UN-AUDITED FINANCIAL STATEMENTS FOR THE SIX MONTHS PERIOD TO 30 JUNE 2012

The Board of Directors of Express Kenya Limited are pleased to announce the un-audited results of the Company and the Group for the six month period ended 30 June 2012.

Performance

The performance of the company for the six month period was affected by a number of negative press publications and strike of the workers leading to redundancies to rationalize on the expenses incurred by the company due to change of business module by hiring out its trucks and workshop. This led to decrease of revenue by about 50% as compared with the same period the previous year. The finance costs significantly reduced due to utilization of the proceeds from sale of idle assets to reduce finance costs incurred in overdraft. The company made a net profit of Kshs. 89.365 million which is attributed mainly to gain in disposal of property. If the gain is isolated, the company would have made a loss of Kshs. 76.186 million for the period.

Future outlook

The second half of the year is expected to yield improved results due to cost reduction realized from the reduction of staff in line with the business operations and reduced cost of finance. The company has continued to stabilize and focus is on a number of investment opportunities in the future including diversification of its business including utilization of its assets in real estate development to strengthen its performance.

Dividend

The directors do not recommended payment of an interim dividend.
