group	Shs'000	Shs'000
Authorised and contracted	1,465,180	560,653
Authorised but not contracted	557,474	547,976
	2,022,654	1,108,629

The bulk of the capital commitments relate to the planned installation of a wheat mill and Hostess maize flour mill in the Eldoret site and set up of a new soya bean meal processing plant.

NOTES (continued)
33 Related party transactions

The Company is listed on the Nairobi Securities Exchange and the shares are widely held

During the year the following transactions were entered into with related parties:

i) Sale of goods and services

	Group		Company	
	2017	2016	2017	2016
	Shs'000	Shs'000	Shs'000	Shs'000

NOTICE OF THE ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN that the Ninetieth Annual General Meeting of the Company will be held at the Intercontinental Hotel, Mara Ball Room, Nairobi, on Tuesday, 5 December 2017 at 10.30 a.m. for the following purposes:-

ORDINARY BUSINESS

1. To read the notice convening the meeting.
2. To confirm the minutes of the Eighty Ninth General Meeting held on Thursday, 1 December 2016.
3. To receive the Chairman's report.
4. To receive and adopt the Consolidated Audited Financial Statements for the financial year ended 30 June 2017 together with the reports of the Directors and the Auditors thereon.
5. To consider and approve a first and final dividend of KES 1.00 per share for the year ended 30 June 2017 payable on or about 15 January 2018 to the shareholders on the Register of Members at the close of business on Tuesday, 5 December 2017, and to approve the closure of the Register of Members for one day from the close of business on Tuesday, 5 December 2017 to close of business on Wednesday, 6 December 2017 for the purpose of processing the dividend.
6. Election of Directors:-
 - a) In accordance with the provisions of Articles 88 and 89 of the Company's Articles of Association:-
 - i) Mrs Isabella Ochola-Wilson retires at this meeting and being eligible, offers herself for re-election.
 - ii) Mr Andrew Stewart Mwangi Ndegwa retires at this meeting and being eligible, offers himself for re-election.
 - b) In accordance to the provisions of Section 769 of the Companies Act 2015, the following directors being members of the Board Audit & Risk Committee be elected to continue to serve as members of the said committee:-
 - i) Ms Shilpa Haria;
 - ii) Mr Jinaro K Kibet;
 - iii) Mr Andrew S M Ndegwa; and
 - iv) Mr Vitalis O Ojode

7. To approve the Directors' Remuneration Report as shown in the audited Financial Statements for the year ended 30 June 2017.
8. To appoint Messrs PricewaterhouseCoopers (PwC) as Auditors of the Company in accordance with the provisions of Section 721 (2) of the Companies Act 2015 and to authorize the Directors to fix their remuneration for the ensuing financial year in accordance with the provisions of Section 724 (2) of the Companies Act 2015.

SPECIAL BUSINESS

9. Adoption of New Memorandum and Articles of Association:-

To consider and, if thought fit, pass the following resolution as a Special Resolution:-

"That the new Memorandum and Articles of Association of the Company in the form of the final draft presented to the meeting and initialled for the purposes of identification by the Chairman be and are hereby adopted as the Articles of Association of the Company in substitution for and to the exclusion of the present Articles of Association."

10. Any Other Business of which due notice has been received.

BY ORDER OF THE BOARD

WINNIEFRED N JUMBA

COMPANY SECRETARY

7 November 2017

NOTICE OF THE ANNUAL GENERAL MEETING (continued)

1. A member entitled to attend and vote is entitled to appoint a proxy to attend and vote in his stead and a proxy need not be a member of the Company.
2. In the case of a member being a limited Company, this form must be completed under its common seal or under the hand of an officer or attorney duly authorised in writing.
3. The proxy form can be obtained from the Company's website (www.ungagroup.com), at the registered office of the Company, Ngano House, Commercial Street, Industrial Area, Nairobi or from the Registrars- Custody & Registrars, 6th Floor Bruce House, Standard Street, Nairobi.
4. To be valid, a form of proxy, which is provided with this report, must be duly completed by the member and must be lodged at the Company's Offices, Ngano House, Commercial Street, Industrial Area, P O Box 30096, 00100-Nairobi, or posted in time to reach not later than 10.30 a.m. on Friday, 1 December 2017, in an envelope marked "AGM". Duly signed proxy forms may also be emailed to proxy@candrgroup.co.ke in PDF format.
5. In accordance with Article 139 of the Company's Articles of Association, a copy of the entire Annual Report and Financial Statements together with a copy of the proposed Memorandum and Articles of Association may be viewed and/or obtained from the Company's website (www.ungagroup.com). Hard copies of the Annual Report and Financial Statements and the proposed Memorandum and Articles of Association may also be at the registered office of the Company, Ngano House, Commercial Street, Industrial Area, Nairobi or from the Registrars- Custody & Registrars, 6th Floor Bruce House, Standard Street, Nairobi.
6. Subject to the shareholders' approval, the Register of Members will be closed from the close of business on Tuesday, 5 December 2017 to close of business on Wednesday, 6 December 2017 for the purpose of processing the dividend.
7. All present and former shareholders of the Company are hereby notified that pursuant to the provisions of the Unclaimed Financial Assets Act No 40 of 2011 Parts II and III, dividends and shares which have not been claimed for a period of three (3) years or more will require to be delivered to the Unclaimed Financial Assets Authority ('the Authority') as abandoned assets on the appointed date.

Therefore, all present and former shareholders with unpaid dividends are requested to urgently contact the Share Registrar, Custody & Registrars Services Limited at the address indicated below to claim any unpaid dividends to avert the risk of the dividends being forwarded to the Authority.

Custody & Registrars Services Ltd
6th Floor, Bruce House
