Performance

During the half-year ended 30th June 2023 the Groups' revenue slightly dropped by 12% to 14M compared to 16M for period ended 30th June 2022. Loss before tax stood at 49M, an increase of 32%, compared to a loss before tax of 37M for the period ended 30th June 2022. The increase in loss is largely attributed to the revaluation of its Right of Use Assets in line with International Financial Reporting Standards 16 (IFRS 16 - Leases) as at 31st December 2022 and the depreciation on the resultant revaluation surplus has led to the increased direct costs and loss for the year.

Future Outlook

The Board and Management have continued to focus on enhancing the company's financial performance through improving operational efficiency, growing income, Sale of assets, reducing losses and managing costs.
