BOARD OF DIRECTORS (Continued)

The Current Board composition with brief resumes is as set out below:

Michael Joseph (73)
Chairman and Independent
Non-Executive Director

.....

Michael Joseph was appointed Chairman of Kenya Airways in October 2016. He is also a Non-Executive Director on the Boards of Vodacom Group South Africa, MFS Africa and Safaricom Plc. Michael is also an advisor to the Vodafone Group mostly related to mobile financial services and Safaricom. He was until October 2017 employed by Vodafone Group Services Limited as the Director of Mobile Money and was responsible for leading the strategic growth and development of successful M-Pesa proposition across the Vodafone footprint.

Michael was the founding CEO of Safaricom Plc, steering the company from a subscriber base of less than 18,000 in 2000 to over 17 million subscribers at his retirement in November 2010 making it the most successful company in East Africa. This phenomenal growth straddling nearly a decade was notable for the launch of many innovative products and services. He was behind the launch of the highly successful and phenomenal growth of M-Pesa and its related services.

Michael has been the recipient of many awards, including CEO of the year awarded by the Kenya Institute of Management and the Elder of the Order of the Burning Spear (award given by the President of Kenya to those who have made a positive impact in Kenya). He has extensive international experience in company start-ups, the implementation and operation of large wireless and wire-line networks. He is also a keen conservationist and serves as Chairman of Lewa Wildlife Conservancy, a leading conservancy in Northern Kenya.

Sebastian Mikosz (45)
Group Managing Director

.....

Sebastian is a graduate of the Institute of Political Studies (IEP Paris) in France with a master's degree in economics and finance. He has over 20 years professional and international experience in executive management, both in the private and public sector. Sebastian has also held various non-executive roles as Supervisory Board member. Prior to joining Kenya Airways in June 2017, Sebastian was the CEO of eSky.pl, the leading Central European Online Travel Agent.

Sebastian is also the former President and Chief Executive Officer of LOT Polish Airlines. LOT as the national carrier of Poland has 90 years of history and is one of the oldest airlines in the world. He held the position of CEO of LOT twice and is credited with conducting an in depth turnaround of the company leading to it first positive results in many years. He was the Chairman of the Supervisory Board of LOT's regional operator EuroLOT, operating Bombardier Q400 aircrafts and was a member of the Supervisory Boards of LOT AMS (the MRO base), WRO-LOT (regional handling company) as well as Eurobank (retail bank, part of SG Group).

Sebastian started his career in 1997 with Arthur Andersen office in Paris, where he specialised in investments in the emerging markets. After returning to Poland in 2000 he worked on establishing the first independent online brokerage house in Poland. A year later he became the Managing Director of the French Chamber of Commerce and Industry in Poland (CCIFP). Between July 2003 to September 2006 he was Vice-President of the Polish Information and Foreign Investment Agency (PAIIZ). As a governmental agency PAIIZ was in charge of attracting foreign investors to Poland and focus on the economic promotion of Poland. Between 2007 to 2009 he held the position of Director in Deloitte Business Consulting Warsaw Office. He was responsible for developing the business consulting for the public sector together with supporting the inflow and development of foreign investors in Poland.

Sebastian serves as a Non-Executive Board Member of three Kenya Airways subsidiaries, the regional operator Jambojet, the Tanzanian operator Precision Air and Kenya Air-freight Handling Limited. In addition, he is also a member of the IATA Board of Governors and is the 2nd Vice Chairman of African Airlines Association (AFRAA.)

Dr Thugge is the Principal Secretary, National Treasury. Prior to his appointment as Principal Secretary, he worked as a Senior Economic Advisor in the Ministry of Finance from the year 2010. He has also worked at the International Monetary Fund (IMF) in various capacities for over 21 years. He was the Head of the Fiscal and Monetary Affairs Department, Treasury between 2004 and 2005, and the Economic Secretary and Head of Economic Affairs Department, Treasury between 2005 and 2008. He has sat on the Boards of the Central Bank of Kenya, the Monetary Policy Committee of the Central Bank of Kenya, the Kenya Revenue Authority and the Capital Markets Authority

Dr. Kamau Thugge (61)
Non Executive Director

Prof. Maringa is the Principal Secretary for the State Department of Public Works in the Ministry of Transport and Infrastructure, Housing and Urban Development of the Republic of Kenya. Prior to his appointment as Principal Secretary, he was the Strategic Advisor for Planning and Project Management of Workforce Development Authority (WDA), Kigali, Rwanda. Prior to this he was the Vice Chancellor of Kigali Institute of Science and Technology (KIST), Kigali, Rwanda.

Professor Maringa is credited with having pioneered the School of Architecture and Building Sciences (SABS) at Jomo Kenyatta University of Agriculture and Technology (JKUAT) and the Faculty of Architecture and Environmental Design (FAED) at KIST in Rwanda.

Professor Maringa holds a Bachelor's degree of Architecture from the University of Nairobi, a Masters of Arts in Planning (Urban & Regional Planning) from the University of Nairobi and is a Doctor of Philosophy in Environmental Planning (PHD) from JKUAT.

Professor Paul Mwangi Maringa (60)
Non Executive Director

Jos Veenstra is responsible for investments and corporate development at Air France-KLM. He has extensive experience in leading complex airline-related M&A projects and holds several board positions in a wide variety of companies that are closely related to the aviation industry. Among these companies are Epcor in Amsterdam, SkyNRG in Amsterdam, KLM UK Engineering in Norwich, KLM E&M Malaysia and KLM Health Services. He is also responsible for managing KLM's innovation fund that invests in start-up companies with innovative products that support the aviation industry. Jos holds a Masters in Business Economics from the University of Groningen (Netherlands), followed by a postgraduate degree as Chartered Accountant (CPA). Prior to his current position, Jos worked as an auditor for KPMG and as Vice President Finance & Control for KLM's Engineering & Maintenance division.

Jozef (Jos)Veenstra (52)
Non-Executive Director

Caroline has 23 years' experience in the banking industry both within and outside of Kenya. Voted as one of Kenya's Top 40 Under 40, she started her career as a management trainee and rose through the ranks to become a respected senior executive in the industry. She has led several projects with the key project being the implementation of 7 new IT systems delivered in parallel at HF Group, which drove its IT transformation. In addition to an illustrious banking career she also served as the Vice-Chairperson on Kenya's Mining Task Force and served as a Director on the Board of the HF Foundation.

Caroline Armstrong (44)
Independent Non-Executive Director

Jason is the Chief of Party for the USAID-funded institutional systems strengthening project for COMESA, IGAD and EAC at The Kaizen Company. He is the immediate former Senior Strategy Advisor for TradeMark East Africa (TMEA) where he also held previous positions as Senior Regional Director and Kenya Country Director. Jason joined TMEA from SBP Consult - a consultancy firm he set up in 2004 and through which he consulted for airlines across Africa, among others. His last assignment before joining TMEA was a long-term contract with the World Bank to support the 19 countries of the Common Market for Eastern & Southern Africa (COMESA) to integrate regional and national strategic planning. Jason was also the Senior Director and Head of Corporate Strategy and Operational Change for Heifer International, a US-based development organisation with a historical footprint in 125 countries.

Jason has also worked for Kenya Airways Plc as the Director for Corporate Strategy and Industry Affairs from 2000 to 2004 and the Chief of Strategic Planning and Research for COMESA. He has served on the Boards of many organisations including in the strategy committee of the Nairobi Stock Exchange. He has taught air transport management as a visiting lecturer for the City University of London, and financial management and creative writing at Daystar University as a part-time lecturer. He is an award-winning author and has published 6 books. Jason is a graduate of University of Nairobi (BSc), Eastern University (MBA), Wharton Business School (certificate in strategy) and University of Cape Town (certificate in leadership).

Jason Kapkirwok (59)
Independent Non-Executive Director

Major General Gichangi joined the Kenya Air Force as a pilot in 1975, and rose through the ranks serving in all its flying operations hierarchy command positions. He retired from the military in 2006 as the Chief of Strategic Plans and Policy at the Defence Headquarters, on being appointed the Director General of The National Intelligence Service. He served in this position until 2014.

He holds a Masters Degree in Aviation Management from Griffith University in Australia and is a graduate of the National Defence College. He has a Commercial Pilots License from the Federal Aviation Authority of The United States of America and one from the Kenya Civil Aviation Authority, and is a qualified flying instructor. In recognition of his service to the nation, he has been honoured as an Elder of the Order of the Golden Heart (EGH) and a Chief of the Order of the Burning Spear (CBS). He was awarded the Distinguished Conduct Order (DCO) medal for an act of Valour while flying in the Kenya Air Force.

Major General (RTD) Michael Gichangi (60)
Independent Non-Executive Director

Carol Musyoka has several years of financial leadership experience working in Kenya and the United States. Her executive management and Board experience includes her role as the Corporate Director of Barclays Bank of Kenya as well as the Executive Director and Chief Operating Officer of K-Rep Bank, Kenya's first micro finance institution.

She currently sits as a Non-Executive Director on the Boards of East Africa Breweries Limited, British American Tobacco Plc as well as a government regulator, the Competition Authority of Kenya. Carol is a holder of a Bachelor of Law degree from the University of Nairobi and a Master of Law degree from Cornell University, USA.

Carol Musyoka (46)
Non-Executive Director

Festus is the Alternate to the Principal Secretary/National Treasury. He holds a Bachelor of Commerce degree from the University of Nairobi and is finalizing an MBA from Jomo Kenyatta University of Agriculture and Technology (JKUAT). Festus holds a post graduate certificate in Investment Appraisal and Management from Harvard University, among others. He has also undergone extensive training in general management, strategic leadership and financial management. Festus has extensive experience in public policy, particularly with regard to public investments, gained from local and international institutions, having worked on secondment by the Government of Kenya to the World Bank. Festus has also served on several other boards in the same capacity. He is trained in corporate governance and is a full member of the Kenya Institute of Management and a member of the Institute of Certified Investment and Financial analysts (ICIFA).

Festus King'ori (55)
Alternate for Dr. Kamau Thugge

Esther has over 35 years' experience in public service, most of which has been in investment promotion, banking, privatization and public enterprise reforms. She is currently the Principal Secretary in the State Department of Transport. Esther is a holder of a Bachelor of Commerce degree and a Masters of Business Administration degree from the University of Nairobi. She also holds a certificate, Advanced Management Programme from Strathmore University.

Esther has held various senior positions in Government and the Parastatal sector, including being the Investment Secretary and Director General, Public Investments & Portfolio Management at the National Treasury and Permanent Secretary, Ministry of Tourism. She has also served as the Managing Director, Kenya Post Office Savings Bank. She serves as a Non Executive Director on several Boards including the Africa Trade Insurance Agency.

Esther Koimett (62)
Non-Executive Director

Martin's career started out in Accounting and Banking but has now shifted to Leadership and Governance. He is currently an independent Business Advisor and Accredited Executive Coach, and runs the Consulting Firm, The Leadership Group Limited. Prior to this, he worked with Deloitte East Africa as a Partner, Financial Services Industry from May 2013 to December 2015. He had an illustrious career at KCB Group Plc, between October 2005 and December 2012, most of which he was the Chief Executive Officer, presiding over rapid transformation and growth for the bank. He has also held senior positions in Barclays Bank both in Kenya and in South Africa, in addition to an earlier decade spent in various finance roles at British American Tobacco Kenya and as an accounting trainee at the professional services firm, Ernst & Young (EY).

Martin has also had a stint in the Public Sector as Permanent Secretary Ministry of Finance/Treasury in the Government of Kenya between 1999 and 2001. Martin holds an Executive MBA degree from ESAMI/Maastricht Business Schools and a Bachelor of Commerce degree from the University of Nairobi. He is also an alumnus of the Harvard Business School's Advanced Management Program. He is a Fellow of the Kenya Institute of Bankers and the Institute of Certified Public Accountants of Kenya and a Member of the Institute of Certified Secretaries of Kenya and the Institute of Directors of Kenya. He is also an Accredited Governance Auditor.

Martin Oduor-Otieno (62)
Non-Executive Director

He holds Non-Executive Directorships in Standard Bank Group, Standard Bank of South Africa, East African Breweries Limited, British American Tobacco Kenya Plc, GA Life Assurance Limited and is also a Trustee of SOS Children's Villages Kenya and member of the International Senate of SOS KDI.

Nicholas holds a Bachelor of Arts degree from Osmania University, India and a Master of Business Administration from Laikipia University. He is a Certified Public Secretary (K) and holds a Graduate Diploma in Aviation Management from the National University of Singapore and the Singapore Aviation Academy and a Certificate in Air Law from the Egyptian Aviation Academy. Started his career as an Administrator as an Assistant Secretary III and rose through the ranks to Senior Assistant Secretary before changing profession to become Chief Air Transport Officer. He is a Deputy Director, Air Transport in the Ministry of Transport, Infrastructure, Housing and Urban Development. He has also been Acting Director General, Kenya Civil Aviation Authority from December, 2008 to July, 2009 and Acting Managing Director, Kenya Airports Authority from July 2016 to November 2016. He currently Heads the Air Transport Division in the Ministry of Transport, Infrastructure, Housing, Urban Development and Public Works.

Nicholas Bodo (51)
Alternate for Prof. Paul Mwangi Maringa

C-LEVEL PROFILES

Clare Ward Chief Information Officer

Clare Ward joined Kenya Airways as Chief Information Officer on 1st December 2018. With over 24 years professional experience in aviation, Clare is an innovative and accomplished CIO with a track record of driving bottom line value through digital transformation.

After qualifying as a Chartered Accountant with PwC (previously Coopers & Lybrand), Clare was attracted to airlines in 1995 by British Airways where she held senior management roles in Sales, Revenue Management and Information Technology. During a tenure of 16 years with BA she delivered many large & complex change programs.

In 2011 Clare moved to Etihad Airways which operates a network of over 110 passenger and cargo destinations and has won many awards for its products and services. Clare held leadership positions in Strategy, Loyalty and IT where she established new business paradigms by exploiting digital technologies. She also spent two years forging new alliance partnerships for Etihad with numerous airlines spanning 6 continents.

In 2017 Clare transitioned to Dubai Airports, the largest international airport in the world, serving 88+ million passengers annually and connecting more than 240 destinations on over 100 airlines. As Senior Vice President Business Technology, Clare leveraged the power of combining data analytics and innovation, creating new business solutions to transform the customer experience and drive operational efficiencies.

She then became Managing Partner Middle East for AlphaZetta, a global organisation specialising in data science, where she led their aviation practice.

Clare is a graduate of Imperial College, London with a BSc. in Applied Biology and is also a Certified Information Systems Auditor.

Hellen Mathuka Chief Financial Officer

Hellen holds a Bachelor of Commerce degree from Kenyatta University and an MBA (Strategic Management) from United States International University. She was appointed Chief Financial Officer in September 2018 after acting on the role for a period of 10 months. Hellen has wide experience in Finance and Audit having previously worked as the Head of Corporate Finance as well as Head of Internal Audit at Kenya Airways. As part of succession planning, Hellen also led the Pricing and Revenue Management function for a period of 2 years. Prior to joining Kenya Airways, she worked at East African Breweries Ltd, Ernst & Young and Family Bank.

Hellen is a Certified Internal Auditor, Certified Information Systems Auditor and holds certification in Control self assessment. She has a diploma in Airline Management from IATA, certificate in Executive business development from the Gordon institute of business management and is a certified coach and mentor.

Ursula Silling Chief Commercial Officer

Ursula Silling joined Kenya Airways as CCO in February 2019. She has spent more than 25 years in senior executive management roles with key players in the aviation and travel industry, covering various business models and countries. She was integral in a number of transformation projects, driving a focus on customer and people, digital, new revenue models, innovation to achieve sustainable change. "Do things differently to succeed in today's environment" is her philosophy.

Ursula started her career with Lufthansa, Lufthansa Systems and British Airways, covering network planning and revenue management as well as alliances, strategy and sales and marketing. As Commercial Director for HLX (today TUIfly), she developed the fast network growth strategy, the brand positioning, marketing based on ROI and the retailing strategy, e-business and product.

As EVP Commercial for the merger of the Virgin Express and SN Brussels Airlines, Ursula successfully managed the rebranding and repositioning, resulting in the still prevailing Brussels Airlines brand today. She developed and implemented the then revolutionary b. flex / b.light product concept, taking account of the changed travel patterns of consumers and increased low cost competition. She introduced a revised loyalty and sales and distribution strategy, extending the customer base and achieving substantial cost savings. Ursula also introduced a modern marketing concept for the highly important African markets of Brussels Airlines and restructured the entire organisation to a leaner and more efficient one.

Ursula also led the distribution project with Aer Lingus and led Aerosvit Ukrainian Airlines, Monarch Airlines and Air Malta as CCO in critical change periods, Ursula enjoys academic pursuits including writing and lecturing.

Realising the need to think out of the box for airlines and airports to succeed in the 21st century, she created the now globally renowned think tank Hamburg Aviation Conference - think future, bringing together airlines, airports, rail, other travel stakeholders, retailers, tech companies and universities to discuss new and innovative solutions to turn current challenges into opportunities.

.....

Evelyne Munyoki Chief Human Resources Officer

Evelyne joined Kenya Airways in February 2019 to provide leadership on the People and Culture transformation agenda for the company.

Prior to joining the airline, Evelyne worked with The Co-operative Bank of Kenya as the Director- Human Resources with responsibility for the Co-operative Bank Group including subsidiaries. Evelyne has over 15 years of senior leadership & management experience and has worked in various senior management HR roles in local and international employer brands including IBM Corporation, PwC, Ernst & Young, Standard Chartered Bank Kenya and Oxfam Great Britain. Evelyne is a holder of a Bachelor of Arts (BA) in Land Economics from the University of Nairobi (UON) and a Master of International Business Administration (MIBA) from the United States International University (Africa) She is also a certified Executive Leadership Coach (CELC) and Professional Career Coach (CPCC).

Evelyne is a member of several professional HR organisations including Institute of Human Resource Management (IHRM), Association of Talent Development (ATD), Society for Human Resources Management (SHRM) and the International Coaching Federation (ICF). She also serves on the board of AG Group International.

.....

Jan de Vegt Chief Operating Officer

Jan de Vegt became the airline's Chief Operating Officer on 1st August 2016. Jan joined Kenya Airways from Cobalt Ground Solutions in the UK where he was the Managing Director. He has been at Senior Managerial level for the last 22 years.

Jan started with KLM in 1978 in accounting, from there he moved to IT. In 1988 he got his Master's Degree in Dutch Law. He became involved in the operation of cargo, worked on development of new cargo buildings and got involved with procurement. He became Director of Operations for the Benelux, UK and Ireland in 1994.

In 1999, he moved back to the Netherlands and became Vice President Worldwide Cargo Operations, amongst others responsible for running KLM's hub at Amsterdam, exploitation of freighter and trucking network, introduction of the new 747-400F, procurement for the whole Cargo division. During this period he also became vice-chairman of AEA Cargo. He was also Chairman of the Board of CSC India (Cargo handling company in BOM/DEL) and Blue Crown (KLM in house broker).

In 2006 he moved to Singapore again, this time as Vice President Asia Pacific for Air France Cargo/KLM Cargo and Martinair Cargo. In 2012 he moved to the UK to manage Cobalt Ground Solution, a handling company jointly owned by KLM and Air France. Jan de Vegt holds a Masters Degree in Dutch Law with special subject: Air and Space Law.

CHAIRMAN'S STATEMENT

Economic Overview

In 2018, the African continent had a positive and promising economic outlook. Gross domestic product reached an estimated 3.5 per cent in 2018 in spite of the turbulent times experienced in the recent years. This growth was supported by the consumer spending amid eased inflation and public investment. Surprisingly, non-resource-intensive economies such as Kenya, Uganda, Rwanda, and countries in the West African Economic and Monetary Union, including Côte d'Ivoire and Benin recorded a solid economic growth in 2018.

The Africa Development Bank (AfDB)-2019 Economic outlook report states that Kenya's Real GDP grew an estimated 5.9% in 2018, from 4.9% in 2017. This was supported by good weather, eased political uncertainties following the 'Handshake' in May 2018, improved business confidence, and strong private consumption. The same is expected to be even higher in 2019. Narrowing the scope to aviation economics the '2018 IATA-Economic Performance of the Airline Industry Report' summarised the African airline industry performance as below: Africa region posted an increase in annual international RPK growth compared to 2017 (6.5% vs 6.0% respectfully). Despite the above RPK growth, losses abound due to increase in fuel cost and low break-even load factors, among other factors. Overall, the African airlines performance is improving, but only slowly.

The economic environment and general overview of the aviation sector was reflected in KQ's performance in 2018.

Financial performance

Kenya Airways reported a reduced loss before tax position of KShs 7.59 billion. The narrowed loss is a remarkable improvement from the dire position that the company was in three years ago when this board took over.

We continued to focus on the turnaround programme. Some of the actions taken to ensure business sustainability included focus on cost reduction initiatives, revenue enhancement initiatives, Network expansion, revamping our customer experience and changes in the senior management. This saw KQ revenues grow significantly boosted by growth in passenger revenue, cargo and ancillary services. At the same time, we managed to keep our operating costs at manageable levels.

In 2018, the airline industry was heavily impacted by the oil prices which peaked at a three year high of USD 86 per Barrel in September. The price of oil is not only pegged on global supply and demand but also on prevailing geo-political and economic factors which we have no control over. This volatility has serious ramifications on an airline's finances and it is on this premise that the board considered a fuel hedging option. This has seen a stabilisation of our fuel costs and better cash flow management.

Government support

The recognition of aviation as a strategic arm in the country's economic progress by the Government of Kenya (GoK) was a major milestone. This paves way for attentive focus and a

consolidation of efforts toward developing Kenya into an aviation hub in Africa and the world. Toward this end, KQ and KAA look forward to more collaborative framework as we realise the stated objective

KQ affirms its support to the realisation of the Big Four (B4) agenda driven by H.E. President Uhuru Kenyatta. Accomplishing the manufacturing, affordable housing, universal health coverage, food and nutrition agenda cannot be realised without the transportation of human resources as well as requisite machinery.

Regional integrations

As the saying goes 'United we stand, divided we fall'. Economic integration is essential in the sense that it creates consolidated large markets for both products and services, increases the bargaining power of countries in the economic bloc in addition to increased investment opportunities due to a free flow of capital and skills. Kenya stands proud as one of the constituent countries of the East African Community (EAC) which according to the African Development Bank's African Economic Outlook 2019 is the only fully functional Customs Union in Africa.

For KQ, the progressive regional integration opens the economic potential of individual countries by harnessing the synergies that come about as a result of co-operation. Following growth in the economic capacities of constituent countries in these economic blocs, it is obvious that air transport will also grow. To further accelerate the gains of economic integration, the deployment of efficient and cost-effective aircraft in the form of Bombardier Q400 turbo-props is essential. We believe we are well positioned to provide affordable, comfortable and safe means of air transport to realise the above. All we seek is support.

Reduction of tariff and non-tariff barriers

I single out the reduction of tariff and non-tariff barriers to

trade to make my comments on the Single African Air Transport Market (SAATM). Kenya is a signatory to the Continental Free Trade Agreement (CFTA) that envisions the African continent as a unified free trade area. The CFTA acknowledges the establishment of SAATM through implementation of the Yamoussoukro Declaration and so does KQ.

However, our firm standpoint is that there should be a progressive as opposed to instantaneous de-regulation of the African Airspace. In addition, the requisite infrastructure in terms of competition regulation authorities that mirror the European union model should first be established.

In the absence of the above mechanism to ensure proper checks and balances, cut throat competition leading to a wasteful race to bottom will occur to the detriment of all of us. Eventually, monopolistic elements will remain in the air transport industry beating the envisioned purpose of liberalisation. The importance of Africa as a market for Kenya airways cannot be overemphasised. 41% of the airline's total revenue in 2018 was realised from Africa and hence the need to place emphasis on our Africa plan and consolidate our niche market.

KQ driving tourism industry

2018 was indeed an interesting year on the Kenyan aviation front. Kenya's largest airport and the KQ hub, Jomo Kenyatta International Airport finally attained the coveted FAA Category 1, the Last Point of Departure (LPD) approval by the U.S. Department of Homeland Security Transportation Security Administration (TSA), eventually culminating in the successful commencement of non-stop USA operations by Kenya Airways. We recognise GoK and specifically support of the Ministry of Transport and Infrastructural Development (MoT), the Ministry of Foreign Affairs, Kenya Civil Aviation Authority and Kenya Airports Authority in realising the above.

Nairobi also hosted the 2018 International Civil Aviation Organization (ICAO) Air Service Negotiations (ICAN). This was also the only ICAN event that had the highest number of ICAO council members attending. With the support of the Ministry of Transport, the transport Cabinet Secretary oversaw the signing of at least thirty-four 34 Air Services Agreements (ASA). We remain grateful to MoT and KCAA for organizing this event. Kenya's 2018 tourist arrivals grew by 37.33% from the previous year to cross the two million mark for the first time. This tremendous improvement is a sign of confidence in Kenya and an affirmation of our world class tourism product. Kenya Airways is proud of its contribution toward the realization of the above and remains committed to propelling the number even higher.

Safety and customer data security

Our expertise in aircraft maintenance continues to gain international recognition. For the third year in a row, Kenya Airways was recognised and certified as an Embraer Authorised Service Centre (EASC). This assured continued in-house servicing of our Embraer fleet as well as the generation of extra revenue by servicing third party clients. It is also worth noting that we are also a European Union Aviation Safety Agency (EASA) certified airline.

A new development regarding the use of data and its protection

dominated a big part of 2018. The culmination was the passing of the European Union General Data Protection Regulation (GDPR) that came into effect in May 2018. GDPR enforces the right of customer data by providing a legal framework to ensure and enforce data rights such as the right to data access, the right to be forgotten and the right to be notified. Consequences for corporations that violate the GDPR regulations are dire; 4% of the global turnover of €20 million. KQ has set in place mechanism to remain compliant to the GDPR regulations as well as assuring its customers that their data privacy is secured and guaranteed.

Sustainability

One of our Corporate Social Responsibility obligation is our commitment to ensuring the protection of the environment and its sustainability alongside our ever-progressing development. In line with this, the ICAO Assembly Resolution A39-3 decided that states implement a Global Market Based Measures (GMBM) scheme in the form of Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA) to address any annual increase in total CO2 emissions from international civil aviation from 1st January 2019. At this point in time, KQ supports the initiative but continues to assess the implications of adopting CORSIA.

Going Forward

As we head into the future, the Kenya Airways PLC board remains focused on steering the company towards financial stability as well as growth.

Kenya Airways PLC enters into the year 2019 steadfastly pursuing the goal of achieving financial stability, guest service excellence, growth in market share as well as the sustainable development of Africa. Kenya Airways will continue to implement the prudent financial management and the turnaround initiatives started in 2018. Success in our network expansion, growth in revenues as well as in passenger numbers are worthy of note. This growth is in tandem with the overall positive economic outlook in Kenya and the world in general. I am optimistic that our fundamental strengths will enable us to remain resilient and propel us forward. Kenya Airways is Kenya's National flag bearer and holds market share among the top ten African airlines in the Market. This makes me conscious of the huge responsibility not only to our customers, colleagues and shareholders but to the entire Kenyan public.

Acknowledgment

My sincere thanks to my fellow Board members for leading the group through this challenging turnaround period. To our management and staff, our utmost appreciation for your continued efforts and dedication.

Michael Joseph
Chairman

TAARIFA YA MWENYE KITI

Maelezo ya Uchumi

Mnamo mwaka wa 2018, bara la Afrika lilikuwa na matokeo mazuri na yenye kuahidi ya kiuchumi. Bidhaa na huduma za ndani zilifikia wastani wa asilimia 3.5 mwaka 2018 licha ya nyakati za mgogoro katika miaka ya hivi karibuni.

Ukuaji huu uliletwa na matumizi ya pesa miongoni mwa wateja licha ya mfumuko wa bei na uwekezaji wa umma. Cha kushangaza, uchumi usio na rasilimali kuu kama vile Kenya, Uganda, Rwanda, na nchi katika Umoja wa Mataifa ya Kiuchumi na Fedha ya Nchi za Afrika Magharibi, kama vile Côte d'Ivoire na Benin, zimeandika ukuaji wa uchumi imara mwaka 2018.

Ripoti ya mtazamo wa uchumi ya Africa Development Bank inasema kuwa Pato la Taifa la Kenya limeongezeka kwa asilimia 5.9 mwaka 2018, kutoka asilimia 4.9 mwaka 2017. Hii imesaidiwa na hali nzuri ya hali ya hewa, utulivu na uhakika wa kisiasa baada ya 'Handshake' mwezi wa Mei 2018, kuboreka kwa biashara, na matumizi makuu ya kibinafsi. Hali hiyo inatarajiwa kuboreka zaidi mwaka 2019. Ripoti ya Sekta ya Ndege 2018 ilifupisha ufanisi wa sekta ya ndege ya Afrika hivi:

Eneo la Kiafrika limekuwa na ongezeko la ukuaji wa RPK wa kimataifa kila mwaka ikilinganishwa na 2017 (6.5% vs 6.0%). Licha ya ukuaji wa RPK, hasara zinapatikana kwa sababu ya ongezeko la gharama za mafuta kati ya mambo mengine. Kwa ujumla, biashara za ndege Afrika zinaendelea kukua, lakini polepole.

Mazingira ya kiuchumi na maelezo ya jumla ya sekta ya ndege yalijitokeza katika utendaji wa KQ mwaka wa 2018.

Utendaji wa kifedha

Kenya Airways iliripoti hasara iliyopungua kabla ya nafasi ya kodi ya shilingi ya Kenya bilioni 7.59. Hasara iliyo chini ni utendakazi wema kutoka kwa nafasi mbaya kampuni ilikuwa miaka mitatu iliyopita wakati bodi hii ilichukua hatamu.

Tuliendelea kuzingatia mpango wa kuleta mabadiliko. Baadhi ya hatua tulizochukua ili kuhakikisha uendeleu wa biashara ni pamoja na kuzingatia mipango ya kupunguza gharama, mipango ya kukuza mapato, upanuzi wa Mtandao, kuboresha tunavyo shughulikia wateja na mabadiliko katika wasimamizi. Kufuatia hayo, mapato ya KQ yalikuwa kwa kiasi kikubwa yakiwezesha na ukuaji wa mapato ya abiria, mizigo na huduma zingine. Wakati huo huo, tuliweza kuweka gharama zetu katika kiwango kizuri.

Mnamo mwaka wa 2018, sekta ya ndege iliathiriwa sana na bei za mafuta ambazo zilifika dola 86 kwa kila Barri mwezi Septemba. Mafuta ya ndege yanabaki kuwa sehemu kubwa ya gharama zetu za moja kwa moja, ni asilimia 40 ya gharama zetu zote za moja kwa moja mwaka jana. Bei ya mafuta inasababishwa na mambo kadhaa ikiwapo usambazaji na mahitaji ya kimataifa, mambo ya kisiasa na ya kiuchumi ambayo hatuwezi kudhibiti. Mambo haya yana athari kubwa kwenye fedha za sekta ya ndege na ni kwa sababu ya nguzo hii, bodi ilifanya uamuzi wa kulinda bei tunayonunulia mafuta. Hii imeona upungufu wa gharama zetu za mafuta na usimamizi bora wa fedha.

Msaada wa Serikali

Utambuzi wa sekta ya ndege kama mojawapo ya kimkakati katika maendeleo ya kiuchumi ya nchi na Serikali ya Kenya (GoK) ilikuwa muhimu sana. Hii inatoa njia ya kuzingatia kwa makini na kuimarisha jitihada za kuendeleza Kenya katika kanda ya ndege ya Afrika na duniani. Kwa upande huu, KQ na KAA wanatarajia mfumo zaidi wa ushirikiano tunapotambua lengo lililoelezwa KQ inathibitisha msaada wake kwa utambuzi wa ajenda ya Big Four (B4) iliyoendesha na H.E. Rais Uhuru Kenyatta. Kukamilisha viwanda, nyumba za gharama nafuu, chanjo ya afya ya kila siku, ajenda ya chakula na lishe haiwezi kufikiwa bila usafiri wa watu na mashine zinazohitajika.

Ushirikiano wa mikoa

Kuna msembo wa Kingereza unaosema "United we stand, divided we fall". Hii inamaana kuwa, pamoja tunasimama, laikini tuga-wanyika sisi huanguka. Ushirikiano wa kiuchumi ni muhimu kwa maana, hujenga masoko makubwa ya bidhaa na huduma zote, huongeza nguvu za biashara za nchi katika kambi ya kiuchumi pamoja na fursa za uwekezaji zilizoongezeka kutokana na mtiririko wa ujuzi. Kenya inajivunia kama moja ya nchi zilizojitokeza za Jumuiya ya Afrika Mashariki (EAC) ambayo kwa mujibu wa ripoti ya African Development Banks African Economic Outlook 2019 kuhusu mtazamo wa Kiuchumi wa Afrika 2019 ndiyo pekee ya Umoja wa

Forodha wa Umoja wa Afrika.

Kwa KQ, ushirikiano wa kikanda unaoendelea unaufungua uwezekano wa kiuchumi wa nchi kwa kuunganisha ushirikiano unaokuja kama matokeo ya ushirikiano huo. Kufuatia kukua katika uwezo wa kiuchumi wa nchi zilizojitokeza katika vitengo vya kiuchumi, ni dhahiri kwamba usafiri wa anga pia utaongezeka. Ili kuongeza kasi ya ushirikiano wa kiuchumi, utumizi wa ndege yenye ufanisi na gharama nafuu kama vile Bombardier Q400 turbo-props ni muhimu. Tunaamini kuwa tuna nafasi nzuri ya kutoa gharama nafuu na usafiri salama ili kupata matokeo mema. Tunachoomba ni msaada.

Kupunguza vikwazo vya ushuru

Ningependa kuzungumzia vikwazo vya ushuru ili kutoa maoni yangu kuhusu Single African Air Transport Market (SAATM). Kenya imeweka saina katika mkataba wa Continental Free Trade Agreement (CFTA) ambayo inatazama bara la Afrika kama sehemu ya umoja wa biashara huru. CFTA inakubali kuanzishwa kwa SAATM kupitia utekelezaji wa Azimio la Yamoussoukro na pia KQ.

Hata hivyo, mtazamo wetu imara ni kwamba kuna lazima iwe na maendeleo zaidi kinyume na udhibiti wa mara kwa mara wa Anga ya Afrika. Kwa kuongeza, miundombinu inayohitajika katika suala la mamlaka ya udhibiti wa mashindano ambayo inazingatia mfano wa muungano wa Ulaya inapaswa kuanzishwa kwanza.

Kwa kutokuwepo kwa utaratibu ili kuhakikisha ufuatiliaji sahihi na mizani, ushindani mbaya na mambo mengine yatajitokeza na kusababisha hasara kwa kila mmoja wetu. Hatimaye, vipengele vya uaminifu vitabaki katika sekta ya usafiri wa hewa kupiga lengo la kutafsiwa.

Umuhimu wa Afrika kama soko kwa Kenya Airways hauwezi kuelezwa vikamilifu. Jumla ya asilimia 41 ya mapato mwaka 2018 yalitoka Afrika na hivyo haja ya kuweka msisitizo juu ya mpango wetu wa Afrika na kuimarisha soko letu.

KQ kukuza sekta ya utalii

2018 ilikuwa kweli mwaka wa kuvutia katika sekta ya ndege ya Kenya. Uwanja wa ndege mkubwa zaidi wa Kenya na nyumbani kwa KQ, Uwanja wa Ndege ya Kimataifa wa Jomo Kenyatta (JKIA) hatimaye ulipata idhini kutoka kwa idara ya Marekani ya Usalama wa Nchi na ndege za kwenda USA moja kwa moja za Kenya Airways zikaanza safari. Dhidi ya haya, tunatambua msaada wa Serikali kuu ya Kenya, Wizara ya Usafiri na Maendeleo ya Miundombinu, Kenya Civil Aviation Authority na Kenya Airports Authority.

Mkutano wa International Civil Aviation Organisation (ICAO) Air Service Negotiations (ICAN) ulifanyika Nairobi mwaka jana. Huu ulikuwa mkutano wa ICAN ambao ulikuwa na idadi kubwa ya wanachama wa baraza la ICAO waliohudhuria. Kwa usaidizi wa Wizara ya Usafiri, Katibu wa Baraza la Mawaziri wa usafirishaji alisimamia kusainiwa kwa makubaliano ya Huduma za Ndege angalau thelathini na nne (ASA). Tunashukuru wizara ya uchukuzi (MOT) na mamlaka za anga za kirahia nchini Kenya (KCAA) kwa kuandaa mkutano huu.

Watalii waliosafiri Kenya 2018 waliongezeka kwa asilimia 37.33 kutoka mwaka uliopita na kuvuka milioni mbili kwa mara ya kwanza. Uboreshaji huu mkubwa ni ishara ya ubora wa Kenya na thibitisho la nafasi yetu kuu katika utalii duniani. Kenya Airways inajivunia kuchangia jambo hili na inabakia nia ya kupitisha idadi hata zaidi.

Usalama wa wateja

Uwezo wetu katika matengenezo ya ndege unaendelea kutambuliwa kimataifa. Kwa mwaka wa tatu mfululizo, Kenya Airways ilitambuliwa na kuthibitishwa kama Embraer Authorised Service Center (EASC). Hii imesababisha kuendelea huduma za ndani

ya ndege ya Embraer pamoja na mapato ya ziada kwa kuwa-hudumia wateja wengine. Pia ni muhimu kusema ya kwamba utendakazi wema wa Kenya Airways umedhibitishwa sahihi kutokwa kwa European Union Aviation Safety Agency (EASA). Maendeleo mapya katika matumizi na ulinzi wa data na ulinzi yaliongoza sehemu kubwa ya mwaka 2018. Hatimaye, sheria za European Union General Data Protection Regulation (GDPR) zilipitishwa na kuanza kutumika Mei 2018. GDPR inasisitiza haki ya data ya wateja kwa kutoa mfumo wa kisheria kuhakikisha na kutekeleza haki za data kama vile haki ya kupata data, haki ya kusahaulika na haki ya kuarifiwa. Matokeo kwa mashirika yanayokiuka kanuni za GDPR ni mbaya; asilimia 4 ya mauzo ya kimataifa ya \$ milioni 20, KQ imeweka mikakati kabambe ya kuendelea kuwa kwa kanuni za GDPR ikiwa ni pamoja na kuwahakikishia wateja wake kuwa faragha ya data yao imefungwa na usalama wake kuhakikishiwa.

Ustawi

Moja ya wajibu wetu wa Shirika la Kijamii ni kujitolea kwa kuhakikisha ulinzi wa mazingira na uendelevu wake. Kwa mujibu wa hili, Azimio A39-3 la Bunge la ICAO liliamua kuwa Nchi zifuatilie Global Market Based Measures (GMBM) kwa njia ya Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA) kutoka 1 Januari 2019 ili kushughulikia ongezeko la kila mwaka la uzalishaji wa CO2 kutokana na usafiri wa ndege. Kwa wakati huu, KQ inasaidia mpango lakini inaendelea kuchunguza adhira za ya kufutilia CORSIA.

Kwenda mbele

Tunapoendelea katika siku zijazo, bodi ya Kenya Airways PLC bado inalenga kuendesha kampuni kuelekea mafanikio ya kifedha pamoja na ukuaji. Kenya Airways PLC inaingia mwaka 2019 kwa kutekeleza lengo la kufikia mafanikio ya kifedha, ubora wa huduma za wageni, ukuaji wa soko pamoja na maendeleo endelevu ya Afrika. Kenya Airways itaendelea kutekeleza usimamizi bora wa kifedha kulingana na mipango iliyoanza mnamo 2018. Mafanikio katika upanuzi wa mtandao wetu, ukuaji wa mapato na namba za abiria zinastahili kusemwa. Ukuaji huu uko chini ya mtazamo mzuri wa kiuchumi nchini Kenya na ulimwengu kwa ujumla. Nina matumaini kwamba uwezo wetu wa msingi utatuwezesha kwenda mbele zaidi. Kenya Airways inapepeza bendera ya Kenya na ni mojawapo ya kampuni za ndege kumi bora Afrika. Hii inanifanya nijue jukumu kubwa sio tu kwa wateja wetu na wanahisa lakini kwa umma wote wa Kenya.

Shukrani

Shukrani zangu za dhati kwa wajumbe wenzangu wa Bodi kwa uongozi wenu kwa kipindi hiki cha changamoto katika kuleta mageuzi. Nashukuru pia wasimamizi na wafanyakazi wetu kwa juhudi zenu.

Michael Joseph

CHIEF EXECUTIVE OFFICER'S STATEMENT

I am pleased to report that 2018 was a good year for Kenya Airways. This marked a second consecutive year of improved financial performance and business growth which we have been working towards since 2017. We focused on expanding our network as part of the airline's growth strategy and as a result increasing the airline's capacity measured in Available Seat Kilometres (ASKs).

The company smoothly transitioned from a 5-bank Network Structure to a 3-bank Network Structure in October 2018, consequently leading to improved passenger connectivity at the hub by approximately 30%.

During the year, we also introduced a range of new innovative products and services aimed at meeting market demand and maintaining our competitive edge in the highly competitive industry.

Despite the above achievements, the airline experienced several challenges such as volatility of fuel prices, intense competition and employee unions' related challenges.

I am however pleased to report that thanks to the airline's robust business planning, prompt actions in the face of crisis, passenger-focused solutions and dedicated staff, the company came out stronger and better than the previous year. Kenya Airways remains committed to sustaining this growth trajectory, with continued focus on cost management, route network expansion and good industrial relations.

PASSENGER GROWTH

In 2018, Kenya Airways benefited from the positive trends in the country's Tourism Sector due to the good political environment. The airline recovered fully from the significant negative election impact attributed to the prolonged election period in 2017. Domestic traffic flows (Nairobi-Mombasa and Nairobi-Kisumu routes) also recovered and registered significant growth in traffic.

There was strong growth in traffic from and to Kenya from the various key markets in the network which saw our passenger numbers grow to 4.84 million. Overall, the airline achieved a cabin factor of 77.6 per cent. We look forward to enjoying the same environment, if not better, in 2019.

In addition, Kenya Airways was once again recognised by the World Travel Award as Africa's Leading Airline in Business (for the 6th consecutive time) and Africa's Leading Airline in Economy Class (for the 2nd time). This is a true testament of the support from our passengers and the dedication of our teams.

REVENUE GROWTH

Passenger Revenue

In the 12-months period, passenger turnover stood at KShs. 95,187 million. Kenya Airways' performance during the year ended December 2018 was positive. Despite the increase in competition and overcapacity on most traffic flows, there was significant improvement in the airline's average fare. This was largely driven by growth in higher yielding traffic to and from Kenya, increase in premium business class traffic and commercial efficiencies.

Freight and Mail Revenue

During the 12 months period ended December 2018, freight and mail turnover stood at KShs. 8.468 million, the good performance was attributed to a better product mix with growth of premium valuable cargo segment and marked improvement of the general cargo segment.

Ancillary Revenue

At the end of 2018 the airline made an important step in growing its ancillary footprint by introducing an enhanced number of extra seat propositions (extra legroom and preferred seat) and significantly growing its distribution scope to all relevant direct booking channels. The group generated an additional Ksh. 8,338 million. Similarly the group generated handling revenues totalling Ksh 2,193 million.

NETWORK EXPANSION

As mentioned earlier, we opened new strategic routes as part of our growth strategy. During the year, four routes were launched beginning with Mauritius on 7th June operated on the E190, New York on 28th October operated on the B788, Libreville in Gabon on 29th October operated on the E190, and Mogadishu launched on 18th December on the E145. In July and August Kenya Airways operated additional flights to Amsterdam and Paris to leverage on high summer demand. The airline also added a direct flight to Cape Town, South Africa.

Kenya Airways suspended online operations to Jeddah in September with the intention of retaining network efficiency, opting to serve customers through existing partnerships. We will continue working towards efficient network planning including closure of unprofitable routes and launch of new prospective connections.

New York Launch

The launch of New York was one of the most visible and significant events in 2018. A well-structured plan of events was

executed and fully rolled-out, which in turn culminated to the high-profile launch experience both nationally and internationally. The national event was flagged off by H.E. the President of the Republic of Kenya Uhuru Kenyatta and received by H.E. the Deputy President Dr. William Ruto. The below pictorial is a summary of some of the highlights of what transpired through the year focusing on major corporate events.

NYC JOURNEY

JOINT VENTURE

Kenya Airways continues to use partnerships to enhance its network strategy. In 2018, Air France joined the joint venture and together with KLM, the marketing team successfully carried campaigns enhancing awareness of the joint network, seamless connectivity and competitive pricing offered by the three airlines.

Other key successes were establishment of a joint sales force in Rwanda with Kenya Airways fully representing AFKL in the market through an efficient organisation, competent people and one face in the market. Overall the Joint Venture with AFKL achieved strong passenger revenue, with an increase in capacity.

INNOVATION AND PRODUCT

On 1 August 2018, Kenya Airways launched a new catering service that focused on three pillars; African, Simplicity and Authentic. The Chef's programme was also introduced at the same time. This programme works with African chefs to develop menus that showcase exquisite fusions of culture with various local ingredients. Further, the airline continues to work closely with the caterers to ensure that at least over 90% of all the ingredients used in the preparation of all its meals onboard, are locally sourced to support the Buy Kenya, Build Kenya initiative. In the new catering product, a basket service with light snacks for flights shorter than one hour and a snack box service for flights from two to four hours were introduced. Business Class passengers on flights longer than seven hours can now enjoy a more personalised inflight meal with the introduction of a plated service. In addition, the airline introduced a signature welcome drink inspired by a tantalising combination of herbs and indige-

nous fruits.

The airline further rolled out BlueBiz, a joint corporate loyalty program with Air France and KLM. A key market in this respect is the airline's home market, Kenya, where BlueBiz will be an important program to further cement KQ's leadership role in the SME corporate market.

FLEET DEVELOPMENT

The company completed the sale of two aircraft as part of the KQ fleet rationalisation project. An early return of one B787-8 subleased from Oman was completed to support the airline's network expansion into the US. As part of the improved focus on the cabin product, the three 9-year-old B737-800 interiors were refurbished, and a portable wireless entertainment system installed.

FLEET - IN SERVICE		
Aircraft Type	31-Dec-17	31-Dec-18
Boeing 777-300ER	-	-
Boeing 777-200ER	1*	-
Boeing 787-8	7	8
Boeing 737-800	8	8
Boeing 737-700	2	2
Boeing 737-300	2*	1*
Boeing 737-300F	2	2
Embraer 190	15	15
Bombardier Dash 8-400	3	5
TOTAL	40	41

Note: * - aircraft was disposed of in 2018

This coming year will see the return of KQ's 9th B787-8 from Oman Air, as scheduled, to support the network expansion into Rome and Geneva. The airline is exploring the extension of the subleases of the three B777-300ER for a further period.

FLEET - MOVEMENTS IN 2019		
Aircraft Type	No. of aircraft	Reason for movement
Boeing 787-8	1	Sub-leased to Oman Air. Returning to KQ in April 2019
Boeing 737-700	(2)	Leases expire in August 2019.
Boeing 737-300	(1)	Out of service and being used as a training aircraft
Aircraft on order	-	Zero orders as of now. However, this position is being considered to avail aircraft for further route expansion
TOTAL	(2)	

CHIEF EXECUTIVE OFFICER'S STATEMENT (Cont...)

COST

Fuel Volatility

The volatility of the fuel prices was the most prominent challenge during the year. Fuel alone takes up about 27% of Kenya Airways' total expenditure. The volatile fuel prices in 2018 impacted the delivery of the airline's fuel cost, consequently affecting its total costs.

The price per barrel was on an upward trend from the beginning of 2018 with the Brent Crude prices peaking at a three year high of USD 86 per Barrel in October. The prices however reduced in the last two months of the year closing at a low of USD 49 per Barrel in December 2018.

In order to mitigate the impact of the fuel price volatility, Kenya Airways implemented a fuel hedging policy.

Source: Bloomberg

MARKET SHARE

Competition

Intense competition and growing presence of foreign state-backed carriers in the Kenya market reduced the airline's market share.

KQ's key competitors continued to grow capacity in the airline's key markets led by Ethiopian Airlines whose capacity is up by about 20% while Rwanda Air's capacity is up 22%. Emirates and Qatar also have grown their capacity into the market by 6% and 12% respectively.

High operating costs such as landing fees, fuel, industrial action disruptions continue to impede KQ's competitiveness against these players as KQ receives no advantage from having JKIA as its hub, while these competitors are given preferential treatment in their home markets.

EMPLOYEES

Kenya Airways values an environment where people feel empowered and motivated. As at the end of this Financial Year 2018, Kenya Airways had a total headcount total of 4,763 staff employed across 39 countries. Permanent staff stood at 3,905 whereas contracted staff closed at 858. In the previous year 2017, permanent staff stood at 3,548 and contracted staff at

1,028. The increase in permanent staff of 10% is mainly attributed to the movement of staff from the outsourced labour providers into Kenya Airways in a bid to improve employee engagement and motivation. In 2019, we will initiate new engagement strategies to build motivation and alignment to our corporate objectives. Notwithstanding, we have been engaged in efforts to harmonise trade union relations as misinformation leading to perceived mistrust continues to negatively affect the cordial relations with our employees.

IN CONCLUSION

Product and service excellence are crucial to the continued success of the Company, and as such the airline shall endeavour to create a recipe for success to further satisfy the needs and expectations of its passengers. KQ's commitment to review its Customer Excellence Program remains firm. 2018 saw the introduction of the new catering product as well as kick-starting of the airline's brand refresh. In 2019, the airline will see to it that the program is fully implemented.

Managing the company's cashflow still remains the biggest yet attainable challenge, but the airline remains optimistic on bridging the gap as it moves forward.

The growth of the airline's revenues is pegged on the expansion of its network. Network growth is only possible with additional capacity. In 2019, the airline intends to further actualise its network expansion plan and possibly grow its fleet to remain competitive.

Management is committed to building and establishing good industrial relations to amicably resolve any arising issues and in the best interest of all parties.

Sebastian Mikosz
Group Managing Director & CEO

TAARIFA YA Mkurugenzi Mkuu

Ninafurahi kutoa ripoti kuwa mwaka wa 2018 ulikuwa mzuri kwa Kenya Airways. Kwa mwaka wa pili mfululizo, tulipata matokeo bora ya kifedha na biashara yetu iliendelea kukua. Jambo ambalo tumekuwa tukilenga tangu tulipoanza mpango wa kuleta mabadiliko mwaka wa 2017.

Utendaji huu bora ulikuwa matokeo ya maamuzi yaliyotolewa hapo awali. Tulilenga kupanua mtandao wetu kama mojawapo ya mikakati ya ukuaji wa KQ na tukaweza kuongeza uwezo wetu uliopimwa katika Available Seat Kilometres (ASKs). Kampuni ilibadilisha kwa ufanisi matumizi ya muundo wa Mtandao wa Benki 5 hadi kwenye muundo wa Benki 3 mnamo mwezi wa Oktoba 2018. Hali hii ilisababisha muunganisho bora wa abiria kwa karibu 30%.

Wakati huo huo, tulianzisha huduma mpya za ubunifu zinazotingatia mahitaji ya soko na kudumisha ushindani katika sekta ya usafiri wa angani.

Licha ya mafanikio haya, shirika letu lilipata changamoto kadhaa kama vile mabadiliko katika bei za mafuta, ushindani mkali na changamoto zinazohusiana na vyama vya wafanyakazi.

Hata hivyo nimefurahi kutoa ripoti ya kuwa kwa sababu ya mipango yetu mizuri ya biashara, hatua za haraka katika kukabili-ana na migogoro, suluhisho zinazolenga abiria na wafanyakazi wa kujitolea, kampuni yetu imeimarika zaidi na kujitokeza kuwa bora zaidi kuliko mwaka uliopita. Kenya Airways bado ina nia ya kuendeleza ukuaji huu na kuendelea kuzingatia usimamizi wa punguza gharama, upanuzi wa mitandao yake na upanuzi wa sehemu tunasafirisha abiria na kukuza mahusiano mazuri ya viwanda.

UKUAJI WA ABIRIA

Mwaka 2018, Kenya Airways ilinufaika na hali nzuri ya Sekta

ya Utalii nchini kutokana na mazingira mazuri ya kisiasa. Hali ilimarika tofauti na hapo awali tuliposhuhudia athari kubwa za kipindi kirefu cha uchaguzi mnamo mwaka wa 2017. Safari za ndani ya nchi (Nairobi-Mombasa na Nairobi-Kisumu) pia ziliripoti ukuaji mkubwa katika trafiki.

Kulikuwa na ukuaji mkubwa katika safari za kutoka Kenya na kutoka kwenye masoko muhimu kwenye mtandao wetu ambako idadi ya abiria iliongezeka hadi milioni 4.84. Kwa ujumla, KQ ilipata ongezeko ya asilimia 77.6. Tunatarajia kufurahia mazingira sawa lakini ni matumaini yetu mazingira yatakuwa bora zaidi mwaka wa 2019.

Kwa mara nyingine tena, Kenya Airways ilipata Tuzo la World Travel Awards kama shirika bora zaidi katika kiwango cha Business Class Barani Afrika (kwa muda wa sita mfululizo). Pia tulipata tuzo la shirika bora zaidi katika Economy Class Barani Afrika (kwa mara wa pili). Hili ni dhihirisho bora kwa kuwa tunaungwa mkono na abiria wetu na pia ni ithibati ya kujitolea kwa wafanyakazi wetu.

UKUAJI WA MAPATO

Mapato ya Abiria

Utendaji wa Kenya Airways wa mwaka uliomalizika Desemba 2018 ulikuwa bora. Katika miezi 12, Mapato kutoka kwa abiria yalifika Shilingi (Kshs) milioni 95,187. Licha ya ongezeko la ushindani, mapato kutoka kwa ndege ilikuwa bora. Hali hii ilisababisha na ukuaji wa safari za kutoka Kenya, ongezeko la wateja wa Business Class na ufanisi wa kibiashara.

Mapato ya Usafirishaji wa Mizigo na Barua

Katika kipindi cha miezi 12 kilichomalizika Desemba 2018, mapato ya mizigo na barua yalikuwa Shilingi (Kshs) Milioni 8.468. Utendaji huu mzuri ulihusishwa na mchanganyiko wa bora wa bidhaa bora na ukuaji kwa thamani kubwa wa sehemu ya mizigo. Hali iliyoleta ukuaji wa jumla katika sekta ya mizigo.

Mapato Mengine

Mwishoni mwa mwaka wa 2018 shirika la Kenya Airways lilichukua hatua muhimu kwa kuanzisha idadi ya ziada ya mapendekezo ya viti vya ziada (nafasi kubwa ya kuweka miguu na kuwa na mapendeleo ya viti kwa wateja). Pia tuliongeza mitandao ya vituo vya kuhifadhiya tiketi zetu. Hatua hii ilizalisha Shilingi milioni (Kshs) 8,338. Aidha, kampuni lizalisha mapato ya jumla ya Shilingi (Kshs) milioni 2,193.

TAARIFA YA Mkurugenzi Mkuu (inaendelea)

UPANUZI WA MITANDAO YETU

Kama ilivyoielezwa mapema, tulifungua njia mpya kama mojawapo ya mikakati yetu ya ukuaji. Njia nne zilizinduliwa, tukiwa safari za kwenda Mauritius zilizoanza mnamo tarehe 7 Juni ikiwa na ndege ya aina ya E190, New York tarehe 28 Oktoba ikiwa na B788, Libreville, Gabon tarehe 29 Oktoba ikiwa na E190, na Mogadishu mnamo tarehe 18 Desemba kwa E145.

Mnamo Julai na Agosti, Kenya Airways iliongeza ndege za ziada kwenda Amsterdam na Paris ili kuimarisha mahitaji ya juu ya majira ya joto. KQ pia iliongeza ndege ya kwenda Cape Town, Afrika Kusini moja kwa moja.

Kenya Airways ilisimamisha shughuli za Jeddah mnamo Septemba kwa nia ya kuwatumikia wateja kupitia ushirikiano uliopo. Tutaendelea kufanya kazi kwa ufanisi wa mipango ya mtandao ikiwa ni pamoja na kufungwa kwa njia zisizo na faida na uzinduzi wa uhusiano mpya wa biashara.

Uzinduzi wa Safari za New York

Katika mwaka wa 2018, uzinduzi wa safari za moja kwa moja hadi New York ulikuwa wenye matukio muhimu. Mpango wa matukio uliopangwa vyema ulifanyika na kukamilika kikamilifu, na uzinduzi huo ulikuwa wa kiwango cha juu kitaifa na kimataifa. Tukio hili liliongozwa na Rais wa Jamhuri ya Kenya H.E Uhuru Kenyatta na naibu wake H.E Dkt William Ruto. Picha iliyo hapa chini ni muhtasari wa baadhi ya mambo muhimu yaliyofanyika mwaka uliopita.

USHIRIKIANO

Kenya Airways inaendelea kutumia ushirikiano wake na washirika wengine ili kukuza mtandao wake. Mnamo mwaka wa 2018, Air France ilijiunga nasi pamoja na KLM (AFKL), timu ya uuzaji ilifanikiwa kufanya kampeni ya mtandao ya kuhamasisha mtandao wa pamoja, kukuza muunganisho wa usawa na bei za ushindani zinazotolewa na mashirika haya matatu ya ndege.

Mafanikio mengine muhimu yalianzishwa kwa kufanya mauzo ya pamoja nchini Rwanda huku Kenya Airways ikiwakilisha AFKL kwenye soko kupitia ushirika wenye ufanisi. Kwa jumla Ushirikiano wa Pamoja na AFKL ulileta mapato yanayotokana na abiria na

ongezeko la uwezo wa kuendeleza biashara.

Uzinduzi mpya

Mnamo Agosti 1, 2018, Kenya Airways ilizindua huduma mpya ya upishi iliyozingatia nguzo tatu; Uafrika, Urahisi na Upekee. Mpango mpya wa mapishi pia ulizinduliwa. Mpango huu unaleta pamoja wapishi ili kutengeneza mchangamko wa vyakula vina- vyozingatia utamaduni wa Kiafrika na viungo mbalimbali vya kiasili. Zaidi ya hayo, shirika letu linaendelea kuhakikisha kuwa angalau zaidi ya 90% ya viungo vyote vilivyotumiwa wakati wa maandalizi wa vyakula vyake vyote ni vya Kenya ili kuunga mkono mpango wa Buy Kenya, Build Kenya.

Katika mpango huu mpya wa upishi, huduma ya vitafunio vye- pesi katika safari fupi kuliko saa moja na huduma ya vitafunio kwa ndege katika safari za saa mbili hadi nne ilianzishwa. Abiria katika Business Class walio kwa safari za zaidi ya saa saba wa- naweza sasa kufurahia mlo wa kibinafsi kutokana na kuanzishwa kwa huduma hii mpya. Mbali na hili, KQ ilianzisha kinywaji cha kipekee kwa kila mteja cha mchanganyiko wa mimea na matunda ya asili.

KQ ilizindua mpango wa pamoja wa uaminifu wa kampuni na Air France na KLM almaarufu BlueBiz. Soko kuu katika mpango huu likiwa soko la Kenya, ambapo BlueBiz itakuwa mpango muhimu kwa Madogo Nchini Kenya (SME), hali itakayoendelea kuimarisha uongozi wa Kenya Airways nchini Kenya.

Maendeleo ya Ndege Zetu

Tulikamilisha uuzaji wa ndege mbili kama sehemu ya mradi wa mabadiliko katika KQ. Kurudi mapema kwa ndege ya B787-8 kutoka Oman kulikamilishwa ili kusaidia upanuzi wa mtandao wa ndege kuelekea Marekani. Ili kuboresha usafiri, ndege za B737-800 ziliundwa upya, na mfumo mpya wa burudani ukawekwa.

Ndege zinazohudumu		
Aina ya ndege	31-Dec-17	31-Dec-18
Boeing 777-300ER	-	-
Boeing 777-200ER	1*	-
Boeing 787-8	7	8
Boeing 737-800	8	8
Boeing 737-700	2	2
Boeing 737-300	2*	1*
Boeing 737-300F	2	2
Embraer 190	15	15
Bombardier Dash 8-400	3	5
JUMLA	40	41

Mwaka ujao utaona kurudi kwa KQ 9 B787-8 kutoka kwa Oman Air, kama ilivyopangwa katika hatua ya kuunga mkono upanuzi wa mtandao wa Roma na Geneva. KQ inaangalia upa- nuzi wa vipengee vya B777-300ER tatu kwa kipindi kingine.

TAARIFA YA Mkurugenzi Mkuu (inaendelea)

RATIBA YA NDEGE MWAKA 2019

Aina ya ndege	Idadi ya ndege	Sababu
Boeing 787-8	1	Ilikodishwa kwa Oman Air. Itarudi KQ mwezi Aprili 2019
Boeing 737-700	(2)	Mpango wa kukodisha unamalizika mnamo Agosti 2019.
Boeing 737-300	(1)	Inatumika sasa kama ndege ya mafunzo
Ndege zilizoagizwa	-	Hakuna maagizo kwa sasa. Hata hivyo, kuna mikakati kwa ajili ya upanuzi wa njia zaidi

Source: Bloomberg

GHARAMA

Mbadiliko ya Bei ya Mafuta

Mabadiliko ya bei ya mafuta ilikuwa changamoto kubwa zaidi. Mafuta huchukua karibu 27 ya matumizi ya jumla ya Kenya Airways. Bei ya bei ya mafuta mwaka 2018 iliathiri utoaji wa gharama ya mafuta ya ndege, na hivyo kuathiri gharama zote. Bei kwa kila bareli ilikuwa juu tangu mwanzo wa 2018 na bei za Brent Crude zikifika dola 86 kwa kila bareli mwezi wa Septemba. Hata hivyo bei zimepungua katika miezi miwili iliyopita kufika dola 49 kwa bareli Desemba 2018. Ili kupunguza madhara ya mabadiliko ya bei ya mafuta, Kenya Airways imetekeleza sera ya uagizaji wa mafuta.

UMILIKI WA SOKO

Ushindani

Ushindani mkali uliathiri soko la Kenya. Washindani muhimu wa KQ waliendelea kukua katika masoko muhimu ya ndege hiyo wakiongozwa na Shirika la ndege la Ethiopia ambalo uwezo wake umeongezeka kwa asilimia 20. Aidha, uwezo wa Rwanda Air umeongezeka kwa 22%. Emirates na Qatar pia wameongeza uwezo wao katika soko kwa 6% na 12%. Gharama kubwa za ada za kutua, mafuta ni baadhi ya maswala yanayoendelea kuzuia ushindani wa KQ dhidi ya washindani hawa, kwa sababu KQ hai-pati faida ya kuwa na JKIA kama kitovu chake, wakati washindani hawa wanapewa upendeleo katika masoko yao ya nyumbani.

Wafanyakazi

Kenya Airways inathamini mazingira ambayo watu wanahisi kuwa na uwezo na motisha. Kufikia mwisho wa Mwaka wa 2018, Kenya Airways ilikuwa na jumla ya wafanyakazi 4,763 walioaji-riwa katika nchi 39. Wafanyakazi wa kudumu walifika 3,905 na wafanyakazi wa mkataba walikuwa 858. Katika mwaka uliopita 2017, wafanyakazi wa kudumu walikuwa 3,548 na wafanyakazi wa mkataba walikuwa 1,028. Ongezeko la wafanyakazi wa kudumu kwa 10% inahusishwa hasa na uajiri ya wafanyakazi kutoka kwa watoa huduma wa nje kama mojawapo ya jitihada za kuboresha ushiriki wa wafanyakazi na motisha. Mnamo 2019 tutaendelea kuwawezesha wafanyakazi wetu kwa kushiriki katika uvumbuzi endelevu.

Hata hivyo, tumekuwa na jitihada za kuunganisha mahusiano ya vyama vya wafanyakazi kwa sababu ukosefu wa habari sahihi. Habari zisizo za uaminifu na kweli zinaendelea kuathiri vibaya uhusiano mzuri na wafanyakazi wetu.

Hitimisho

Ubora wa bidhaa na huduma ni muhimu katika mafanikio ya Kampuni, vile vile KQ itajitahidi kuunda mipango maalum ya mafanikio ili kukidhi mahitaji na matarajio ya abiria wake. Ubora wa huduma zetu kwa wateja unabaki kuwa mojawapo ya vipengele vikuu. Tulianzisha bidhaa mpya ya upishi na mipango mingine ili kuleta mabadiliko. Mnamo mwaka wa 2019, KQ itahakikisha kwamba mipango hiyo inatekelezwa kikamilifu. Usimamizi wa kifedha unabaki kuwa changamoto kubwa zaidi lakini ambayo tunaweza kukabiliana nayo, lakini kuna matumanini ya kuim- arika kifedha. Kukua kwa mapato katika shirika lolote la ndege kunaletwa na upanuzi wa mtandao wake. Kukua kwa mtandao kunawezekana tu iwapo kuna uwezo wa ziada. Mnamo mwaka wa 2019, KQ inatarajia kuendeleza mipango ya upanuzi wa mtandao na kukuza ndege. Wasimamizi wana nia ya kujenga na kuanzisha mahusiano mazuri ili kukabiliana na masuala yoyote yanayotokea na kwa maslahi bora ya kila mtu.

Sebastian Mikosz
Mkurugenzi Mkuu

TRADE IS AN ESSENTIAL PART OF ANY GROWING ECONOMY. THIS IS THE REASON WE CARRY 180 TONNES OF CARGO DAILY TO DIFFERENT DESTINATIONS AROUND THE WORLD.

WE CARRY
180TONNES
OF CARGO DAILY

STATEMENT OF CORPORATE GOVERNANCE

The Board of Kenya Airways Plc understands that it has overall responsibility for the governance of the Company and that it is accountable to the shareholders and other stakeholders. The Board regards corporate governance as key to the achievement of the Company's mission and vision, and is committed to applying the highest standards of corporate governance for the long term sustainability of the Company.

The Board is responsible for providing the strategic direction to the Company, for formulating policies that support the delivery of the strategy and for ensuring that the Board and the Company as a whole has embraced good corporate governance practices in its structure, policies and operations. The Board oversees the operations of Management, exercises control and remains accountable through effective leadership, enterprise, integrity and good judgment. In this regard, the Board is committed to fostering a culture that values ethical behaviour, integrity and respect and the need to conduct the business and operations of the Airline and the Group in accordance with generally accepted corporate practices and in particular, with the Code of Corporate Governance for Issuers of Securities in Kenya ("the Code").

Board of Directors

The Articles of Association of the Company vests the governance of the Company in the Board of Directors. The Board is composed of eleven Directors as set out below;

Mr. Michael Joseph	-Independent Non-Executive Director (Chairman)
Mr Sebastian Mikosz	-Group Managing Director & CEO
Mr Jozef Veenstra	- Non-Executive Director
Dr. Kamau Thugge	- Non-Executive Director
Prof. Paul M. Maringa	- Non-Executive Director
Mrs Esther Koimett	- Non-Executive Director
Ms Carol Musyoka	- Non-Executive Director
Dr Martin Oduor Otieno	- Non-Executive Director
Mr Jason Kapkirwok	- Independent Non-Executive Director
Ms Caroline Armstrong	- Independent Non-Executive Director
Maj. Gen (Rtd) Michael Gichangi	- Independent Non-Executive Director
Mr Festus Kingori	- Alternate to Dr. Kamau Thugge
Mr. Nicholas Bodo	- Alternate to Prof. Paul M. Maringa

The Board Charter has been disclosed on the Company's website as required by the Code. The Board is also guided by a number of policies including a Code of Business Conduct, a Directors' Code of Conduct, a Conflict of Interest and Gifts policy, Insider Trading Policy, Board Induction and Development Policy, Dispute Resolution Policy, Board Diversity Policy, Board Appointment Procedures as well as a Stakeholder Management Policy.

The Board annually approves its Work Plan, which enables it to have a balanced view of the business and to be sufficiently forward looking. The Work plan also enables the Board to plan its activities in advance and to ensure that its Board meetings are planned and executed in an effective manner. Besides Board and Committee meetings, the Work Plan sets out other board activities including Board Evaluation, Board retreats and training as well as investor briefings. The Board's Work Plan is approved before the commencement of the financial year to which it relates.

The full Board plans quarterly meetings in order to conduct its affairs. When need arises, the Board also holds special meetings to fulfill its mandate and to guide the Management as appropriate. The Directors receive all relevant information for the discharge of their obligations in accurate, timely and clear form so that they can guide and maintain full and effective control over strategic, financial, operational and compliance issues.

There is a clear separation of roles between the Board and Management, and this separation has been clearly stipulated in the Board Charter. The role of the Chairman of the Board is separate from that of the Group Managing Director and Chief Executive Officer, and in line with good governance practice, the Board has delegated authority for the conduct of day-to-day business to the Group Managing Director and Chief Executive Officer. This delegation has been clearly defined in the Board Charter and in the Delegation of Authority matrix approved by the Board during the year under review. The Board nonetheless remains accountable for the overall management and long-term success of the Airline.

The Chairman is responsible for leadership and effective performance of the Board and for the maintenance of relations between Directors and Management. The Board acts collectively but remains aware that Directors are individually and collectively responsible for the governance of the Company.

The Board takes its responsibilities seriously and clearly understands its role, powers, duties and functions.

In the performance of its role, the Board is guided by a Board Charter, which was last reviewed in November 2018.

STATEMENT OF CORPORATE GOVERNANCE (Continued)

Attendance of Board meetings

Board members commit to regularly attend and to be effectively participating in Board meetings through robust debate. This is made possible by early planning. Board attendance for the period under review is as set out below:

Mr. Michael Joseph	-	8/8
Mr Sebastian Mikosz	-	8/8
Mr Jason Kapkirwok	-	8/8
Ms Caroline Armstrong	-	7/8
Mr Jozef Veenstra	-	8/8
Major Gen. (Rtd) Michael Gichangi	-	8/8
Mr Festus Kingori	-	8/8
Mr. Nicholas Bodo	-	7/8
Dr. Martin Oduor Otieno	-	7/8
Ms Carol Musyoka	-	8/8
Mrs Esther Koimett	-	5/8

Board appointment, composition and Succession planning

As a result of the current shareholding structure, ten out of the eleven members of the Board are Non-Executive Directors. Four out of the remaining ten Directors are Independent, including the Chairman of the Board.

The Board considers that collectively, the Directors have the range of skills, knowledge and experience necessary to

direct the Company. In this regard, the Board has developed a detailed skills matrix that guides it in recommending directors for appointment. The Board's skills matrix is aligned to the Company's strategy and provides guidance for diversity in knowledge and experience, governance and industry skills, personal attributes as well as non-skills considerations such as gender and age. The skills matrix is used in conjunction with the Board Appointment Procedures and Board Diversity Policy which are published on the Company's website.

Non- Executive Board members are appointed for an initial term of three years and the Board implements term limits in line with the Articles of Association, the Board Charter and the Board rotation schedule. In this regard, the Independent Non-Executive Directors serve for a maximum of three terms of three years each. Re-appointment to the Board for a further term is dependent on good performance. Each Director has a detailed letter of appointment setting out the terms and conditions of service including their fiduciary duties. Each Director has accepted their appointment in writing.

The Board manages its succession planning with the assistance of the Corporate Governance and Nominations Committee. The Committee has put in place a succession plan for the Board and in line with the skills matrix, reviews existing and desired competencies and guides the Board and shareholders accordingly whenever appointments are to be made. All except the

Board Rotation schedule

DIRECTOR	Year of 1st Appointment	Year of re-election	Year of re-election	Year of re-election	Year of re-election	Year of re-election	Year of re-election
Dr. Kamau Thugge	2013	2016			2019		
Ms. Caroline Armstrong	2014		2017			2020	
Mr. Jason Kapkirwok	2015			X	2019		
Mr. Michael Joseph	2016				2019		
Mr. Jos Veenstra	2017					2020	
Prof. Paul Maringa	2017					2020	
Major Gen. Gichangi	2017					X	2021
Ms. Carol Musyoka	2017			2018			2021
Dr. Martin Otieno Oduor	2017			2018			2021
Mrs Esther Koimett	2017			2018			2021

Group Managing Director are subject to rotation in accordance with the Company's Articles of Association, the Code, as well as the Board's Rotation Policy. In this regard, three Directors will retire by rotation at the Annual General Meeting.

NOTES:

- Key: X - Should retire during the year but retirement moved to the following year to meet the one third rule in the Articles
- The Directors to retire in every year shall be those who (i) have been appointed by the Board since the previous annual general meeting in accordance with Article 67, (ii) being subject to retirement by rotation, have been the longest in office since their election or appointment, but as between persons who became or were last re-elected Directors on the same

day those to retire shall (unless they otherwise agree among themselves) be determined by lot.

During the year under review, Mrs Esther Koimett, Dr Martin Oduor Otieno and Ms Carol Musyoka were appointed to the Board at the Annual General Meeting of the Company held on 22nd June 2018. The three Directors, who were initially nominated by the majority shareholders, were vetted by the Corporate Governance and Nominations Committee and in line with the Board Appointment Procedures, the Board Diversity Policy and the Skills Matrix, were recommended by the Board to the shareholders and were duly elected to the Board unanimously.

STATEMENT OF CORPORATE GOVERNANCE (Continued)

Board induction and continuous skills development

Upon appointment, Directors undergo a detailed, rigorous and formal induction programme in line with the Board Charter and the Company's Board Induction and Development Policy. The aim of the induction program is to enable the new Director to become effective in their new role as quickly as possible. The new Director is therefore provided with pertinent information to help them understand the Company and their role. The new Director is also required to experience firsthand the key operations of the Company and a detailed walk about programme is prepared for this purpose. New Directors also meet senior Management, the Company Secretary and the Chairman of the Board before their first Board meeting. New Directors are also provided with an appointment letter setting out pertinent matters relating to their appointment as a Director and receive among others, copies of the Company's Articles of Association, the Board work plan, the Board Charter and relevant Board Policies. The Board induction programme conducted during the year lasted three full days.

The Corporate Governance and Nominations Committee considers and recommends Board development programmes to ensure that the Board is kept up-skilled. During the year under review and in line with the Board development plan, the Board attended Board training for a minimum of 12 hours each. In particular, Board members attended workshops in industry matters to build their capacity in aviation matters, which is an area which had been identified as an area for development during the year.

Code of Business Conduct & Ethics

The Airline is committed to the highest standards of integrity, behaviour and ethics in dealing with all its stakeholders. A formal Code of Business Conduct and Ethics has been approved by the Board and is fully implemented to guide the Board, Management, employees and stakeholders on acceptable behaviour in conducting business. All Board members and employees of the Airline are expected to avoid activities and financial interests that could undermine their responsibilities to the airline.

In addition, the Board applies a Conflict of Interest policy as well as a Code of Conduct specific to the Board. Directors are required to declare any conflict of interests upon appointment. In addition, a Director with an actual or potential conflict of interest in relation to a matter before the Board is required to disclose such interest and, recuse himself or herself from the discussions relating to the matter in question. In this regard, declaration of conflict of interest is a standing agenda item during Board and Committee meetings. In addition, Board members have an annual declaration of conflict of interest.

The Company has a strict insider trading policy to which the Directors and senior Management must adhere. The Board is not aware of any insider dealings during the period under review. All related party transactions have been considered by the Audit and Risk Committee and have been disclosed in the Company's audited financial statements.

It is also expected that all Directors will exercise independent judgment and shall act in the best interest of the Company. In addition, during the annual Board Evaluation, the Board assesses the independence of the Independent Non-Executive Directors using a tool approved by the Board. During the year under review,

the Board assessed the independence of the following Directors, who were all classified as being Independent Non-Executive Board members:

- Mr. Michael Joseph;
- Ms. Caroline Armstrong;
- Major General Michael Gichangi; and
- Mr. Jason Kap-Kirwok.

Board Evaluation

During the year under review, the Board undertook a Board Evaluation exercise. The Board has since considered the Board Evaluation results and has allocated responsibility to specific organs and individuals to implement recommendations related to the responsibilities of such organs and individuals.

Governance Audit

The Board subjected the Company to a Governance Audit and is committed to implementing recommendations meant to improve Board performance and effectiveness.

Transparency and Disclosure

The Company is committed to ensuring that shareholders and other stakeholders are provided with full, accurate and timely information about its performance. This is achieved by the distribution of the Company's Annual Report, the release of notices in the press and on the Company's website of its half yearly and annual results, and quarterly disclosures of operating statistics to the stock markets and capital markets authorities. There is also a minimum of two investor briefings per annum for institutional investors.

Periodically there are press releases announcing other major company developments, which could be considered price sensitive information. In this regard, the company also complies with the continuing listing obligations of the Capital Markets Authorities and Securities Exchanges applicable in Kenya, Uganda and Tanzania.

The Annual Report is published each year on the Company's website together with the notice of the Annual General Meeting.

There is regular communication with the staff as guided by the Human Resource Policies.

External Consultants

When required, the Board seeks external advice or assistance on issues over which there is concern, if it is considered necessary.

Committees of the Board

The Board has four standing committees, which meet regularly under formal Terms of Reference (TORs) set and approved by the Board. The Committees' TORs were revised by the Board in November 2018. This exercise was spearheaded by the Corporate Governance and Nominations Committee, which made its recommendations to the Board. The Committees' meet before scheduled Board meetings and prepare and present their reports to the Board.

STATEMENT OF CORPORATE GOVERNANCE (Continued)

Report of the Audit and Risk Committee

This report highlights the composition, attendance of meetings, role and key activities of the Audit and Risk Committee during the year. The report further outlines some of the focus areas for FY 2019.

Current Membership

- | | | |
|------------------------------|---|----------|
| • Dr. Martin Oduor-Otieno | - | Chairman |
| • Dr. Kamau Thugge/Alternate | - | Member |
| • Mr. Jozef Veenstra | - | Member |
| • Mr. Jason Kap-Kirwok | - | Member |
| • Ms. Carol Musyoka | - | Member |

The Group Managing Director, the Chief Finance Officer and the Head of Internal audit are permanent invitees to the Audit and Risk Committee.

All the Committee members are Non-Executive Directors. At least two of the members possess extensive professional knowledge and experience in the audit and accounting field.

Attendance of meetings for FY 2018

- | | | |
|---------------------------|---|-----|
| • Dr. Martin Oduor-Otieno | - | 9/9 |
| • Mr. Festus King'ori | - | 7/9 |
| • Mr. Jozef Veenstra | - | 9/9 |
| • Mr. Jason Kap-Kirwok | - | 9/9 |
| • Ms. Carol Musyoka | - | 9/9 |

Mr. Dennis Wasike was appointed as Head of Internal Audit and Secretary to the Audit and Risk Committee on 19 November 2018. Prior to that Mr. John Masika was the acting Head of Internal Audit and Secretary to the Audit and Risk Committee.

Mandate and role of the Audit and Risk Committee

The mandate of the Audit and Risk Committee of the Board is set out in the Board Charter.

The Committee is established to assist the Board in the effective discharge of its oversight responsibilities over:

- **Financial reporting and related internal controls**
The Committee is responsible for ensuring that adequate systems and processes of accountability are in place; including the necessary internal control systems required to provide assurance over the integrity and timeliness of financial reporting. The Committee also reviews management accounts of the Group on a quarterly basis and financial statements at least twice during the year. This includes review of the management letter from the independent auditor. The Committee also oversees the consistent application of Group Accounting policies and ensures alignment of these to the International Financial Reporting Standards (IFRS).
- **Risk management**
The Committee is responsible for ensuring that the Group has an effective process of identifying, assessing and evaluating, managing and monitoring and reporting significant risks.

- **Internal audit**

The Committee is responsible for monitoring and reviewing the performance and effectiveness of the Group's internal audit function, ensuring that the function is adequately resourced and equipped with the necessary tools. The Committee approves the internal audit plan annually and reviews all significant findings from audit reviews.

- **Independent auditor**

The Committee is responsible for monitoring and reviewing the performance of the independent auditor, evaluating their independence and objectivity, recommending their appointment or change and approving the level of audit fees payable to them. Being the point of liaison between the independent auditor and the Board, the committee is also responsible for managing relationships.

- **Ethics and Compliance**

The Committee is responsible for monitoring compliance with the Group's Business Code of Conduct. This also entails ensuring that an effective whistle blowing mechanism aimed at encouraging stakeholders to report matters that would be helpful in enforcing good governance practices within the organisation exists.

Key Activities in FY 2018

During the year under review, the key activities of the Committee included

- Implementation of an online and enhanced whistle blowing platform;
- Enhancing the effectiveness of the internal audit function by facilitating the acquisition of the ACL GRC tool. This tool has enabled automation of audit, risk and compliance programs thereby enhancing effectiveness and governance. The tool will also be used to perform data analytics, both during routine audit reviews and for continuous auditing; and
- The Committee continued to ensure that the internal audit function was adequately resourced. In addition, the Committee continued to play its oversight role over the operations of the Group; with focus on significant risk areas including: fuel hedge management, credit risk, utilization of assets (aircrafts) among others.

Looking forward

The focus of the Committee in 2019 will continue to be the strengthening of the internal control and governance processes across the Group. This will include enhancement of the framework for evaluating the internal control environment on a quarterly basis and also full optimization of the ACL GRC tool - specifically in Enterprise Risk Management (ERM) and data analytics for continuous auditing.

Dr. Martin Oduor-Otieno

Chairman - Audit and Risk Committee

29 April 2019

STATEMENT OF CORPORATE GOVERNANCE (Continued)

Report of the Corporate Governance and Nominations Committee

Current Membership

- | | |
|--|------------|
| • Mr. Michael Joseph | - Chairman |
| • Dr. Kamau Thugge/Alternate | - Member |
| • Major General (Rtd) Michael Gichangi | - Member |
| • Mr. Sebastian Mikosz | - Member |
| • Ms. Carol Musyoka | - Member |

In compliance with the Code, the Chairman of the Committee is an Independent Non-Executive Board member. The other committee members with the exception of the Group Managing Director are Non-Executive Board members..

Mandate

The Committee's mandate is to oversee and monitor the Company's Corporate Governance policies, practices and guidelines and to establish transparent policies and processes for the identification of suitable candidates for nomination and election or re-election as Directors of the Company.

Achievements during the year under review

During the year under review, the Committee held four meetings with 100% attendance per member as shown below:

Mr Michael Joseph	-	4/4
Mr. Festus King'ori	-	4/4
Major General (Rtd) Michael Gichangi	-	4/4
Mr Sebastian Mikosz	-	4/4
Ms Carol Musyoka	-	4/4

The following achievements were realised, among others:

- Subjected the Company to a Governance Audit;
- Subjected the Board to an annual Board Evaluation;
- Assessed and recommended to the shareholders the appointment of three Directors;
- Ensured Board training in industry matters;
- Assessed the Company's corporate governance practices against the Capital Markets Authority's Code of Corporate Governance Practices for Issuers of Securities;
- Revised and recommended to the Board a revised Board Charter, Committee Terms of Reference as well as related Board policies; and
- Developed and recommended to the Board a Board Work Plan.

Looking forward

The Committee is committed to driving the Corporate Governance Agenda of the Company and in this regard it shall continue to benchmark against best practice with a view to adopting best practices that will further the business objectives of the Company. In particular, the Committee will consider and draw up a road map for the implementation of accepted recommendations arising from the Governance Audit.

Mr Michael Joseph

Chairman - Corporate Governance and Nominations Committee

29 April 2019

Report of the Strategy & Business Development Committee

Current Membership

- | | |
|--|------------|
| • Mr. Jason Kap-Kirwok | - Chairman |
| • Dr. Kamau Thugge/Alternate | - Member |
| • Mr. Jozef Veenstra | - Member |
| • Ms. Caroline Armstrong | - Member |
| • Prof. Paul Maringa/Alternate | - Member |
| • Major General (Rtd) Michael Gichangi | - Member |

The Group Managing Director and Chief Financial Officer are invitees to the Committee's meetings.

Mandate

The purpose of the Strategy and Business Development Committee is to assist the Board in considering the various strategic options available to the Company and make recommendations to the Board regarding the development and implementation of the Company's strategic plans and appropriate commercial and operational activities in line with the Company's long-term strategy.

Summary of achievements during the year under review

During the period under review, the Committee held six meetings. The focus of its work was giving advice and guidance on the development and execution of the commercial strategy, including network and fleet development as well as new business development, operational efficiency and effectiveness. Some of these highlights are listed below:

- Provided guidance on system wide network review

STATEMENT OF CORPORATE GOVERNANCE (Continued)

process, incorporating Jambojet and Precision Air operations, with a view to optimising operations and profitable growth of market share;

- Reviewed and provided guidance on Kenya Airways' Digital Transformation Strategy to improve product offering and increase the Company's competitive edge;
- Reviewed and provided guidance on the updated 5-Year plan;
- Provided guidance on Corporate Key Performance indicators;
- Reviewed and provided guidance on new network destinations, including New York; and
- Reviewed and provided guidance on Kenya Airways' Cargo Strategy.

Looking forward

Globally, the airline industry in aggregate is expected to deliver strong growth in 2019, capping a decade of profitability. Whilst capital restructuring and a robust business turnaround strategy has provided Kenya Airways some 'breathing space', the journey to profitability will continue to be slow but steady.

Going forward, the Committee's work will focus on keeping the recovery on course through a range of strategic initiatives, including business diversification. Digital transformation and consolidation of cargo performance will be key, as well as ensuring the success of Project Simba. Operationally, the Committee will provide guidance on operational discipline in the execution of Commercial Strategy.

Mr. Jason Kap-Kirwok

Chairman - Strategy and Business Development Committee
29 April 2019

Report of the Human Resources Committee

Membership

- | | |
|---------------------------|----------|
| • Ms. Caroline Armstrong | - Chair |
| • Ms. Esther Koimett | - Member |
| • Mr. Jason Kap-Kirwok | - Member |
| • Mr. Martin Oduor-Otieno | - Member |
| • Mr. Sebastian Mikosz | - Member |

Mandate

The Human Resources Committee assists the Board in fulfilling its mandate with regard to the human capital and talent development of the Group. The overall scope is to ensure that the Group attracts and retains individuals who are qualified and productive by job related standards of education, training,

experience and personal attitude.

The Committee is empowered to:-

- Ensure the Company has in place and implements Human Resources strategic objectives;
- Continually review and formulate Human Resources management policies of the Company;
- Identify and implement best practices with regard to staff development and retention; and
- Review and propose an optimal organisational structure including staffing levels.

Achievements during the year under review

The year 2018 was a significant year for Kenya Airways Plc and there were substantial achievements under the Human Resource (HR) agenda, some of which are highlighted below:-

- The Company has been focusing on putting the right people in the right jobs and increasing productivity. To this end 93% of the workforce underwent training and the workforce expanded by 61 staff across the Group, a formidable achievement;
- We filled 74% of the required senior management roles including 4 Leadership team roles. Over 50% of the roles were filled by existing Kenya Airways employees in line with the Company's aim to promote from within as far as possible. The recruitments brought in more aviation sector experience to bolster existing capacity;
- 60% of the top 50 management team are women, a statistic never achieved before and rarely seen in the Kenyan context;
- Four new routes were opened in the year, one of them being New York. This saw Kenya Airways use two crews on a flight for the first time and the operations went smoothly;
- Various agreements were entered into with the unions, KALPA and KAWU, that enabled increased use of existing pilots, the crewing of New York and contract staffing;
- The Company won its appeal against the law suit filed by engineers who had gone on strike with the Court ruling against the engineers;
- A new ERP was implemented which will enable HR to automate more processes and thus drive efficiency; and
- All the achievements and the expansion of the workforce were achieved while staying within budget.

Looking forward

For the success of the Group, the Management and the Board will continue to focus on generating more efficiencies, especially regarding productivity. The aim is to grow the business while offering better opportunities to our staff and

STATEMENT OF CORPORATE GOVERNANCE (Continued)

improving the financial performance of the Group through the improved productivity of our people. The extent of our performance and success will be contributed to by our people and we look forward to positive engagements with our unions so that all parties work towards a common success. We will continue to manage our talent and develop them, while also recruiting the best people that we can when required.

The Committee remains focused on ensuring that the Group attracts and retains high performing, committed and motivated staff who show integrity with whom we can collectively deliver the Group's success and growth.

Ms. Caroline Armstrong

Chair - Human Resources Committee

29 April 2019

Internal Controls

The Board through the Audit and Risk Committee ensures that the Group has defined procedures for internal controls to ensure the integrity of the assets of the Airline and the reporting of complete and accurate financial information. These cover systems for obtaining authority for major transactions and for ensuring compliance with laws and regulations that have significant financial implications. Procedures are also in place to ensure that assets are subject to proper physical controls and that the organisation remains structured to ensure appropriate segregation of duties. In reviewing the effectiveness of the systems of internal control, the Board takes into account the results of all the work carried out by the Internal Audit team and reviews the activities of the Group. A comprehensive management accounting system is in place providing financial and operational performance measurement indicators. Weekly meetings are held by Executive Management to monitor performance and to agree on measures for improvement.

Management is constantly updating and activating any changes in legislation or regulations pertinent to the Company and liaises with the Kenya Civil Aviation Authority on such changes. They participate in workshops and lobby either individually or as an industry through the Air Operators Association and other bodies for changes which are considered prudent or likely to affect the Company.

Risk Governance

The Board has put in place an Enterprise Risk Management Framework. The Audit and Risk Committee is responsible for ensuring that both strategic and operational risks are identified and managed in accordance with the processes set out in the

Enterprise Risk Management Framework.

Internal audit

The Internal Audit function reports to the Board through the Audit and Risk Committee. Internal Audit is independent of both business management and of the activities it reviews. Internal Audit provides assurance that the design and operation of the Group's risk management and internal control system is effective. A risk-based audit approach is used to ensure that the annual audit Work Plan targets the higher risk activities in each business unit or function. All audits are conducted in a manner that conforms to international auditing standards.

External auditor relationship

The Audit and Risk Committee oversees the appointment and relationship with the external auditor including the requirement to ensure the independence of the external auditor.

Strategic planning process

The Board has adopted both a long term and short term strategic planning process. Management are guided in the planning process by the Strategy and Business Development Committee, which proposes to the Board the adoption of both the long term and short terms plans. In addition, the Board approves the annual business plan supported by an agreed budget. The plans take into account identified risks and opportunities. The Strategy and Business Development Committee is responsible for monitoring the implementation of approved plans.

Succession planning

The Board has approved a succession plan for senior management. The Human Resource Committee is responsible for ensuring that the succession plan is reviewed regularly and that the necessary interventions are in place to ensure that the Company is not exposed to the risks that come with gaps in organisational structure.

Compliance with laws and regulations and standards

The Board seeks to ensure compliance with applicable laws and regulations and receives regular reports on legal matters. The airline industry is highly regulated and the accountable manager is charged with the responsibility of ensuring with applicable laws, regulations, standards and protocols. While an external legal and compliance audit for the year under review was not carried out, to the best of its knowledge, the Board is not aware of any material departures from required compliance.

STATEMENT OF CORPORATE GOVERNANCE (Continued)

Directors emoluments and loans

The Board has put in place a Board Remuneration Policy and the aggregate amount of emoluments paid to Directors including benefits enjoyed for services rendered during the financial year 2018 are disclosed in the notes to the financial statements, and more particularly set out in the Director's Remuneration Report contained in this annual report on pages 51 - 53. The Shareholders approved the Board Remuneration Policy and Board remuneration at the Annual General Meeting held on 22 June 2018.

At no time during the year was there any arrangement to which the Company was a party, whereby Directors acquired benefits by means of transactions in the Company's shares outside applicable law.

Directors interests in the shares of the company as at 31 December 2018 was as follows:-

Directors' interests

NAME OF DIRECTOR	NUMBER OF SHARES
Cabinet Secretary to the National Treasury	2,847,844,811
Mr. Nicholas Bodo	1,050
Ms Carol Musyoka	6,675
Major General Michael Gichangi	2,025

Company Secretary

The Company Secretary of the Company is FCS Catherine Musakali, a member of the Institute for Certified Secretaries and is in good standing.

Information Technology (IT)

The Information Technology Strategy aims to bring excellence in technology to Kenya Airways by leveraging the power of modern digital & innovative solutions to drive new business paradigms.

A 'cloud-first' approach will ensure that all Technology Assets are adaptable and scalable. There is a renewed focus on Cyber-security to establish resilience. There is also a focus on improved integration to deliver flexibility and performance.

We aim to work with our service partners who will complement our capabilities and extend our capacity to deliver best-in-class IT services. Growing these partnerships will contribute to the local economy and promote the development of technology skills in Kenya.

Our Digital Transformation Program will create an experience that will delight our customers, enable operational excellence and drive value for our people, our business partners and our shareholders.

Procurement

The objective of the Kenya Airways procurement policy is to deliver the best possible value for money and spend optimisation for the Company's procurement requirements through the use of professional procurement practices aligned with the Company's corporate objectives.

The procurement policy is set out to provide uniformity, inclusivity, fairness, professionalism, honesty and transparency in the management of procurement activities within the context of Corporate Policies, with the key aim of obtaining value for money. The Policy aims at optimising supply chain efficiency, effectiveness and enhanced supplier relationships by designing supply frameworks, rationalising the supplier base, and developing long term strategic partnerships with competent, like minded suppliers. Integrity remains the gate to conducting business with Kenya Airways.

Stakeholder Management

The reputation of the Company is a key focus for the Board. The Communications & Public Affairs Department plays a key role in how the public (shareholders, customers, suppliers, investors and the general public), as well as staff, perceive Kenya Airways. The Department manages the organisation's reputation and ensures that the demands of the ever-changing business and regulatory environments are taken into consideration in decision-making. The Board is responsible for guiding the strategic direction for communication strategies across the Company and the department is responsible for implementing these.

An engagement strategy targeting key stakeholders including media and internal staff to improve the public's appreciation and to increase confidence in Kenya Airways has been developed. Underpinning this strategy is the building of internal capacity for content development, development of new, and alignment of existing digital communication solutions and processes, enabling greater control of Kenya Airways' reputation.

GOVERNANCE AUDIT OPINION

REPORT OF THE INDEPENDENT GOVERNANCE AUDITOR

The Board Responsibility

Board is responsible for planning, designing and maintaining governance structures, systems policies, practices and operations that support the practice of Good Governance in Kenya Airways PLC (the Company). This responsibility includes maintaining appropriate autonomy, authority and ethical leadership that promotes a culture of accountability, transparency, fairness and integrity. The Board also provides strategic direction, oversight, control and performance management, while ensuring implementation of policies for delivering long-term sustainability, compliance with applicable laws and regulations and remaining accountable to shareholders and relevant stakeholders.

The Board approved the revised Board Charter, Code of Conduct, and other Policy documents that provide a foundation for Good Corporate Governance aligned to the CMA Code of Corporate Governance Practices for Issuers of Securities to the Public, 2015, during its meeting held on 16th November 2018.

The Board then commissioned the Governance Audit to assess whether, at 31 December 2018, the Company's Corporate Governance Principles and Practices were consistent with the CMA Code.

Governance Auditor's Responsibility

Our responsibility is to express an opinion on the existence and effectiveness of Governance instruments, policies, structures, systems and practices in the Company within the legal and regulatory framework and in accordance with best Governance Practices as envisaged under the CMA's Code of Corporate Governance Practices for Issuers of Securities to the Public, 2015.

We conducted our audits in accordance with ICS Governance Audit Standards and Guidelines, which conform to global Standards. These Standards require that we plan and perform the Governance Audit to obtain reasonable assurance on the adequacy and effectiveness of the Company's policies, systems, practices and processes. The audit involved obtaining audit evidence on a sample basis. We believe that the Governance Audit provides a reasonable basis for our opinion.

Emphasis Of Matter

Through a Circular to the Shareholders issued on 16th July 2017, the Board Chairman described various Agreements entered into by the Company in connection with the Restructuring process. The Directors informed the Governance Auditor that the Agreements were confidential and therefore could not be availed

for review. The Directors also informed the Governance Auditor that the Agreements do not contain any restrictive covenants and conditionalities which could impact on the Board's ability to exercise independent judgement and act in the best interests of the Company, Shareholders and other Stakeholders

Opinion

In our opinion, except for emphasis of matter above which does not affect our overall opinion, the Board has put in place a sound governance framework to ensure compliance with the legal and regulatory framework and in line with best governance practices for the interest of stakeholders.

REPORT OF THE DIRECTORS

The Directors present their annual report together with the audited consolidated and company financial statements of Kenya Airways Plc ("Kenya Airways" or the "Company") and its subsidiaries (together, the "Group") for the year ended 31 December 2018, in accordance with Section 653(1) of the Kenyan Companies Act, 2015, which discloses the state of their financial affairs.

PRINCIPAL ACTIVITIES

The principal activities of the Group are international, regional and domestic carriage of passengers and cargo by air, the provision of ground handling services to other airlines and the handling of import and export cargo. The Group operates domestic and international flights and flies to 53 destinations in Africa, Middle East, Asia, Europe and North America.

As at 31 December 2018, the Group operated 40 aircraft, either owned or on operating leases. These comprised eight Boeing 787 wide body jets, ten Boeing 737 narrow body jets, fifteen Embraer regional jets, two Boeing 737 freighters; formerly passenger aircraft and five Bombardier Dash 8-400

RESTATEMENT OF PRIOR YEAR RESULTS

The Group's and Company's financial statements include a restatement of the statement of financial position as at 1 April 2017, statement of profit or loss and other comprehensive income and statement of financial position for the 9 month period ended 31 December 2017 to correct prior period errors on fleet accounting and loan reclassification, these are covered in note 40 of the financial statements.

RESULTS

The Group's and Company's net loss for the year ended 31 December 2018 is KShs 7,558 million and KShs 7,812 million (for the 9 month period ended 31 December 2017: KShs 6,418 million and KShs 6,639 million) respectively. These have been deducted from the respective accumulated loss. The Group's and Company's results for the year ended 31 December 2018 are set out on pages 63 and 64 respectively.

DIVIDENDS

The Directors do not recommend payment of dividends in respect of the current financial year (2017: nil).

DIRECTORS

The current Board of Directors who held office during the year and to the date of this report are as shown on page 2.

BUSINESS OVERVIEW

Our Values

Be the Pride of Africa, by inspiring our people and delighting our guests consistently.

Mission

To maximise stakeholder value by consistently:

- Providing highest levels of customer satisfaction;
- Upholding the highest level of safety and security; and
- Maximising employee satisfaction.
- Whilst being committed to corporate and social responsibility

Strategic Objective

Contributing to the sustainable development of Africa.

Summary

Kenya Airways (KQ) has continued its focus on the turnaround programme. The capital optimisation program is complete. Substantial management changes have been made with the objective of ensuring financial and operating sustainability. The Company has undertaken many actions including the following:

- Key focus on boosting revenue and improving the customer journey;
- Network expansion through introduction of new routes;
- Senior management changes; and
- Organisational changes.

Within the context of the actions highlighted above, The Board of Kenya Airways is announcing the results showing:

- A change in operating profit margin from a restated 1.1% in the 9-month period ended 31 December 2017 to a loss of 0.6% for the year ended 31st December 2018; and
- An improvement in the group net loss margin from a restated loss of 8.0% in the 9-month period ended 31 December 2017 to a loss of 6.6% in the year ended 31 December 2018.

The Group will continue to focus on improving operations and growing an efficient network. The capital restructuring provides a stable base for the long-term growth of our network, creating more city pairs in Africa and in the world as well as focusing on improved service quality and service delivery.

Turnaround program

During the year, the Executive continued the business turnaround programme. The programme has the following objectives:

- Return to profitability through revenue enhancement and cost optimisation; and
- Refocusing and resizing the business model and enhancing partnerships.

As a result, the Group and Company has been able to see the benefits of the turnaround strategy in the two areas targeted for improvement.

REPORT OF THE DIRECTORS (Continued)

The Group's and Company's operating loss for the year ended 31 December 2018 was KShs 683 million and KShs 906 million respectively. The Group's and Company's restated operating profit for the 9-month period ended 31 December 2017 stood at KShs 1,008 million and KShs 677 million.

The industry remains highly competitive as airlines continue to be weighed down by continuous pressure on yield, major currency fluctuations, volatile fuel prices and a changing commodity price environment.

Capacity and traffic

The year was marked with expansion into 4 new destinations namely, New York City, Mauritius, Libreville and Mogadishu as well as increased frequencies to some destinations. The Group's capacity measured in terms of Available Seat Kilometres (ASK) stood at 14,559 million (12 months) in 2018 and 10,596 million (9 months) in 2017. The uptake of this capacity measured in terms of Revenue Passenger Kilometres (RPK) closed at 11,293 million (12 months) in 2018 compared to 8,079 million (9 months) in 2017.

Turnover

The Group's and Company's turnover closed at KShs 114,185 million and KShs 107,820 million respectively for the year ended 31 December 2018 and KShs 80,799 million for the Group and KShs 77,264 million for the Company for the 9-month period ended 31 December 2017. The revenue was impacted positively by improved passenger numbers as well as improved yield.

Employee statistics

The tables below summarise the number and composition of employees in terms of gender:

i) Categorisation by employment contract

	2018	2017
Permanent	3,905	3,548
Contracted	858	1,028
Total	4,763	4,576

ii) Categorisation by gender

	2018		2017	
	Male	Female	Male	Female
Senior leadership	75%	25%	67%	33%
Head of Departments	64%	36%	68%	32%
Senior managers	82%	18%	81%	19%
Overall	80%	20%	62%	38%

Cargo and freighter

Cargo tonnage on both passenger belly and freighter aircraft stood at 64,238 tonnes for the year ended 31 December 2018 and 47,908 tonnes for the 9-month period ended 31 December 2017. The cargo business has been focusing on boosting the cargo product across the network and revenue maximization has improved the cargo performance for the year.

Direct operating and fleet costs

The total direct operating costs amounted to KShs 75,030 million for year ended 31 December 2018 at Group level and KShs 72,318 million at Company level. The 9-month period ended 31 December 2017 closed the Group level at KShs 51,719 million and the Company level at KShs. 49,913 million. Global fuel prices have been volatile throughout the year reaching a three year high in September 2018.

Fleet ownership costs at Group level amounted to KShs 18,929 million and KShs 17,616 million for the Company for the year ended 31 December 2018. The 9-month period ended 31 December 2017 amounted to KShs 12,535 million at Group level and KShs 12,150 million at Company level.

Overheads

The Group's and Company's overheads amounted to KShs 20,909 million and KShs 18,792 million respectively for the year ended 31 December 2018. The 9-month period ended 31 December 2017 amounted to KShs 15,537 million for the Group and KShs 14,524 million for the Company.

REPORT OF THE DIRECTORS (Continued)

Key Corporate risks and mitigating factors

The Group is exposed to risks in its business environment which affects the achievement of the objectives. To lessen the impact on the business, mitigating factors have been put in place. The

Group has an Enterprise Risk Management (ERM) process for identifying, evaluating and managing risks. The process also entails monitoring and reporting of risks to the Audit and Risk Management Committee.

The table below summarises the key risks faced by the Group and Company:

Risk		Description	Mitigating actions
1	Competition	Competitive operating environment as a result of action from other players (existing and new entrants)	• Continuous monitoring of action by competition; • Continuous development of our products and quality of services; • Leveraging on strategic partnerships with other industry players; and • Continuous development of the KQ brand.
2	Liquidity risk	Inability to service our financial obligations as and when they fall due	• Implementation of various initiatives to improve efficiency across the Group.
3	Safety and security risks	Occurrence of incidences that threaten the safety and security of our customers and employees or result into damage of assets	• Continuous safety and security risk assessment and prompt resolution of gaps identified; • Strict adherence to security policy and procedures; • Regular training on safety and security matters; and • Close collaboration with relevant security authorities.
4	Volatility in fuel prices	Fluctuations in the fuel prices driven by global crude oil prices	• Competitive sourcing of fuel suppliers; • Continuous monitoring of trends in global fuel prices; and • Fuel hedging arrangements.
5	Currency exposure	Inability to repatriate funds trapped in some of the markets that we operate in.	• Continuous monitoring of economic performance of our markets; • Ticket sales in hard currencies in risky markets; and • Continuous engagement with relevant government authorities in those markets.
6	Geopolitical risks	Possible negative impact on the operations as a result of political changes or instability affecting our markets.	• Continuous monitoring of political activities across different markets; • Wide network coverage and destinations; and • Close collaboration and engagement with relevant stakeholders and governments.
7	Litigation risk	Legal action arising from normal cause of business with third parties or employees	• Strict adherence to contractual terms; and • Involvement of internal and external legal counsel.
8	Regulatory	Failure to comply with various regulatory requirements thereby resulting into fines and penalties	• Continuous monitoring of changes in laws and regulations; and • Established mechanisms to ensure strict compliance and continuous monitoring of compliance.

REPORT OF THE DIRECTORS (Continued)

Key Corporate risks and mitigating factors (Continued)

	Risk	Description	Mitigating actions
9	IT and cyber security	Failure of IT infrastructure and external attacks to the IT environment	• Establishment of disaster recovery plans (DRPs) and business continuity plans (BCPs); and • Robust processes to safeguard against IT infrastructure threats.
10	Credit risk	Inability to recover debts from our customers in full	• Periodic review of the credit policy and strict enforcement of credit terms; and • Continuous monitoring of debtor performance and follow up. • Loss allowance provision in line with IFRS 9
11	Disruption in supply of essential goods and services	Possible disruption in the supply of essential goods and services	• Use of multiple vendors for essential supplies of goods and services; and • Rigorous vetting process for vendors.
12	Fraud	Misappropriation or misuse of assets belong to the Group by staff and external s takeholders	• Strict enforcement of the Code of Business Conduct; • Fraud awareness programs focusing of preventive measures; and • Whistle blowing mechanisms.

DIRECTORS' STATEMENT AS TO INFORMATION GIVEN TO AUDITORS

Each of the persons who is a Director at the date of approval of this report confirms that:

- so far as the Director is aware, there is no relevant audit information of which the Group's and Company's auditors are unaware; and
- the Director has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Group's and Company's auditors are aware of that information.

AUDITORS

Deloitte & Touche, having expressed their willingness, continue in office in accordance provisions of section 719 (2) of the Kenyan Companies Act, 2015. The Directors monitor the effectiveness, objectivity and independence of the auditor. The Directors also approve the annual audit engagement contract, which sets out the terms of the auditor's appointment and the related fees.

BY ORDER OF THE BOARD

Catherine Musakali
Secretary

DIRECTORS' REMUNERATION REPORT

INFORMATION NOT SUBJECT TO AUDIT

Chairman's statement

The Directors remuneration policy sets out the guidelines that the Group and Company have applied to remunerate its Executive and Non-Executive Directors. The Directors remuneration report has been prepared in accordance with the relevant provisions of the Capital Markets Authority (CMA) code of Corporate Governance and the requirements of the Kenyan Companies Act, 2015.

The Group's and Company's Corporate Governance and Nominations committee ("the committee") of the Board is responsible for overseeing and monitoring the Group's and Company's corporate governance policies, practices and guidelines.

The Committee is mandated to review the remuneration of the Directors to ensure that the same is competitive and aligned with the business strategy and long-term objectives of the Company.

During the period under review, no Director had entitlement to share options arrangements or other long term incentives.

The Directors' remuneration policy at a glance is set out below:

Executive Directors

The Executive Director is remunerated in accordance with the staff remuneration policy. His remuneration package comprises

a base salary, pension/gratuity and other benefits designed to recognise the skills and experience of an Executive Director.

Non-Executive Directors

In recognition of their contribution to the Company, Non-Executive Directors receive fees as well as sitting allowances for Board and Committee meetings. The fees are approved by Shareholders at Annual General Meetings and are payable on a monthly basis. The Non-Executive Directors are not covered by the Company's incentive programs and do not receive performance-based remuneration. No pension contributions are payable on their fees.

Travel and related expenses

The Company reimburses travel and accommodation expenses related to attendance of Board meetings for Non-Executive Board members who are not Kenyan residents. There is a travel policy for Non-Executive Directors.

Implementation report

During the year under review, there was no arrangement to which the Group and Company was a party where Directors acquired benefits by means of transactions in the Group's and Company's shares outside the applicable law. The Group has a strict insider trading policy to which the Directors and senior management must adhere to. There were no Directors' loans at any time during the year.

Directors' Contract of Service

The tenures of the Directors in office at the end of the current financial period are tabulated below:

Director	Start of Contract	End of Contract	Notice Period
Michael Joseph	2016	2019	N/A
Sebastian Mikosz	2017	2020	6 months
Jozef Veenstra	2017	2020	N/A
Jason Kap-Kirwok	2015	2019	N/A
Caroline Armstrong	2017	2020	N/A
Dr. Kamau Thugge	2013	2019	N/A
Prof. Paul Maringa	2017	2020	N/A
Carol Musyoka	2017	2021	N/A
Esther Koimett	2017	2021	N/A
Martin Odour-Otieno	2017	2021	N/A
Major General Michael Gichangi	2017	2020	N/A
Nicholas Bodo	2017	2020	N/A
Festus King'ori	2014	2019	N/A

At the previous annual general meeting (AGM) shareholders voted for the adoption of the Directors remuneration through proposal and secondment on the floor of the AGM.

The remuneration of all Directors is subject to regular review to ensure that levels of remuneration and compensation are appropriate.

DIRECTORS' REMUNERATION REPORT (Continued)

INFORMATION SUBJECT TO AUDIT

The remuneration paid to Directors in the period under review and the prior year is summarised in the table below:

31 December 2018 (12 months)

Director	Salary KShs 000	Allowances KShs 000	Fees KShs 000	Value of non cash benefits KShs 000	Total KShs 000
Michael Joseph	-	-	18,000	-	18,000

*After his resignation as a Director on 1 June 2017, the Board retained Mbuvi Ngunze as a consultant on the capital restructuring program that was ongoing. The remuneration in the 9 month period ended 31 December 2017 in his capacity as a consultant was KShs 23,119,000.

Catherine Musakali
Company Secretary

Nairobi

29 April 2019

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Kenyan Companies Act, 2015 requires the Directors to prepare financial statements for each financial year that give a true and fair view of the financial position of the Group and of Company as at the end of the financial year and of their profit or loss for that year. It also requires the Directors to ensure that the Group and Company maintain proper accounting records that are sufficient to show and explain the transactions of the Group and of Company and disclose, with reasonable accuracy, their financial position. The Directors are also responsible for safeguarding the assets of the Group and the Company, and for taking reasonable steps for the prevention and detection of fraud and error.

The Directors accept responsibility for the preparation and presentation of these financial statements in accordance with the International Financial Reporting Standards and in the manner required by the Kenyan Companies Act. They also accept responsibility for:

- (i) designing, implementing and maintaining such internal

- control as they determine necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error;
- (ii) selecting suitable accounting policies and applying them consistently; and
- (iii) making accounting estimates and judgments that are reasonable in the circumstances.

The Directors are aware of the negative working capital position and the recurring losses as disclosed in note 2(e) to the financial statements. The Directors acknowledge that the continued existence of the Group and the Company as going concerns depends on the measures that the Directors will put in place to return the Group and Company to profitable operations as disclosed in note 2(e). The Directors are therefore of the view that the Group and Company will remain a going concern for at least the next twelve months from the date of this report.

The Directors acknowledge that the independent audit of the financial statements does not relieve them of their responsibilities.

Michael Joseph
Chairman

Sebastian Mikosz
Managing Director

29 April 2019

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC

OPINION

Report on the audit of the consolidated and company financial statements

We have audited the consolidated and company financial statements of Kenya Airways Plc, ("the Company") and its subsidiaries (together "the Group"), set out on pages 63 to 149, which comprise the consolidated and company statements of financial position as at 31 December 2018, and the consolidated and company statements of profit or loss and other comprehensive income, consolidated and company statements of changes in equity and consolidated and company statements of cash flows for the year then ended, and notes, including a summary of significant accounting policies.

In our opinion, the consolidated and company financial statements give a true and fair view of the consolidated and company financial position of Kenya Airways Plc as at 31 December 2018, and its consolidated and company financial performance and consolidated and company cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") and the requirements of the Kenyan Companies Act, 2015.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the consolidated and company financial statements section of our report. We are independent of the Group and Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Kenya, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw your attention to note 2(e) in the financial statements, which indicates that the Group and Company incurred a loss of KShs 7,558 million for the year (for the 9 month period ended 31 December 2017: KShs 6,418 million) and KShs 7,812 (31 December 2017: KShs 6,639 million) respectively during the year ended 31 December 2018 and, as of that date, the Group's and

Company's current liabilities exceeded current assets by KShs 101,536 million (2017: KShs 106,422 million) and KShs 104,803 million (2017: KShs 109,066 million) respectively. As stated in note 2(e), these events or conditions, along with other matters as set forth therein, indicate that a material uncertainty exists that may cast significant doubt on the Group's and Company's ability to continue as going concerns.

Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC (Continued)

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
Revenue recognition The Group's and Company's passenger revenue amounted to KShs 95,187 million and KShs 90,924 million for the year period ended 31 December 2018 as disclosed in note 7(a) to the financial statements. Passenger tickets sales net of discounts and taxes are initially recorded as current liabilities in the "Sales in Advance of Carriage" account and recognised as revenue when the ticket is flown or expires. The Group's and Company's value of unflown tickets in relation to passenger revenue as at 31 December 2018 amounted to KShs 17,382 million and KShs 17,243 million respectively as disclosed in note 31 to the financial statements. Revenue determination and recording relies on complex IT systems in determination of the point of service delivery for flown tickets and the fair value of the services. Additionally, the assessment of the value of expired unutilised tickets to be written back to revenue uses estimates regarding the timing of recognition based on terms and conditions of the ticket and historical trends. Due to the complexity of the IT systems involved in the revenue determination and recognition and the judgement required for the estimation of the unutilised and expired tickets, revenue recognition is considered a key audit matter. For the revenue accounting policy, refer to note 3(c) and for the process used to estimate the write back to revenue refer to note 4(a)(iv).	Our audit procedures to address the risk of material misstatement relating to revenue recognition included: - Assessing the Group's revenue recognition policy against the relevant International Financial Reporting Standards and the impact of the newly adopted standard, <i>IFRS 15: Revenue from Contracts with Customers</i>; - Testing the design, implementation and operating effectiveness of controls over the ticketing and revenue accounting systems; - We matched all the flown tickets to the lift files; - Re-computing a sample of the total passenger revenue and total sales in advance of carriage; - Performing a reconciliation between the total tickets sold, the total revenue recognised i.e. the total uplifts in the year, the expired tickets recognised in revenue and the sales in advance of carriage i.e. the unutilised tickets; - Evaluating the reasonability of management's policy for recognising the expired tickets against the terms and conditions of the tickets sold; - Re-computing the write back of expired tickets in the year based on management's policy; and - Inspecting manual journals posted to the revenue account for validity. Based on procedures performed, we concluded that the revenue recognition criteria of the Group were in line with the applicable International Financial Reporting Standards. In addition, the disclosures pertaining to revenue were found to be appropriate in the financial statements.
Valuation of foreign currency hedging reserve The Group and Company has hedged its foreign currency risk in relation to its forecasted US dollar denominated future revenue streams. The cash flow hedge is accounted for at fair value and gains and losses arising from fair value changes are deferred in equity if the hedge is considered effective and recognised in the statement of profit or loss when hedges are considered ineffective. As at 31 December 2018, the cash flow hedge reserve balance for the Group and Company amounted to KShs 10,861 million as reflected in the statements of changes in equity on pages 67 and 68. The valuation of the cash flow hedge reserve has been identified as a key audit matter due to the significant management assumptions underlying the determination of the effectiveness of the hedge. Refer to note 3(j) for the accounting policy on cash flow hedges.	We evaluated the methodology and key assumptions adopted by the Directors in testing the hedge effectiveness and determining the fair value of the cash flow hedge by: - Testing the design and implementation of controls around the management reviews of the cash flow hedge effectiveness assessment; - Reviewing the computations to test the accuracy and completeness of the inputs into the cash flow hedge computation; - Re-computing the period end valuation of the cash flow hedge reserve and checking the reasonableness of exchange rates used; - Evaluating the reasonability of the future USD revenue forecasts from sale of passenger tickets; - Engaging our in-house IFRS expert in reviewing the hedge instrument and verifying whether it meets the criteria for hedge accounting as per provisions of <i>IFRS 9: Financial Instruments</i>; and - Re-performing the hedge effectiveness testing and verifying whether it meets the provisions IFRS 9: <i>Financial Instruments</i>. Based on audit procedures completed, we concluded that the cash flow hedge and hedge effectiveness assessments meet the requirements of IFRS 9: Financial Instruments. The period end valuation of the hedge and accompanying disclosures were also found to be appropriate.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC (Continued)

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
Impairment of aircraft and related equipment As disclosed in note 15 of the consolidated and company financial statements as at 31 December 2018, the Group's and Company's aircraft and related equipment amounted to KShs 90,044 million and KShs 89,965 million as at 31 December 2018 respectively; constitutes 66% and 60% of the total assets of the Group and the Company respectively. As required by <i>IAS 36: Impairment of assets</i>, the Directors conduct annual impairment tests to assess the recoverability of the carrying value of its aircraft and related equipment. This is performed using discounted cash flow models. The determination of impairment is based on the Directors' assumptions and significant judgement and thus may be subject to bias. The key assumptions include passenger revenue and cost growth, fuel recovery and the discount rate. Accordingly, impairment of aircraft and related equipment is considered as a key audit matter. Further details on the process used to assess the indicators of impairment in aircraft and related equipment are set out in note 4(a)(i).	Our procedures to address the risk relating to impairment of aircrafts and related equipment included: • Evaluating the design and implementation of controls over the assessment of aircraft impairment, in particular around the review of assumptions and outputs; • Assessing whether there are any indicators of impairment of the aircrafts as per the requirements of <i>IAS 36: Impairment of assets</i>; • Engaging our in-house fair value specialist in reviewing and re-computing the discount rate used in the model; • Assessing and challenging the impairment model used including the identification of the cash-generating units; • Analysing and challenging the Directors' key assumptions used in the model specifically the passenger revenue and cost growth, fuel recovery and the discount rate; • Analysing the projected cash flows by assessing the key assumptions against historical performance to test the reasonableness of the Directors' assumption; • Subjecting the key assumptions to sensitivity analysis; and • Testing the integrity and mathematical accuracy of the impairment model and agreeing relevant input data to externally derived data (where applicable) as well as forming our own assessment. Based on procedures completed, we concluded that the assumptions used by the Directors in assessment of impairment were appropriate and had been applied. In addition, the disclosures pertaining to the impairment of aircraft and related equipment were found to be appropriate in the financial statements.
Loan classification The Group and Company has facilities with African Export-Import Bank, Citibank N.A and JP Morgan N.A for the purchase of aircraft and funding of pre-delivery deposits for aircraft. The facilities contain some financial covenants, which are monitored against the annual audited financial statements. The Group and Company had an outstanding balance of KShs 77,776 million as at 31 December 2018. The Group and Company did not comply with the unrestricted cash to revenue ratio as at that date. The determination as to whether the Group's and Company's non-compliance with the loan covenants constituted a breach as per the provisions of <i>IAS 1: Presentation of Financial Statements</i>. Loan classification is considered a key audit matter due to the extensive discussions with management and those charged with governance at various stages throughout the audit about its impact on the going concern and the related liquidity ratios on the financial statements.	Our procedures to address the risk relating of loan classification included: • Reviewing the loan agreements so as to gain an understanding of the financial covenants; • Reviewing the computations of the ratios to test the accuracy and completeness of the inputs included in the financial ratios computation are as per the loan agreements; and • Engaging our technical team in reviewing the loan agreements and verifying whether the non-compliance meets the criteria for breach as per provisions of <i>IAS 1: Presentation of Financial Statements</i>. Based on procedures completed, we concluded that the loan classification in previous periods was erroneous as the Group and Company did not have an unconditional right to defer payment for the next 12 months as per provisions of <i>IAS 1: Presentation of Financial Statements</i>. Consequently the prior year financial statements have been restated as disclosed in note 40. For the year ended 31 December 2018, the disclosures pertaining to the loan classification were appropriate in the financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC (Continued)

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
Fleet accounting of prepaid maintenance asset and return condition provisions The Group and Company operated 25 and 20 aircraft respectively under operating lease arrangements as at 31 December 2018. Under the terms of the operating lease arrangements with the lessors, the Group and Company is contractually committed to return the aircraft and engines in a certain condition at the date of return. Accordingly, the Group and Company have recognised a return condition provision amounting to KShs 4,175 million (2017 - restated: KShs 4,650 million) and KShs 3,423 million (2017 - restated: KShs 3,898 million) respectively as at 31 December 2018 as disclosed under note 30. In addition, the lease agreements require the Group and Company to make payments towards the maintenance of the aircraft. The lessors are contractually obligated to reimburse the Group and Company for the qualifying maintenance expenditure incurred on the aircraft if the Group and Company has a maintenance reserve credit. As at 31 December 2018, the Group and Company had a prepaid maintenance asset of KShs 3,398 million (2017 - restated: KShs 4,125 million) and KShs 3,018 million (2017 - restated: KShs 4,043 million) respectively as disclosed under note 20. The return condition provision requires the Directors to determine whether there is an unavoidable contractual obligation at the end of each reporting period and this is calculated taking into account the number of hours or cycles operated, the expected future cost of future maintenance and the discount rate to use. It is based on the Group's and Company's historical experience and contractual obligations in determining the present value of the estimated future costs of major airframe inspections and engine overhauls required under the lease conditions. There were extensive discussions with management and those charged with governance at various stages throughout the audit on the accounting treatment of the prepaid maintenance asset and return condition provision. Accordingly, fleet accounting of prepaid maintenance asset and return condition provision is considered as a key audit matter. Further details on the process used to estimate the return condition provision are set out in note 4(a)(viii).	Our procedures to address the risk relating to fleet accounting of prepaid maintenance asset and return condition provisions included: • Reviewing the lease agreements so as to gain an understanding of the significant terms which influence the economics of, and hence accounting for, the Group's and Company's obligations; • Testing the completeness of the provision by ensuring that all significant return condition obligations included in aircraft operating lease contracts were included in the calculation; • We assessed Directors' assumptions as to the expected future cost of maintenance by corroborating the estimate of the cost of maintenance work to third party price lists and quotes, or to historic invoices; • For the maintenance reserve, we obtained confirmations from the lessors of the maintenance reserve payments held at the end of the reporting period; and • We assessed recoverability of the balance from the lessors by considering the expected future maintenance cost against which the Group and Company could claim. Based on procedures completed, we concluded that the Group and Company had erroneously accounted for its prepaid maintenance asset as an expense in prior years and had previously not assessed the return condition provision for the aircrafts under operating lease arrangements. Consequently, the financial statements for the 9 month period ended 31 December 2017 have been restated as disclosed in note 40. As at 31 December 2018, the assumptions used by the Directors in assessment of the return condition provision and recoverability of the prepaid maintenance asset were appropriate and had been accurately applied. In addition, the disclosures pertaining to the return condition provision and the prepaid maintenance asset found to be appropriate in the financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC (Continued)

Other information

The Directors are responsible for the other information. The other information comprises Statement of Corporate Governance, Report of the Directors, Directors' remuneration report and the schedule of Principal Shareholders and Share Distribution which were obtained prior to the date of this auditor's report. The other information does not include the consolidated and company financial statements and our auditors' report thereon.

Our opinion on the consolidated and company financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and company financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated and company financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the consolidated and company financial statements

The Directors are responsible for the preparation and fair presentation of the consolidated and company financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Kenyan Companies Act, 2015, and for such internal control as the Directors determine are necessary to enable the preparation of consolidated and company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and company financial statements, the Directors are responsible for assessing the group's and the company's ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company and its subsidiaries or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated and company financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated and company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise

from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and company financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors;
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and/or the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated and company financial statements, including the disclosures, and whether the consolidated and company financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KENYA AIRWAYS PLC (Continued)

We communicate with the Board Audit and Risk Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board Audit and Risk Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board Audit and Risk Committee, we determine those matters that were of most significance in the audit of the consolidated and company financial statements of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other matters prescribed by the Kenya Companies Act, 2015

Report of the Directors

In our opinion the information given in the Report of the Directors on pages 47 to 50 is consistent with the financial statements.

Directors' Remuneration Report

In our opinion the auditable part of the Director's Remuneration Report presented on pages 51 to 53 has been prepared in accordance with the Kenyan Companies Act, 2015.

FROM AFRICA

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 31 DECEMBER 2018

1. REPORTING ENTITY

Kenya Airways Plc ("the Company") is a limited liability company incorporated in Kenya under the Kenyan Companies Act and is domiciled in Kenya. The annual financial statements comprise the consolidated and company financial statements. The subsidiaries in the group are namely Kenya Airfreight Handling Limited, Kencargo Airlines International Limited, JamboJet Limited, African Cargo Handling Limited and Pride oil Limited (together referred to as the "Group" and individually as "Group Companies").

In the year 2017, the Directors resolved to change the Company's year-end to align with the IATA reporting calendar and majority of its Sky Team partners. The amounts presented in the consolidated and company statements of profit or loss and other comprehensive income and consolidated and company statement of cash flows for the year 2018 covered twelve (12) months whilst 2017 covered nine (9) months and therefore not entirely comparable.

The Group is primarily involved in international, regional and domestic carriage of passengers and cargo by air, the provision of ground handling services to other airlines and the handling of import and export cargo. The address of its registered office is as shown on page 2. The Company's shares are listed on the Nairobi Securities Exchange, Dar es Salaam Stock Exchange and the Uganda Securities Exchange.

2. BASIS OF PREPARATION

(a) Basis of Accounting

The consolidated and company financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and in the manner required by the Kenya Companies Act, 2015.

For Kenyan Companies Act, 2015 reporting purposes in these financial statements, the balance sheet is represented by the statement of financial position and the profit and loss account is presented within the statement of profit or loss and other comprehensive income.

A summary of significant accounting policies is presented in note 3.

(b) Basis of measurement

The consolidated and company financial statements have been prepared on the historical cost basis of accounting except for Land and buildings which are measured at revalued amounts, derivative financial instruments which are measured at fair value and non-current assets held for sale that are measured at the lower of carrying amount and fair value less costs to sell.

(c) Functional and presentation currency

These consolidated and company financial statements are presented in Kenya shillings (KShs), which is also the Group's and Company's functional currency. Except as otherwise indicated, financial information presented in KShs has been rounded to the nearest million shilling (KShs million).

(d) Use of estimates and judgements

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions are based on the Directors' best knowledge of current events, actions, historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. In particular, information about significant areas of estimation and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in note 4.

(e) Going concern

The Group and Company incurred a net loss after tax of KShs 7,558 million and KShs 7,812 million respectively during the year ended 31 December 2018 (for the nine month period ended 31 December 2017: KShs 6,418 million and KShs 6,639 million respectively) and, as of that date, the Group's and Company's current liabilities exceeded their current assets by KShs 101,536 million and KShs 104,803 million respectively (31 December 2017: KShs 106,422 million and KShs 109,066 million respectively). In addition, as at 31 December 2018, the Group's and Company's total liabilities exceeded its total assets by KShs 2,489 million and 5,802 million respectively (31 December 2017: the Group's and Company's total assets exceeded their total liabilities by KShs 4,857 million and KShs 1,789 million respectively). This indicates the existence of a material uncertainty which

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. BASIS OF PREPARATION (Continued)

(e) Going concern (Continued)

may cast significant doubt on the Group and Company's ability to continue as a going concern, and therefore may be unable to realize its assets and discharge its liabilities in the normal course of business.

As reported last year, the Group and Company have continued with the turnaround plan after the restructuring process. The Group and Company have strategic initiatives in place with focus on:

- a) Network optimisation through growth and increased partnerships;
- b) Opening new routes with focus on high yield routes;
- c) Operational excellence aimed at cost efficiency and improved service delivery;
- d) Grow Capacity;
- e) Improved customer experience with a view to grow market share;
- f) Change of business model and use of technology to drive growth; and
- g) Grow scale in non-passenger related revenues.

The actions under these initiatives are already bearing fruit with a slight improvement in the performance of the Group.

The Directors believe the plans enumerated above will improve the Group and Company's performance, cash flows and liquidity position. The key shareholders have been and continue to be appraised of and involved in the process of the required long-term support and turnaround plan.

As part of the balance sheet restructuring, the Government of Kenya (GoK) issued guarantees in the aggregate amount of USD 750 million in favour of Exim Bank and a consortium of Kenyan banks in relation to certain obligations of the Group and Company to Exim Bank and the consortium of Kenyan Banks. In addition, in 2017, the consortium of Kenya banks advanced the Company a facility of USD 100 million. As at 31 December 2018, the Company had only utilised USD 42 million as disclosed on note 27(b).

The GoK further committed through a letter of support to continue providing the required support to the Company to enable it to implement its turnaround program and meet its financial obligations as and when they fall due, at least for the next 12 months from the approval of the financial statements for the year ended 31 December 2018.

The Directors have also reviewed the current trading and cash flow projections as part of their assessment, and after making enquiries and carefully considering the initiatives above, have a reasonable expectation that the Group and Company have adequate resources to continue in operational existence for the foreseeable future. Accordingly, the Directors have prepared the consolidated and company financial statements on

a going concern basis since they are confident that the plans described above provide a reasonable expectation that the Group and Company will be able to meet their liabilities as and when they fall due.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated and company financial statements have been applied consistently to all periods presented in these financial statements except for IFRS 9 and 15 that have been adopted in the current year.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

(ii) Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in the subsidiary that does not result in loss of control are accounted for as equity transactions.

(iii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in that investee. Unrealised losses are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(b) Transactions in foreign currencies

Transactions in foreign currencies during the year are converted into the respective functional currencies of Group companies at rates prevailing at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rates ruling at the reporting date. The resulting differences from conversion are recognised in profit or loss in the year in which they arise.

Non-monetary assets and liabilities denominated in foreign currencies that are measured based on historical cost are translated at the exchange rate ruling at the transaction date.

However, foreign currency differences arising from the translation of qualifying cash flow hedges (USD Borrowings) are recognised in other comprehensive income to the extent that the hedge is effective.

(c) Revenue recognition

Revenue represents the fair value of the consideration received or receivable for sale of goods and services and is stated net of value added tax (VAT), rebates and discounts.

The Group recognises revenue from the following major sources:

- providing international, regional and domestic carriage of passengers by air;
- providing international, regional and domestic carriage of freight and mail by air; and
- providing handling services to other airlines and the handling of import and export cargo.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a service to a customer.

The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as a principal in all its revenue arrangements except for passenger interline, sales on board and sale of holiday packages where the Group acts as an agent. The specific recognition criteria described below must also be met before revenue is recognised.

Passenger, freight and mail

Revenues from passenger ticket sales, including

non-distinct ancillary fees and revenue from cargo airway bills, net of discounts, are recognised as traffic revenue when rights and obligations of the service has been transferred to the customer being at the point when the air transport has been carried out. The value of the tickets sold and still valid but not used by the end of the reporting period is reported as unearned revenue in the Sales in Advance of Carriage account. This item is reduced either when Kenya Airways or another airline completes the transportation or when the passenger requests for a refund. Unutilised tickets are recognised as revenue using estimates regarding the timing of recognition based on historical trends. Past experience shows that there is insignificant liability attributable to unutilised tickets older than two years.

Handling services

Sale of handling and ramp services is recognised when rights and obligations of the service has been transferred to the customer. That is being at the point in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a percentage of the total services to be provided.

Lease rental income

Revenue from lease rental income is recognized when rights and obligations of the asset is transferred to the customer, that is being at the point in which the asset is utilised by the lessee

Other Revenue

Engineering services

The Group uses the "percentage of completion method" to determine the appropriate amount of revenue and cost relating to third-party maintenance contracts to be recognised in the statement of profit or loss in each period, when the outcome can be estimated reliably. When the outcome of a maintenance contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract cost incurred that are likely to be recoverable.

Training services

Revenue from training services are recognised when rights and obligations of the service is transferred to the customer based on level of completion of the service while advance payments are recognised as contract liabilities.

Interest income

Income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(d) Frequent flyer programmes

Kenya Airways Plc is currently hosted on Air France KLM frequent flyer programme called Flying Blue. Under the Flying Blue Programme, members earn miles by using bot airline and non-airline partners. Kenya Airways is invoiced by Air France/ KLM and is required to pay for the miles that are earned on the programme. Accumulated miles can be used by members to get a variety of awards ranging from free tickets to flight upgrades. Kenya Airways Plc earns revenue as miles are redeemed on its services.

(e) Property, aircrafts and equipment

(i) Recognition, measurement and subsequent expenditure

Land and buildings are initially measured at cost and then are subsequently measured at the fair value on the date of revaluation less subsequent accumulated depreciation and accumulated impairment losses.

Other categories of property, aircrafts and equipment are included in the financial statements at their historical cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset.

The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for their intended use, the cost of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

The cost of replacing part of an item of property or aircraft or equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of day-to-day servicing of property, aircraft and equipment are recognised in profit or loss.

Gains and losses on disposal of property, aircrafts and equipment are determined by comparing the proceeds of disposal with the carrying amount of the item of property, aircrafts and equipment and are recognised in profit or loss in the year in which they arise.

(ii) Depreciation

Depreciation is calculated on the straight-line basis to allocate the cost or revalued amounts to their residual values over the estimated useful lives of the property, aircrafts and equipment. The depreciation rates for the current and comparative year are as follows:

Aircraft and related equipment:	%
Boeing 787, 777, 737-300 & 737-700	5.56
Embraer E190	5.56
Simulator	5.00

Other property and equipment: %

Ground service equipment	25.00
Motor vehicles	25.00
Communication assets	12.50
Other assets	20.00 - 30.00
Buildings	2.50
Leasehold land	Over the period of the lease
Freehold land	Not depreciated

The depreciation methods, useful lives and residual values are reviewed and adjusted if appropriate, at each reporting date.

(iii) Revaluation

Land and buildings are revalued every three years. The carrying amounts are adjusted to the revaluations and the resulting increase, net of deferred tax, is recognised in other comprehensive income and presented in the revaluation reserve within equity.

Revaluation decreases that offset previous increases of the same asset are charged or recognised in other comprehensive income with all other decreases being charged to profit or loss.

Revaluation surpluses are not distributable.

Depreciation on revalued land and buildings is recognised in profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the revaluation reserve is transferred directly to retained earnings.

(iv) Non-depreciable items

These are items that have not yet been brought to the location and/or condition necessary for it to be capable of operating in the manner intended by management. In the event of partially completed construction work that has necessitated advance or progress payments, or work-in-progress, depreciation will only commence when the work is complete. Property, aircrafts and equipment are classified as work-in-progress if it is probable that future economic benefits will flow to the Group and the cost

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(e) Property, aircrafts and equipment (Continued)

(iv) Non-depreciable items (Continued)

Amounts held within work in progress that are substantially complete, in common with other fixed assets, are assessed for impairment.

(f) Assets held for sale

Non-current assets or disposal groups comprising assets and liabilities are classified as held-for-sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets or disposal groups are generally measured at the lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal group is allocated to the remaining assets and liabilities on a pro-rata basis, except that no loss is allocated to inventories, financial assets and deferred tax assets which continue to be measured in accordance with the Group's and Company's other accounting policies. Impairment losses on re-measurement are recognised in profit or loss.

Once classified as held for sale, intangible assets, property and equipment are no longer depreciated and any equity accounted investee is no longer equity accounted.

(g) Intangible assets - Capitalised software

The costs incurred to acquire and bring to use specific computer software licences are capitalised. Software acquired by the Group is stated at cost less accumulated amortisation and accumulated impairment losses.

Expenditure on internally developed software is recognised as an asset when the Group is able to demonstrate its intention and ability to complete the development and use the software in a manner that will generate future economic benefits and can reliably measure the cost to complete the development. Internally developed software is stated at cost less accumulated amortisation and accumulated impairment losses.

Subsequent expenditure on software is capitalised only if the definition of an intangible asset and the recognition criteria are met. All other expenditure is expensed as incurred.

The costs are amortised on the straight line basis over the expected useful lives, from the date the software is available for use. Software is amortised for a period not more than five years. Amortisation methods, useful lives and residual values are reviewed and adjusted if appropriate, at each reporting date.

(h) Intangible assets - Landing slot

Landing slots are measured initially at cost. No amortisation charge is recognised for landing slots as their useful lives are considered to be indefinite. Following initial recognition, landing slots are measured at cost less accumulated impairment losses, if any. Capitalised landing rights based within the European Union (EU) are not amortised, as regulations provide that these landing rights are perpetual.

(i) Leased assets

(i) Finance lease

Leases of property, aircrafts and equipment, where the Group assumes substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at cost. Each lease payment is allocated between the liability and finance charges. The interest element is charged to profit or loss over the lease period and is included under finance costs. Such property, aircrafts and equipment is depreciated over its useful life.

(ii) Operating lease

Leases of assets under which a significant portion of the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on the straight-line basis over the period of the lease.

(iii) Onerous lease

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

(iv) Return conditions provision

Return condition provisions represents the estimate of the cost to meet the contractual lease end obligations on certain aircraft and engines held under operating leases. The present value of the expected cost is recognised over the lease term considering the existing fleet plan and long-term maintenance schedules.

(v) Prepaid maintenance asset

Prepaid maintenance asset are payments made in

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(v) *Prepaid maintenance asset (Continued)*

advance to lessors in terms of the aircraft lease contract for maintenance of the aircraft. The lessors are contractually obligated to reimburse the lessees for the qualifying maintenance expenditure incurred on the aircraft if the lessee has a maintenance reserve credit. At the beginning of the lease period, the Group and Company needs to determine how much of the maintenance reserve payments is recoverable and how much relates to supplemental rent. The supplemental rent will then be expensed as part of the normal lease payments as per the provision of IAS 17: Leases. The prepaid maintenance asset is assessed annually for recoverability against the Group's ability to claim against future maintenance events. Where it is deemed that the entity will be unable to claim for a future maintenance event, the maintenance reserve prepayments are treated as supplemental rent and expensed accordingly.

(j) *Derivative financial instruments and hedge accounting*

The Group and Company holds derivative financial instruments to hedge its foreign currency and fuel price risk exposures. Derivatives are initially recognised at fair value; any directly attributable transaction costs are recognised in profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The Group designates:

- Specific derivatives to hedge fuel price risks; and
- Non-derivative financial liabilities to hedge foreign currency risk in a cash flow hedge relationship.

On initial designation, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in fair values or cash flows of the hedged item. Movements in the hedging reserve in equity are detailed in the other comprehensive income.

All hedging activities are carried out in accordance with the Group's internal risk management policies, as approved by the Board of Directors, and in accordance with the applicable regulations where the Group operates.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of the changes in fair value of the derivative is recognised in other comprehensive income and accumulated in the hedging reserve. Any ineffective portion of the changes in fair value of the derivative is recognised immediately in profit or loss.

The amount accumulated in equity is retained in other comprehensive income and reclassified to profit or loss in the same period as periods during which the hedged item affects the profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires, is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. Any cumulative gain or loss previously recognised in other comprehensive income remains separately in equity until the forecast transaction occurs. If the forecast transaction is no longer expected to occur, then the amount accumulated in equity is reclassified to profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or excised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the amount accumulated in equity is reclassified to profit or loss.

(k) *Aircraft purchase*

(l) *Aircraft subsidy*

The Group receives credits from manufacturers in connection with the acquisition of certain aircraft engines. These credits are offset against the cost of new aircraft where the credit is in effect a discount on the price.

(ii) *Deferred income*

Credits relating to delays in delivery are deferred and recognised in profit or loss on delivery of the aircraft.

(iii) *Deferred expenditure*

The Group amortises cost of obtaining aircraft financing over the loan repayment period. The deferred expenditure is capitalised to the related borrowing (see note 27(h)).

(iv) *Aircraft deposits*

The Group makes deposits to manufacturers/lessors in relation to acquisition of aircraft. Some of these deposits earn a nominal interest annually. The Group amortises discounts arising from the difference between the maturity value of the deposits and their fair value based on amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(l) Employee benefits

(i) Short term employee benefits

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay the amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

(iii) Leave accrual

The monetary value of the unutilised leave by staff as at year end is carried in accruals as a payable and movements in the year are recognised in profit or loss.

(iv) Employee Share Ownership Scheme (ESOP)

The Group operates an ESOP that was set up during the Initial Public Offering in 1996. The scheme is inactive and currently holds 496,625 shares (2017: 496,625 shares). As part of the 2017 capital restructuring, a new ESOP scheme was created and the trustee allocated 142,164,558 ordinary shares which had not been issued to staff at the close of the year.

(v) Defined contribution plan

The employees of the Group participate in a defined contribution retirement benefit scheme. The assets of the scheme are held in a separate trustee administered fund, which is funded by contributions from both the Group and employees. The Group and all its employees also contribute to the National Social Security Fund, which is a defined contribution scheme. The Group's contributions to defined contribution schemes are charged to profit or loss in the year to which they relate. The Group has no further obligation once the contributions have been paid.

(vi) Staff gratuity

The Group has a gratuity arrangement for certain staff who are not covered by the defined contribution plan. Entitled staff are eligible for gratuity upon retirement/leaving the Group based on their contracts.

(m) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current taxation

The tax currently payable is based on taxable profit for the period. Taxable profit differs from profit as reported in the statement of profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's and the Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred taxation

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amounts of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

(n) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost comprises expenditure incurred in the normal course of the business including direct material costs and other overheads incurred to bring the asset to the existing location and condition. Cost of issues is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of disposal. An allowance is made for obsolete, slow moving and defective inventories.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(o) Cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents comprises cash in hand, bank balances and short term deposits net of bank overdrafts.

(p) Share capital

Ordinary shares are classified as 'share capital' in equity. Any premium received over and above the par value of the shares is classified as 'share premium' in equity.

Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction.

(q) Compound instruments

The component parts of compound instruments (convertible notes) issued by the Group are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon the conversion or at the instrument's maturity date.

The equity component is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of any income tax effects and is not subsequently re-measured. The component will remain classified as equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to share capital/share premium account.

(r) Financial instruments

Financial assets and financial liabilities are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value

through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

(i) Classification of financial assets

The Group classifies financial instruments into three categories as described below.

Financial assets that meet the following conditions are measured subsequently at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL). Despite the foregoing, the Group may make the following irrevocable election/designation at initial recognition of a financial asset:

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued)

(i) Classification of financial assets (Continued)

- the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met; and the Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(ii) De-recognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the assets carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

(iii) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amount and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(s) Impairment

(i) Financial assets

The Group recognises an allowance for expected credit losses (ECLs) for its Trade receivables, Aircraft deposits and Bank balances. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Other assets include cash and bank balances and deposits which the Group uses counter party external rating equivalent both to determine whether the financial asset has significantly increased in credit risk and to estimate ECLs.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Impairment (Continued)

(i) *Financial assets (Continued)*

The Group considers a financial asset in default when contractual payments are 360 day past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) *Non-financial assets*

The carrying amounts of the Group's non-financial assets other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to deter-

mine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(t) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by dividing the profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding for the effects of all potentially dilutive ordinary shares.

(u) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, there being assets that take substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. Other borrowing costs are recognised as an expense as per note 9.

(v) Provision for liabilities

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost.

Provisions for employee legal claims are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions for employee restructuring are recognised when the Group has approved a detailed formal restructuring plan, and the restructuring has either commenced or has been announced publicly.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be insignificant.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(w) Related parties

The Group is controlled by Kenya Airways Plc incorporated in Kenya being the ultimate parent. There are other companies that are related to Kenya Airways Plc through common shareholdings or common Directorships.

The Group and Company disclose the nature and amounts outstanding at the end of each financial year from transactions with related parties, which include transactions with the Directors, executive officers and related companies.

(x) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Executive Officer (CEO). The CEO makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments (see note 6).

(y) Dividends

Dividends payable are recognised as a liability in the period in which they are declared.

(z) Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year. In particular, the comparative information has been restated as a result of prior year errors as disclosed in note 40.

(aa) Adoption of new and revised International Financial Reporting Standards

(i) *Relevant new standards and amendments to published standards effective for the year ended 31 December 2018*

The following revised IFRSs were effective in the current period and the nature and the impact of the relevant amendments are described below.

Impact of initial application of IFRS 15 Revenue from Contracts with Customers

In the current year, the Group has applied IFRS 15 Revenue from Contracts with Customers which is effective for an annual period that begins on or after 1 January 2018. The standard establishes a five step model that applies to revenue arising from

contracts with customers. Revenue is recognised at an amount that reflects a consideration to which the entity expects to be entitled in exchange for goods and services at the point at which performance obligations associated with these goods and services have been satisfied.

The Group has identified the following changes to revenue recognition on the adoption of the standard:

- Passenger revenue - revenue associated with ancillary services that was previously recognised when paid, such as re-issue charges, is deferred to align with the recognition of revenue associated with the related travel and;
- Other revenue - revenue associated with holiday revenue with performance obligations that are fulfilled over time, is deferred (with the related costs) and recognised over the performance obligation period.

The Group has applied the standard on a modified retrospective basis of IFRS 15, and the application of the standard did not have significant impact except for the additional disclosures on the consolidated and company financial statements. Consequently, the day 1 adjustment was considered immaterial for any of the financial statement line items as a result of application of IFRS 15.

Impact of initial application of IFRS 9 Financial Instrument

The Group has adopted IFRS 9 'Financial Instruments' from 1 January 2018. The standard amends the classification and measurement models for financial assets and adds new requirements to address the impairment of financial assets. It also introduces a new hedge accounting model to more closely align hedge accounting with risk management strategies and objectives.

The transition provision of IFRS 9 allow an entity not to restate comparatives consequently, the Group has elected not to restate comparatives. Therefore, the comparative information for 2017 is reported under IAS 39 and is not comparable to the information presented for 2018. Differences arising from the adoption of IFRS 9 have been recognised directly in retained earnings as of 1 January 2018 and are disclosed in the Statement of Changes in Equity.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- (i) **Adoption of new and revised International Financial Reporting Standards**
- (iii) **Relevant new and revised IFRSs in issue but not yet effective for the year ended 31 December 2018 (Continued)**

Impact of initial application of IFRS 9 Financial Instrument (Continued)

a) *Classification and measurement of financial assets*

To determine their classification and measurement category, IFRS 9 requires all financial assets, except equity instruments and derivatives, to be assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics.

The IAS 39 measurement categories of financial assets (fair value through profit or loss (FVPL), available for sale (AFS), held-to-maturity and amortised cost) have been replaced by:

- Debt instruments at amortised cost;
- Debt instruments at fair value through other comprehensive income (FVOCI), with gains or losses recycled to profit or loss on derecognition;
- Equity instruments at FVOCI, with no recycling of gains or losses to profit or loss on de-recognition; and
- Financial assets FVPL.

Under IFRS 9, embedded derivatives are no longer separated from a host financial asset. Instead, financial assets are classified based on the business model and their contractual terms. The accounting for derivatives embedded in financial liabilities and in non-financial host contracts has not changed.

The Group's balance sheet only contains the following financial assets:

- Aircraft deposits;
- Trade receivables; and
- Cash and bank balances.

There has been no change in the measurement criteria for any of the Group's financial assets on adoption of IFRS 9 after the consideration of the business model and cash flow characteristics. Specifically, the trade receivables typically held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured subsequently at amortised cost and are subject to impairment.

b) *Impairment of financial assets*

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires the Group to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised. Specifically, IFRS 9 requires the Group to recognise a loss allowance for expected credit losses on:

- Trade receivables;
- Aircraft deposits; and
- Bank balances.

In particular, IFRS 9 requires the Group to measure the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses (ECL) if the credit risk on that financial instrument has increased significantly since initial recognition, or if the financial instrument is a purchased or originated credit-impaired financial asset. However, if the credit risk on a financial instrument has not increased significantly since initial recognition (except for a purchased or originated credit-impaired financial asset), the Group is required to measure the loss allowance for that financial instrument at an amount equal to 12-months ECL. IFRS 9 also requires a simplified

Items existing as at 1 January 2018 that are subject to impairment provision of IFRS 9	Credit risk attributes at 1 January 2018	Cumulative additional allowance recognized on 1 January 2018	Cumulative additional allowance recognized on 1 January 2018
		Group KShsmillion	Company KShsmillion
Trade receivables	For trade receivables, the Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which requires the use of the lifetime expected loss provision for all trade receivables.	1,393	1,384

(aa) Adoption of new and revised International Financial Reporting Standards (Continued)

(i) *Relevant new standards and amendments to published standards effective for the year ended 31 December 2018 (Continued)*

Impact of initial application of IFRS 9 Financial Instrument (Continued)

b) Impairment of financial assets (Continued)

Items existing as at 1 January 2018 that are subject to impairment provision of IFRS 9	Credit risk attributes at 1 January 2018	Cumulative additional allowance recognized on 1 January 2018	Cumulative additional allowance recognized on 1 January 2018
		Group KShsmillion	Company KShsmillion
Aircraft deposits	All aircraft deposit balances are assessed to have low credit risk at each reporting date as they are held with reputable international institutions.	-	-
Bank balances	There has been no significant increase in the credit risk of bank balances. The Group has recognized 12-months expected credit losses for these balances.	7	7
Total		1,400	1,391

approach for measuring the loss allowance at an amount equal to lifetime ECL for trade receivables. The additional credit loss allowance of KShs 1,400 million and KShs 1,391 million as at 1 January 2018 for Group and Company respectively has been recognised against retained earnings. The additional loss allowance is charged against the respective assets.

The reconciliation between the ending provision for impairment in accordance with IAS 39 to the opening loss allowance determined in accordance with IFRS 9 for the above financial instruments on 1 January 2018 has been disclosed in note 5(b).

IFRIC 22 Foreign Currency Transactions and Advance Consideration

IFRIC 22 addresses how to determine the 'date of transaction' for the purpose of determining the exchange rate to use on initial recognition of an asset, expense

or income, when consideration for that item has been paid or received in advance in a foreign currency which resulted in the recognition of a non-monetary asset or non-monetary liability. (e.g. a non-refundable deposit or deferred revenue).

The interpretation specifies that the date of transactions is the date on which the entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration.

The application of the amendments did not have an impact on the consolidated and company financial statements as the Group and Company already accounts for transactions involving the payment or receipt of advance consideration in a foreign currency in a way that is consistent with the amendments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(aa) Adoption of new and revised International Financial Reporting Standards (Continued)

(iii) *Relevant new and revised IFRSs in issue but not yet effective for the year ended 31 December 2018*

IFRS 16 Leases

IFRS 16 introduces a comprehensive model for identification of lease arrangements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current guidance including IAS 17 Leases and the related interpretations when it becomes effective.

IFRS 16 distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases (off balance sheet) and finance leases (on balance sheet) are removed for lessee accounting, and is replaced by a model where a right of use asset and a corresponding liability be recognised for all lessees (i.e. on balance sheet) except for short term leases and leases of low value assets.

The right of use is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any re-measurement of the lease liability. The lease liability is initially measured at the present value of the lease payments, as well as the impact of lease modifications, amongst others. Furthermore, the classification of cash flows will also be affected as operating lease payments under IAS 17 are presented as operating cash flows, whereas under IFRS 16, the lease payments will be split into principal and interest portions which will be presented as financing and operating cash flows respectively.

In contrast to lessee accounting, IFRS 16 substantially carries forward lessor accounting treatment in IAS 17 and continues to require a lessor to classify a lease as either an operating lease or a finance lease.

Furthermore, extensive disclosures are required by IFRS 16.

The Directors of the Group anticipate that the application of this standard will have a significant impact on the consolidated and company financial statements as at 1 January 2019.

IFRIC 23 Uncertainty over Income Tax Treatments

The interpretation addresses the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is

uncertainty over income tax treatments under IAS 12. It specifically considers:

- Whether tax treatments should be considered collectively;
- Assumptions for taxation authorities' examinations;
- The determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and
- The effect of changes in facts and circumstances.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

Annual Improvements to IFRS Standards 2015-2017 Cycle

The Annual Improvements to IFRS Standards 2015-2017 cycle makes amendments to the following standards:

- IFRS 3 and IFRS 11 - The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to IFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.
- IAS 12 - The amendments clarify that all income tax consequences of dividends (i.e. distribution of profits) should be recognised in profit or loss, regardless of how the tax arises.
- IAS 23 - The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

Amendments to IFRS 9 Prepayment Features with Negative Compensation

The amendments to IFRS 9 clarify that for the purpose of assessing whether a prepayment feature meets the SPPI condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason for prepayment. In other words, prepayment features with negative compensation do not automatically fail SPPI. The amendment applies to annual periods beginning on or after 1 January 2019, with earlier application permitted. There are specific transition provisions depending on when the amendments are first applied, relative to the initial application of IFRS 9.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(aa) Adoption of new and revised International Financial Reporting Standards (Continued)

IFRS 10 Consolidated Financial Statements and IAS 28 (amendments) Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent's profit or loss only to the extent of the unrelated investors' interests in that associate or joint venture.

Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent's profit or loss only to the extent of the unrelated investors' interests in the new associate or joint venture.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

Amendments to IAS 19 Employee Benefits Plan Amendment, Curtailment or Settlement

The amendments to IAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event;
- Determine net interest for the remainder of the period after the plan amendment, curtailment; and
- or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss

on settlement, without considering the effect of the asset ceiling. This amount is recognised in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognised in other comprehensive income.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

Amendments to IAS 28 Long-term Interests in Associates and Joint Ventures

The amendment clarifies that IFRS 9, including its impairment requirements, applies to long-term interests. Furthermore, in applying IFRS 9 to long-term interests, an entity does not take into account adjustments to their carrying amount required by IAS 28 (i.e., adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with IAS 28). The amendments apply retrospectively to annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. Specific transition provisions apply depending on whether the first-time application of the amendments coincides with that of IFRS 9.

The Directors of the Group do not anticipate that the application of the amendments in the future will have an impact on the consolidated and company financial statements.

(iv) Early adoption of standards

The Group did not early adopt new or amended standards in the period ended 31 December 2018.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In determining the carrying amounts of certain assets and liabilities, the Group and Company makes assumptions of the effects of uncertain future events on those assets and liabilities at the reporting date. The Group's and Company's estimates and assumptions are based on historical experience and expectation of future events and are reviewed periodically. This disclosure excludes uncertainty over future events and judgments in respect of measuring financial instruments. Further information about key assumptions concerning the future, and other key sources of estimation uncertainty are set out in the notes below:

NOTES TO THE FINANCIAL STATEMENTS (Continued)

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

a) Critical accounting estimates

(i) *Impairment of aircraft and related equipment*

A decline in the value of aircraft could have a significant effect on the amounts recognised in the financial statements. Directors assess the impairment of aircraft whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Factors that are considered important which could make an impairment review necessary include the following:

- Management's decision to discontinue use of a certain fleet;
- Significant decline in the market value beyond that which would be expected from the passage of time and normal use;
- Significant changes in technology and regulatory environments; and
- Evidence from internal reporting which indicates that the performance of the asset is, or will be, worse than expected.

The Group and Company have conducted an analysis of the sensitivity of the impairment test to changes in the key assumptions used to determine the recoverable amount of its aircraft. The key assumptions relate to growth rates applicable to the cash generating units (CGUs) estimation of the future cash flows expected to be generated by the CGUs and the discount rates applied to the projected future cash flows to arrive at the present value.

(ii) *Property, aircrafts and equipment and intangible assets*

Useful life of assets

Useful lives and residual values are reassessed annually taking into consideration the latest fleet plans and other business plan information. The assets are depreciated to their residual values over their estimated useful lives.

(iii) *Revaluation of land and buildings*

Land and buildings are measured at revalued amounts. The fair value is determined based on the market and cost approaches using comparable market prices for similar items when available and replacement cost when appropriate.

(iv) *Unused ticket revenue*

Unused tickets are recognised as revenue using estimates regarding the timing of recognition based

on terms and conditions of the ticket and historical trends.

(v) *Impairment of financial assets*

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The measurement of impairment losses across all categories of financial assets requires judgement and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. The Group's Expected Credit Losses (ECL) calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The segmentation of financial assets when their ECL is assessed on a collective basis;
- Historical default and expected loss rates;
- The Group's criteria for assessing if there has been a significant increase in credit risk; and
- Development of ECL models, including the various formulas and the choice of inputs.

(v) *Impairment of non-financial assets*

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount. Non-financial assets that are not subject to amortisation are tested annually for impairment. These calculations require the use of estimates and assumptions such as future expected cash flows and pre-tax discount rate. In the Directors' judgement, the carrying value of Jambojet investment has been impaired as per note 17(a)

(vi) *Classification of leases of land as finance or operating leases*

At the inception of each lease of land, the Group and Company considers the substance rather than the form of the lease contract. Examples of situations that individually or in combination would normally lead to a lease being classified as a finance lease are;

- The lease transfers ownership of the asset to the lessee by the end of the lease term;
- The lessee has the option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable for it to be reasonably certain, at the inception of the lease, that the option will be exercised;
- The lease term is for the major part of

NOTES TO THE FINANCIAL STATEMENTS (Continued)

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(vi) *Classification of leases of land as finance or operating leases (Continued)*

the economic life of the asset even if title is not transferred;

- At the inception of the lease the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset; and
- The leased assets are of such a specialised nature that only the lessee can use them without major modifications.

(vii) *Deferred tax asset*

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

(viii) *Provision for lease return costs*

The Group is required to fulfil certain lease return conditions which may include the completion of certain overhauls to the airframe, auxiliary power unit, engines and the refurbishment of seats within the aircraft. The provision for return costs is determined based on the best estimate of the future costs that will be incurred to fulfil the return conditions. The measurement of the provision includes assumptions relating to expected costs, escalation rates, discount rates commensurate with the expected obligation maturity and long-term maintenance schedules.

(b) *Critical judgements in applying the entity's accounting policies*

In the process of applying the Group's and Company's accounting policies, the Directors have made judgements in determining:

- the classification of finance and operating leases;
- whether financial and non-financial assets are impaired;
- assessment of going concern assumptions;
- amortisation of intangible assets;
- provision for inventory;
- provision for trade and other receivables;
- foreign currency hedge effectiveness assessment;
- depreciation of property and equipment; and
- provision for lease return costs.

5. FINANCIAL RISK MANAGEMENT

Operating in the aviation industry, Kenya Airways Plc carries out its activities in an extremely dynamic, and often highly volatile, commercial environment. Therefore, both opportunities and risks are encountered as part of everyday business for the Group and Company. The Group's and Company's ability to recognise, successfully control and manage risks early in their development and to identify and exploit opportunities is key to its ability to successfully realise the corporate vision.

The Group and Company has exposure to the following risks from its use of financial instruments:

- a) Market risk
- b) Credit risk
- c) Liquidity risk

Changing market conditions expose the Group and Company to various financial risks and management have highlighted the importance of financial risk management as an element of control for the Group and Company. The policy of the Group and Company is to minimise the negative effect of such risks on cash flow, financial performance and equity.

This note presents information about the Group's and Company's exposure to each of the above risks, the Group's and Company's objectives, policies and processes for measuring and managing risk and the Group's and Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

The Group's and Company's Board of Directors have overall responsibility for the establishment of an oversight of the Group's and Company's risk management framework. The Board of Directors have established the Risk Management Committee, which is responsible for developing and monitoring the Group's and Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Group's and Company's risk management framework

The Group's and Company's risk management policies are established to identify and analyse the risks faced by the Group and Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in the market conditions and Group's and Company's activities. The Group and Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit and Risk Management Committee oversees how management monitors compliance with the Group's and Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to risks faced by the Group and Company. The Audit and Risk Management Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board Audit and Risk Committee.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

5. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk

Market risk is the risk that changes in market prices, such as changes in interest rates, jet fuel prices or foreign exchange rates will affect the Group's and Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimising returns. Where possible, the Group and Company uses derivatives to manage market risks. As such, transactions are carried out within the guidelines set by the Board of Directors. Generally, the Group and Company seeks to apply hedge accounting to manage volatility in profit or loss.

(i) Interest rate risk

The Group's and Company's exposure to market risk due to changes in interest rates primarily relates to its cash deposits and borrowings.

Most of the Group's and Company's debts are asset secured, reflecting the capital intensive nature of the airline industry. The Group and Company has a mix of fixed rate interest loans and variable rate interest loans.

Exposure to interest rate risk

The interest rate profile of the Group's and Company's interest bearing financial instruments as reported to management of the Group and Company is as follows:

Group and Company	Effective interest rate	Nominal Amount		(Restated) KShs million
		2018 KShs million	2017 Effective interest rate	
Fixed rate instruments				
Short term borrowings	2.00%	60	14.10%	1,049
Long term borrowings	2.00%	184	7.44%	248
Mandatory convertible loan	12.03%	3,456	12.03%	3,277
		3,700		4,574
Variable rate instruments				
Short term borrowings	4.08%	6,139	3.00%	6,366
Long term borrowings	4.26%	75,947	3.22%	83,175
		82,086		89,541
Total exposure		85,786		94,115

Sensitivity Analysis

A 1% increase/decrease in the interest rates at the reporting date would have increased/ decreased profit or loss and equity by the amounts shown below. The analysis assumes that all other variables, in particular, foreign currency rates, remain constant and is only applied on variable interest bearing instruments.

Variable rate instruments	Profit or loss/equity	
	2018 KShs million	2017 KShs million
1% increase	(821)	(895)
1% decrease	821	895

NOTES TO THE FINANCIAL STATEMENTS (Continued)

5. FINANCIAL RISK MANAGEMENT (Continued)

a) Market risk (Continued)

(i) Jet fuel price risk

The Group and Company are exposed to jet fuel price risk to the extent that there are significant changes in the prices of jet fuel. To minimise exposure to fluctuations in prices, the Group and Company consider the use of fuel hedge instruments periodically to manage exposure to fuel risk. The Group's and Company's risk management objective is to hedge the jet fuel price risk by effectively fixing the price of the expected future purchases which are highly probable. Kenya Airways Plc uses Options as its derivative financial instruments, while the entire risk of jet fuel purchase are designated as the hedged item.

At the inception of the hedge and in subsequent periods, the hedges are expected to be highly effective in achieving off-setting changes in the fair value attributable to the fuel purchases during the period for which the hedges is designated.

The Group and Company measures and assesses the hedge effectiveness monthly. The Group's and Company's policy is to hedge a maximum of 41% of the current year's projected fuel requirements.

Sensitivity analysis

An increase/decrease of one percentage point in the fuel price at the reporting date would have increased/decreased profit or loss and equity by KShs 331 million.

(ii) Currency risk

The Group and Company are exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchases and borrowings are denominated. The currencies in which these transactions are primarily denominated are US Dollars (USD), Euros and Sterling Pounds.

To mitigate the foreign currency risk exposure, management hedges highly probable forecast USD sales against USD Loans to ensure that the foreign currency obtained from their sales is used to settle any foreign denominated liability. The main liability is the repayment of borrowings for the short term and long term debt. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Group and Company - primarily US Dollars. In addition, interest on borrowings is denominated in the currency of the borrowing.

5. FINANCIAL RISK MANAGEMENT (Continued)

a) Market risk (Continued)

(iii) Currency risk (Continued)

Sensitivity analysis

A 10% percent appreciation or depreciation of the Kenya shilling against the following currencies would increase/ (decrease) the reported profit or loss and equity by amounts shown below. This analysis is based on foreign currency exchange rates variances that the Group considered to be reasonably possible at end of the reporting period. This analysis assumes that all other variables in particular interest rates remain constant.

<i>Profit or Loss</i>	Group		Company	
	2018 KShs millions	2017 (restated) KShs millions	2018 KShs millions	2017 (restated) KShs millions
GBP	36	114	36	114
USD	(1,015)	(1,202)	(996)	(1,180)
EURO	14	60	14	61
	(965)	(1,028)	(946)	(1,005)
<i>Other Comprehensive income</i>				
USD	(8,233)	(8,985)	(8,233)	(8,985)

The exchange rates applied during the year are as follows:

	Average rates		Closing rates	
	2018	2017	2018	2017
GBP	135.45	134.50	129.12	139.65
USD	101.20	102.99	101.83	103.18
EURO	119.81	118.20	116.60	123.93

(b) Credit risk

Credit risk is the risk of financial loss to the Group and Company if a customer or a counter-party to a financial instrument fails to meet its contractual obligations and arises principally from the Group's and Company's receivables from customers, cash and bank balances and aircraft deposits.

The carrying amount of the financial assets represents the maximum credit exposure.

The Group and Company largely conducts its sale of passenger and cargo transportation through International Air Transport Association (IATA) approved sales agents. All IATA agents have to meet a minimum financial criterion applicable to their country of operation to remain accredited. Adherence to the financial criteria is monitored on an on-going basis by IATA through the association's Agency Programme. The credit risk associated with such sales agents is relatively low owing to the programme's broad diversification. The Group's and Company's accounts receivable are generated largely from the sale of passenger airline tickets and cargo transportation services.

Majority of these sales are in accounts receivable which are generally short term in duration. The credit risk associated with these receivables is minimal and the allowance for uncollectible amounts that the Group and Company has recognised in the financial statements is considered adequate to cover any potentially irrecoverable amounts.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

5. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk (Continued)

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses.

The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. Generally, trade receivables are written-off if past due for more than one year. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

The Group and Company does not have significant concentrations of credit risk on derivative counterparties where transactions are limited to financial institutions possessing high credit quality since the risk of default is low.

The Board of Directors sets the Group's and Company's treasury policies and objectives and lays down parameters within which the various aspects of treasury risk management are operated. The Board has set limits for investing in specified banks and financial institutions and cash surpluses are maintained with credible institutions.

The carrying amount of financial assets represents the maximum exposure to credit risk:

	Group 2018 KShs million	2017 KShs million	Company 2018 KShs million	2017 KShs million
Trade receivables	10,775	8,477	10,399	8,192
Other receivables	3,662	1,173	3,072	1,171
Prepaid maintenance asset	3,398	4,125	3,018	4,023
Amounts due from related companies	-	32	16,481	10,808
Aircraft deposits	3,076	5,328	3,076	5,328
Bank balances	6,431	6,344	6,243	6,151
Total	27,342	25,479	42,289	35,673

In order to minimise credit risk, the Group has tasked its Risk Management Committee to develop and maintain the Group's credit risk grading to categorise exposures according to their degree of risk of default. The credit rating information is supplied by independent rating agencies where available and, if not available, the Risk Management Committee uses other publicly available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognizing expected credit losses
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12 month ECL
Doubtful	Amount is past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL - not credit impaired
In default	Amount is >360 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL - credit impaired
Write off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off

NOTES TO THE FINANCIAL STATEMENTS (Continued)

At 31 December 2018 under IFRS 9	(2,710)	(2)	-	(2,712)

The Directors believe that the unimpaired amounts that are past due (more than 30 days in arrears) are still collectible in full based on historical payment behaviour and extensive analysis of customer credit risk.

(c) Liquidity risk

Liquidity risk is the risk that the Group and Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's and Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's and Company's reputation.

Kenya Airways seeks to maintain sufficient cash balances to cover six months debt obligations and lease rentals.

Management perform cash flow forecasting and monitor rolling forecasts of the Group's and Company's liquidity requirements to ensure it has sufficient cash to meet its operational needs while maintaining sufficient headroom on its undrawn borrowing facilities at all times so that the Group and Company do not breach borrowing limits or covenants on any of its borrowing facilities. Management have sought waivers after year-end from lenders when they have not been compliant with the covenants.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

5. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk (Continued)

The table below analyses financial liabilities into relevant maturities based on the remaining period at year-end to the contractual maturity date. The amounts are gross and undiscounted and include estimated interest payments.

Group	Less than 1 year KShs million	2 - 5 years KShs million	Over 5 years KShs million	Total KShs million

Trade and other payables	39,629	-	-	39,629
	125,861	248	4,358	130,467

(d) Capital Management

The Group and Company's Board of Director's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The Company's Board of Directors monitors the return on capital, which is defined as net operating income divided by total shareholders' equity.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

5. FINANCIAL RISK MANAGEMENT (Continued)

(d) Capital Management (Continued)

The Group and Company's Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Group and Company monitors the return on shareholder's funds which is defined as the profit for the year expressed as a percentage of average shareholder's equity. The Group and Company seeks to provide a higher return to the shareholders by investing in more profitable routes and improving on efficiencies to provide world class service to meet its growth plans.

Kenya Airways also monitors capital on the basis of a gearing ratio which is calculated as the ratio of borrowings net of bank and cash balances to shareholder's equity. As at 31 December 2018, the gearing ratio of the Group and Company was >100% (31 December 2017: >100%). Note 2(e) summarises the procedures the Directors' are putting in place to address the solvency challenges facing the company.

The gearing ratio for the Group at the end of the year was as follows:

Group	2018 KShs million	2017 (Restated) KShs million
Total equity*	(2,578)	4,775
Loans and borrowings	82,330	90,838
Mandatory convertible loan	3,456	3,277
Less: Cash and bank balances	(6,431)	(6,356)
Net borrowings	79,355	87,759
Net debt to equity ratio	>100%	>100%

The gearing ratio for the Company at the end of the year was as follows:

Company

Total equity*	(5,802)	1,789
Loans and borrowings	82,330	90,838
Mandatory convertible loan	3,456	3,277
Less: Cash and bank balances	(6,243)	(6,163)
Net borrowings	79,543	87,952
Net debt to equity ratio	>100%	>100%

*Total equity includes all capital and reserves of the Group and Company respectively.

(e) Accounting classifications and fair values for financial assets and financial liabilities (Continued)

- i) Fair value of the Group's and Company's financial assets and financial liabilities that are measured at fair value on a recurring basis.

Some of the Group's and Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table provides information about how the fair values of these financial assets and liabilities are determined (in particular, valuation technique(s) and inputs used).

There were no transfers between level 1 and 2 during the current or prior period.

Financial liabilities	Fair values as at		Fair value hierarchy	Valuation techniques and key inputs
	2018 KShs million	2017 KShs million		
Sovereign guarantee from the Government of Kenya	1,188	1,405	Level 3	No observable market inputs

6. SEGMENT INFORMATION

Directors have determined the operating segments based on the reports reviewed by the Chief Executive Officer that are used to make strategic decisions.

Segment profit represents the profit earned by each segment without allocation of share of profits of associates, investment revenue and finance costs, and income tax expense.

The major part of the business of the Group and Company falls under category of aviation transport with income from other categories comprising less than 7.5% of total income.

Analysis of turnover according to business segments:

	Passenger KShs million	Freight and mail KShs million	Handling KShs million	Lease rental income KShs Million	Other Income KShs million	Total KShs million
31 December 2018 (12 Months):						
Kenya	6,946	1,061	291	-	607	8,905
Rest of the world	88,241	7,407	1,902	1,461	6,269	105,280
	95,187	8,468	2,193	1,461	6,876	114,185
31 December 2017 (9 Months):						
Kenya	4,246	676	36	-	383	5,341
Rest of the world	63,367	4,868	1,510	1,101	4,612	75,458
	67,613	5,544	1,546	1,101	4,995	80,799

The Nairobi - Amsterdam and Nairobi - London routes contribute 16% of the total turnover.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

6. SEGMENT INFORMATION (Continued)

Analysis of costs according to business segments:

31 December 2018 (12 Months):	Passenger KShs million	Freight and mail KShs million	Handling KShs million	Other Income KShs million	Total KShs million
Depreciation and amortisation	4,567	407	105	-	5,079
Interest expense	4,552	405	105	-	5,062

31 December 2017 (9 Months):

Depreciation and amortisation	4,590	376	105	-	5,071
Interest expense	4,456	365	102	-	4,923

Analysis of operating (loss)/profit per business segments:

	2018 (12 months) KShs million	2017 (9 months) KShs million	2018 (12 months) KShs million	2017 (9 months) KShs million
Passengers	(757)	713	(982)	512
Freight, mail and others	74	213	76	165
	(683)	926	(906)	677

Segment assets and liabilities

The major revenue-earning assets of the Group and Company comprise the aircraft fleet, all of which are registered in Kenya. Since the Group's and Company's aircraft fleet is employed flexibly across its worldwide route network, there is no suitable basis of allocating such assets and related liabilities to the operating segments. Since the aircraft fleet is deployed flexibly across the Company's route network, providing information on non-current assets by geographical and business segments is not considered meaningful.

Geographical Segments

	2018 KShs million	2017 KShs million
Europe	27,034	19,200
Middle East	5,314	3,651
China	8,515	7,991
India	5,373	3,570
North America	947	-
Africa	67,002	46,387
	114,185	80,799

No single external customer contributes 10% or more of the Group's or Company's revenues.

9. NET FINANCE COSTS

Finance costs:

	Group		Company	
	2018 (12 months) KShs million	2017 (9 months) KShs million	2018 (12 months) KShs million	2017 (9 months) KShs million
Interest expense:				
- on long term borrowings	3,758	2,130	3,758	2,130
- on short term facilities	1,304	2,793	1,301	2,791
	5,062	4,923	5,059	4,921
Interest income:				
Interest income on short term bank deposits	(45)	(32)	(51)	(38)
Net finance costs	5,017	4,891	5,008	4,883

10. OTHER LOSSES

	Group		Company	
	2018 (12 months) KShs million	2017 (9 months) (Restated) KShs million	2018 (12 months) KShs million	2017 (9 months) (Restated) KShs million
Foreign currency exchange losses	1,467	2,087	1,448	2,083
Other costs	421	336	418	334
	1,888	2,423	1,866	2,417

11. LOSS BEFORE TAXATION

The loss before taxation is arrived at after charging/(crediting):

Lease rental income (note 7(a))	(1,461)	(1,101)	(1,461)	(1,101)
Employee costs (note 8(d))	16,066	9,480	14,401	8,886
Hire of aircraft and engines (note 8(b))	7,605	6,448	6,603	6,064
Net foreign exchange losses (note 10)	1,467	2,087	1,448	2,083
Depreciation of property, aircraft and equipment (note 15)	6,902	4,323	6,898	4,322
Depreciation of return conditions asset (note 18)	1,832	1,404	1,525	1,404
Amortisation of computer software (note 16(b))	180	229	148	208
Impairment of assets held for sale (note 23(a)(i))	-	360	-	360
Impairment of aircraft (note 15)	2,590	-	2,590	-
Impairment provision relating to trade receivables (note 22)	(434)	785	(606)	802
Impairment provision relating to bank balances (note 35(b))	(5)	-	(5)	-
Auditor's remuneration	15	14	10	9
Directors' remuneration (note 36(c))	93	136	93	136
Loss on disposal of assets held sale, and				
Property, aircraft & equipment	84	4	84	4
Provision for obsolete inventories (note 21)	(43)	47	(43)	47
Impairment of investment in subsidiary (note 17(a))	-	-	440	-

NOTES TO THE FINANCIAL STATEMENTS (Continued)

12. INCOME TAX

(a) Group

(i) Taxation (credit)/charge

	2018 (12 months) KShs Million	2017 (9 months) KShs Million
<i>Income tax charge recognised in profit or loss</i>		
Current income tax at 30%	50	32
Deferred income tax (credit)/charge (note 28)	(80)	80
	(30)	112

(ii) Reconciliation of tax based on accounting loss to tax charge

The tax on the Group's profit before income tax differs from the theoretical amount that would arise using the statutory income tax rate as follows:

	2018 (12 months) KShs Million	2017 (9 months) KShs Million
Loss before taxation	(7,588)	(6,306)
Current tax at 30%	(2,276)	(1,892)
Tax effect of expenses not subject for tax purposes	196	328
Unrecognised deferred tax asset (note 28)	2,050	1,676
Taxation (credit)/charge	(30)	112

(b) Company

(i) Taxation charge

<i>Income tax charge recognised in profit or loss</i>		
Current tax at 30%	32	16
Taxation charge	32	16

(ii) Reconciliation of tax based on accounting loss to tax charge

Loss before income tax	(7,780)	(6,623)
Current tax at 30%	(2,334)	(1,987)
Tax effect of expenses not subject for tax purposes	229	356
Unrecognised deferred tax asset (note 28)	2,137	1,647
Taxation charge	32	16

NOTES TO THE FINANCIAL STATEMENTS (Continued)

12. INCOME TAX (Continued)

(c) Current tax recoverable/(payable)	Group		Company	
	2018 (12 months) KShs Million	2017 (9 months) KShs Million	2018 (12 months) KShs Million	2017 (9 months) KShs Million
At beginning of year/period	1,246	1,235	1,249	1,240
Charge for the year/period	(50)	(32)	(32)	(16)
Paid during the year/period	62	43	35	25
At end of year/period	1,258	1,246	1,252	1,249
Presented in the statement of financial position as follows:				
Current tax recoverable	1,258	1,249	1,252	1,249
Current tax payable	-	(3)	-	-
Net current tax asset	1,258	1,246	1,252	1,249

13. LOSS PER SHARE - GROUP

Basic loss per share are calculated by dividing the loss attributable to equity holders of the Group by the weighted average number of ordinary shares outstanding during the year.

	2018 KShs Million	2017 (Restated) KShs Million
Loss attributable to equity holders of the Company	(7,554)	(6,422)
Basic loss per share		
Weighted average number of ordinary shares (million)	5,824	5,824
Basic loss per share (KShs)	(1.30)	(1.10)
Diluted loss per share		
Weighted average number of ordinary shares used in calculation of basic loss per share (million)	5,824	5,824
Weighted average number of ordinary shares deemed to be issued in respect of mandatory convertible note (million)	1,659	1,659
	7,483	7,483
Diluted loss per share (KShs)	(1.01)	(0.86)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

14. DIVIDENDS - GROUP AND COMPANY

The Directors do not recommend payment of dividend for the twelve months period ended 31 December 2018 (2017: nil). This proposal will be presented for formal approval by shareholders' at the forthcoming Annual General Meeting.

The unclaimed dividends account is as follows:

	2018 KShs Million	2017 KShs Million
At the beginning and end of the year/period (note 32)	90	90

NOTES TO THE FINANCIAL STATEMENTS (Continued)

15. PROPERTY, AIRCRAFT AND EQUIPMENT (Continued)

* During the year, the Group and Company recognised an impairment loss of KShs 2,590 million of a B777-300ER in the statement of profit or loss and other comprehensive income. This asset has been subleased to Turkish Airlines and is used in the Group's and Company's lease rental income segment.

The net book value of aircrafts charged as security for loan facilities obtained to finance their purchase is KShs 86,953 million (2017: KShs 93,042) at the end of the period. Details of the outstanding loan facilities are disclosed in note 27.

The Group's and Company's land and buildings were last revalued on 31 March 2016 by an independent valuer, on the basis of open market value. The valuers are members of the Institute of Valuers of Kenya and they have appropriate qualifications and recent experience in the fair value measurements of properties in the relevant locations.

There was no valuation carried out during the year.

Details of the fair value hierarchy for the Group's and Company's property carried at fair value as at 31 December 2018 and 31 December 2017 are as follows:

	Level 1 KShs Million	Level 2 KShs Million	Level 3 KShs Million	Total KShs Million
31 December 2018				
Group				
Land and buildings	-	-	8,142	8,142
Company				
Land and buildings	-	-	7,878	7,878
31 December 2017				
Group				
Land and buildings	-	-	8,742	8,742
Company				
Land and buildings	-	-	8,181	8,181

The land and buildings are in level 3 hierarchy of measurement. There were no transfers between the levels during the year. The valuers used depreciated replacement cost to estimate the fair value of the buildings and market comparison approach to determine the fair value of land. The significant inputs in the valuation included the market prices of similar transactions for the land; estimated construction costs and other ancillary expenditures, and appropriate depreciation factors for the buildings. The estimated fair value of the land would increase if property prices near the location of the property was higher and vice versa. A slight increase in the depreciation factor would result in a significant decrease in the fair value of the assets, and a slight increase in the estimated construction and purchase costs would result in significant increase in the fair value of the assets, and vice versa.

Included in property, aircraft and equipment are assets with a cost of KShs 19,815 million (2017: KShs 20,986 million) that are fully depreciated. The notional annual depreciation of these assets would have been KShs 2,628 million (2017: KShs 2,783 million). Incomplete projects relates to systems yet to be available for use.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

16. INTANGIBLE ASSETS

Intangible assets consist of:

	Group		Company	
	2018 KShs Million	2017 KShs Million	2018 KShs Million	2017 KShs Million
Landing slot	2,561	2,561	2,561	2,561
Computer systems and software	401	330	382	280
	2,962	2,891	2,943	2,841

(a) Intangible assets - landing slot

Kenya Airways Plc has rights to a landing slot at the London Heathrow International Airport to enable daily afternoon landings and departures on the Nairobi - London route. The rights obtained to the use of the slot are for an indefinite period as per the nature of the asset and the operationalising agreements. The slot was obtained in 2017 as an in-kind contribution from KLM Royal Dutch Airlines in exchange for ordinary shares in the company as disclosed in note 24.

(b) Intangible assets - computer software

	Group		Company	
	2018 KShs Million	2017 KShs Million	2018 KShs Million	2017 KShs Million
Cost:

At end of year/period	4,499	4,319	4,344	4,196
Net book value:				
At end of year/period	401	330	382	280

*The IT systems received from KLM Royal Dutch Airlines were obtained as an in-kind contribution in exchange for ordinary shares in the company.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

17. INVESTMENTS

(a) Investment in subsidiaries - Company

Details of investment	Country of incorporation	Activity	2018 % of equity	2017 interest	2018 KShs Million	2017 KShs Million
Kenya Airfreight Handling Limited (2,550,000 shares of KShs 20 each)	Kenya	Cargo handling for perishable products	51%	51%	51	51
JamboJet Limited (2018:1,000,000 shares of KShs.606 each, 2017:5,000 shares of KShs 20 each)	Kenya	Local passenger air transport	100%	100%	166	*
Kencargo Airlines International Limited (1,000,000 shares of KShs 20 each)	Kenya	Dormant	100%	100%	**	**
African Cargo Handling Limited (5,753,822 shares of KShs 100 each)	Kenya	Cargo handling	100%	100%	***384	***384
Pride Oil Limited (5,000 shares of KShs 20 each)	Kenya	Dormant	100%	100%	*	*
					601	435

The movement in the investment in JamboJet Limited is as follows:

At the beginning of the year/period	*	*
Receivable balance converted to equity during the year	606	-
Impairment	(440)	-
At the end of the year/period	166	*

The movement in the impairment of investment in subsidiaries is as follows:

At the beginning of the year/period	20	20
Impairment for the year/period	440	-
At the end of the year/period	460	20

During the year, the Group and Company recognised an impairment loss of KShs 440 million of JamboJet Limited, which has been recognised in profit or loss statement. This is a subsidiary of Kenya Airways Plc.

* The cost of the investment is KShs 100,000 which when rounded to the nearest million gives a value of less than a million.

** The investment in Kencargo Airlines International Limited is fully impaired since the Company has been inactive thus casting doubt on the recoverability and valuation of the investment. The investment was impaired by KShs. 20,000,000.

*** The purchase of African Cargo Handling Limited was below the net identifiable assets resulting in a bargain purchase.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

17. INVESTMENTS

(b) Investments in associates – Group and Company

(i) African Tours and Hotels Limited:

	2018 KShs Million	2017 KShs Million
African Tours and Hotels Limited: (100,398 ordinary shares of KShs 20 each)	2	2
Less: Impairment on investment in associate	(2)	(2)
	-	-

The shareholding in African Tours and Hotels Limited represents 20.1% of the issued ordinary share capital of the company. The company was placed under receivership several years back and, therefore, the Directors do not expect the value of the investment to be recovered. Consequently, the investment has been fully impaired.

(ii). Precision Air Services Limited:

	2018 KShs Million	2017 KShs Million
66,157,350 ordinary shares of KShs 3.48 (TShs 20) each	230	230
Less: Impairment of investment in associate	(230)	(230)
	-	-

The summarised financial information of the associate is set out below:

	2018 KShs million	2017 KShs million
Total assets	7,869	8,458
Total liabilities	(20,613)	(17,563)
Net liabilities	(12,744)	(9,105)
Total revenue for the year/period	4,322	4,354
Loss for the year/period	(1,228)	(360)

Kenya Airways Plc owns 41.23% equity interest in Precision Air Services Limited. The Investment was fully impaired in 2013 as the Directors do not expect the value of the investment to be recovered.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

18. RETURN CONDITIONS ASSET

	Group		Company	
	2018 KShs Million	2017 (Restated) KShs Million	2018 KShs Million	2017 (Restated) KShs Million
At beginning of year/period - as previously reported	-	-	-	-
Prior year adjustment (note 40)	3,392	2,810	2,639	2,810
At beginning of year/period	3,392	2,810	2,639	2,810
Additions	1,027	1,986	1,027	1,233
Depreciation charge for the period	(1,832)	(1,404)	(1,525)	(1,404)
At end of year/period	2,587	3,392	2,141	2,639

19. AIRCRAFT DEPOSITS - GROUP AND COMPANY

	2018 KShs Million	2017 KShs Million
Deposits for aircraft leases under long-term operating leases	2,510	4,337
Deposits paid towards acquisition of aircraft	566	991
	3,076	5,328

The deposits under long-term operating leases relate to lease of aircraft and engines of Boeing 737's, 787's, and Embraer E190's. The deposits paid towards acquisition of aircraft represent amounts paid to Boeing Corporation towards acquisition of optional aircraft in future. The latter deposits do not earn any interest and are carried at amortised cost.

	2018 KShs Million	2017 KShs Million
At start of year/period	5,328	4,915
Additions	311	439
Refunds**	(2,486)	-
Amortisation*	4	(34)
Foreign exchange differences	(81)	8
At end of year/period	3,076	5,328

* Amortisation of the aircraft deposits relates to the discount arising from the difference between the maturity value of the deposits and their fair value based on amortised cost.

** The refunds during the year relate to reimbursements received by Kenya Airways Plc from various lessors for aircraft deposits that had been previously held as cash. These reimbursements were in exchange for letters of credit drawn up in favour of the lessors.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

24. SHARE CAPITAL - GROUP AND COMPANY

Kenya Airways Plc completed a significant portion of its financial restructuring following the signing of a lock up and restructuring agreement on 14 November 2017 with the Government of Kenya, KLM Royal Dutch Airlines, KQ Lenders Company 2017 Limited and certain Kenyan Banks. The restructuring was approved by shareholders at an extra-ordinary general meeting held on 7 August 2017 through a special resolution.

The restructuring involved the following transactions:

- Conversion of the existing debt and accrued interest due to the Government of Kenya into equity shares in exchange for 2,552,043,603 new ordinary shares at KShs 7.78 per share; USD 75 million of further indebtedness being convertible in future pursuant to a zero coupon mandatorily convertible loan agreement;
- The issue by the Government of Kenya of a sovereign guarantee of USD 525 million to Export-Import Bank of the United States in support of the restructuring of the Company's indebtedness to the financiers of the Company's fleet of wide-bodied aircraft and USD 225 million in favour of certain local banks in support of new loan facilities in exchange for 184,321,068 new ordinary shares at KShs 7.78 per share. The guarantee was independently valued as disclosed under note 27(a);
- Certain Kenyan banks agreed to convert their loans to the Company in exchange for 2,219,285,317 new ordinary shares at KShs 7.78 per share through a new equity holding company, KQ Lenders Company 2017 Limited, with USD 50 million of further indebtedness being convertible in the future pursuant to an interest earning mandatory convertible note as disclosed in note 25 (b). In addition, the Kenyan banks will provide USD 175 million of new loan facilities to Kenya Airways Plc. This facility is backed by the aforementioned USD 225 million Government guarantee. The banks had disbursed USD 42 million or KShs 4,300 million as at year end as disclosed under note 27(b) (2017: USD 42 million of KShs 4,358 million);
- The issue of 351,656,464 new shares at KShs 7.78 per share to KLM Royal Dutch Airlines in consideration of in-kind capital contributions to the Company consisting of a landing slot at the London Heathrow International Airport as well as a package of IT Systems and technical support. The landing slot and IT systems and technical support package was independently valued as disclosed under note 16;
- Securing cash relief from restructuring the timing and form of payments from operating and finance lessors for the airline's fleet of aircraft;
- The set up and registration of a Group employee share ownership scheme with 142,164,558 shares; and
- A rights issue was approved to be offered to the diluted existing shareholders. Plans for the issue are currently ongoing.

These transactions were approved through a special resolution at the Company's extra-ordinary general meeting held on 7 August 2017. The shareholders also resolved to sub divide each share held into 1 ordinary share of KShs 0.25 each and 28,433 million deferred shares of KShs 0.25 each. The deferred shares were subsequently cancelled, and the ordinary shares consolidated into 1 ordinary share of KShs 1.00 each.

The new ordinary shares issued rank pari passu in all respects with the existing ordinary shares of the company.

Issue of ordinary shares through conversion of the mandatory convertible note	****	****	2	2
31 December 2018	5,824	5,824	49,223	55,047

* The sub-division of each share held into 1 ordinary share of KShs. 0.25 each and 28,433 million deferred shares of KShs. 0.25 each and subsequent cancellation of the deferred shares resulted in the reduction of Kenya Airways Plc share capital from KShs 7,482 million to KShs 374 million.

** The Board of Directors through a special board resolution on 20 November 2017 resolved to consolidate the shares of Kenya Airways Plc in the ratio of 4:1. This resulted in the reduction of Kenya Airways Plc number of issued shares from 1,496,469,035 shares to 374,117,259 shares.

**** During the year, KQ Lenders Company 2017 Limited issued conversion notices for 314,352 shares at KShs 7.78 per share resulting in a share premium of KShs 6.78 per share totalling to a share premium of KShs 2,131,307. The shares of 314,352 which when rounded to the nearest million gives a value of less than a million and the share capital of KShs 314,352 which also when rounded to the nearest million gives a value of less than a million.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

24. SHARE CAPITAL - GROUP AND COMPANY (Continued)

(b). Mandatory convertible notes

On 14 November 2017, as part of its balance sheet restructuring, Kenya Airways Plc issued the Government of Kenya and KQ Lenders Company 2017 Limited mandatory convertible notes of KShs 7,744 million (USD 75 million) and KShs 5,163 million (USD 50 million) respectively. The Government of Kenya note was issued at zero interest while The KQ Lenders Company 2017 Limited mandatory convertible note will earn an interest of 5.11% in year 1 to year 5, 15.34% in year 6 to year 7 and 25.56% in year 8 to year 10.

The notes are mandatorily convertible to equity shares in year 10 but can be converted to equity anytime within the 10 years. On conversion to equity, the Government of Kenya will be issued with 995,254,143 ordinary shares at KShs 7.78 per share while the KQ Lenders Company 2017 Limited will be issued with 663,502,762 ordinary shares at KShs 7.78 per share.

The convertible note issued to the Government of Kenya is considered an equity instrument while the note issued to KQ Lenders Company 2017 Limited is considered a compound instrument that contains, a liability element and an equity element. The equity element is presented in equity under the shareholders' funds while the liability element has been presented in non-current liabilities under borrowings.

	2018 KShs Million	2017 (Restated) KShs Million
KQ Lenders Company 2017 Limited equity component	1,886	1,886

At beginning of year/period - restated	9,630	-
Issue of mandatory convertible note	-	9,630
At end of year/period	9,630	9,630

(c) Treasury shares

Treasury shares represent the shares in Kenya Airways Plc that are held by the Trustees of the Kenya Airways Employee Share Ownership Scheme 2017, a trust set up for the purpose of incentivising certain employees through issuance of shares to employees as part of their remuneration package.

The formation of the scheme was approved at the Extraordinary General Meeting of the Company held on 7 August 2017. Accordingly, the Directors allotted 142,164,558 shares to the scheme for zero cash consideration. The shares are carried at a par value of KShs 1 each.

Under the scheme, eligible employees may be granted the shares at the discretion of the Directors for no cash consideration upon the satisfaction of various conditions as determined by the Directors from time to time. The vesting conditions are yet to be determined by the Board of Directors and as such the shares have been shown as treasury shares until the vesting conditions have been determined.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

25. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES - GROUP AND COMPANY

Derivatives designated as hedging instruments

The Group purchases jet fuel on an ongoing basis as its operating activities require a continuous supply of fuel.

The Risk management objective is to hedge the risk of variation in jet fuel prices of highly probable forecast purchases of Jet fuel. The hedged risk is the benchmark Index price arising from highly probable forecasted purchase of Jet fuel and movement in spot rate of benchmark index price. The hedged item is highly probable forecasted purchases of Jet fuel. There is an economic relationship between the hedged item and the hedging instrument as the terms of the expected highly probable forecast purchases match the terms of the jet fuel option contracts. The Group has established a hedge ratio of 1:1 for the hedging relationship by performing a correlation between jet fuel purchases and benchmark index price.

The hedge ineffectiveness can arise from:

- The extent to which hedging instrument is not correlated to the hedged item; and
- The counterparties' credit risk differently impacting the fair value movements of the hedging instruments and hedged items.

Non-derivative financial liabilities to hedge foreign currency risk in a cash flow hedge relationship.

The risk management objective of Kenya Airways is to hedge foreign currency risk which is derived from fluctuation in exchange rates, associated with highly probable forecasted sales denominated in foreign currency. The Group has a significant portion of its revenue in foreign currency (other than KES). This exposure in foreign exchange risk affects the profitability and financial position of the Group due to variation in the foreign exchange rates. The Group's policy is to designate the monthly USD sales as a highly probable forecasted transaction in a hedging relationship based on the risk management strategy of the Group.

The hedged risk is the USD/KES foreign exchange risk in the KES conversion of foreign currency denominated forecasted sales and movement in spot rates and the hedged item is the highly probable foreign currency forecasted sales denominated in USD and the hedging instrument is foreign currency borrowings in the form of long term loans from banks.

Since the critical terms of the hedge relationship are perfectly matching, the Group assess the ineffectiveness of the hedge relationship monthly.

a) The Asset and Liability position of various outstanding derivative financial instruments is given below:

Current	Liabilities	2018		Net fair value*	Liabilities	2017	
		Assets			Assets	Assets	Net fair value
Cash-flow hedges							
Commodity hedges	789	354	(435)	-	-	-	-

* the fair value is net off premium payable

b). Outstanding position and fair value of various derivative financial instruments:

As at 31 December 2018

Derivative financial instruments	Type of risk	Notional Value (BBL)	Fair Value (Loss)	Line item in the balance sheet where the hedging instrument is located
Cash Flow hedges				
Buy	Jet Fuel Risk	1,300,000	(435)	Liability

27. BORROWINGS - GROUP AND COMPANY

(a) Analysis of borrowings

	2018 KShs million	2017 KShs million
Loans and borrowings	82,330	90,838
Deferred expenditure (note 27(h))	(2,050)	(2,351)
Mandatory convertible note(note 27(g))	3,456	3,277
Sovereign guarantee from the Government of Kenya*	(1,188)	(1,405)
	82,548	90,359
Made up of:		
Current:		
Payable within one year	77,362	86,031
Non-current:		
Payable after one year	5,186	4,328
	82,548	90,359

* On 14 November 2017, as part of the balance sheet restructuring, the Government of Kenya (GOK) issued guarantees in the aggregate amount of USD 750,000,000 in favour of Exim Bank and a consortium of Kenyan banks in relation to certain obligations of the Group and Company to Exim Bank and the consortium of Kenyan Banks. The fair value of the guarantee was determined on 14 November 2017 by an independent valuer at USD 13,898,096 (KShs 1,434 million).

In return, Kenya Airways Plc issued the GOK 184,321,067 shares at KShs. 7.78 per share. The financial guarantee is measured at amortised cost over the term of the guaranteed loans.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

27. BORROWINGS – GROUP AND COMPANY (Continued)

(a) Analysis of borrowings (Continued)

The fair value was determined by independent valuers who have appropriate qualifications and relevant experience in fair value measurements of such assets. The valuation was determined as the difference of weighted risk free loan (taking the guarantee into consideration) and weighted risky loan (assuming no guarantee in place). The valuation falls under level 3 of the fair value hierarchy as the inputs are not based on observable market inputs. The movement for the year is presented below:

	2018 KShs million	2017 KShs million
Sovereign guarantee from the Government of Kenya	1,434	1,434
Accumulated amortisation	(246)	(29)
Current income tax at 30	1,188	1,405

The movement in amortisation of the sovereign guarantee from the Government of Kenya is as follows:

At beginning of year/period	29	-
Charge for the year/period	217	29
At end of year/period	246	29

(b) Analysis of interest bearing loans and borrowings:

	Maturities	2018 Avg Int Rates	KShs million	2017 Avg Int Rates	KShs million
Citi/JP Morgan-Aircraft Loans	2014-2026	3.30%	60,331	2.30%	66,090
African Export – Import Bank (Afrexim) – Aircraft Loans	2012-2025	6.45%	17,455	5.19%	19,093
Local bank facility	2015-2027	2.00%	244	7.88%	1,297
Local banks revolving loan	2017-2027	7.89%	4,300	7.20%	4,358
			82,330		90,838

The aircraft loans were obtained for the purpose of funding aircrafts acquisition, aircraft spare engines and pre-delivery payments for ordered aircrafts. For the purpose of holding collateral for the financiers, the aircrafts were registered in the name of special entities whose equity are held by the security trustees on behalf of the respective financiers. The legal title is to be transferred to Kenya Airways Plc once the loans are fully repaid. The special entities are as listed below:

Entity	Bank	Guarantee	Original Tenure of the loan
Tsavo Financing LLC	Citibank N.A. (London) and JP Morgan N.A.	Export-Import Bank of the United States of America (Eximbank)	12 years
Samburu Limited	African Export and Import Bank in syndication with Standard Chartered Bank	None	12 years

NOTES TO THE FINANCIAL STATEMENTS (Continued)

27. BORROWINGS – GROUP AND COMPANY (Continued)

(b) Analysis of interest bearing loans and borrowings: (Continued)

The local bank facilities, amounting to USD 100 million were obtained from the consortium of Kenyan banks after the restructuring in November 2017. They were drawn from Equity Bank Limited, KCB Bank Kenya Limited, Commercial Bank of Africa Limited, I&M Bank Limited, National Bank of Kenya Limited, Cooperative Bank of Kenya, Diamond Trust Bank (Kenya) Limited, NIC Bank Limited and Ecobank Limited for financing of working capital requirements. As at 31 December 2018, the Group and Company had only utilized facilities amounting to USD 42 million (2017: USD 42 million).

Jamii Bora Bank Limited opted to retain their outstanding loan to Kenya Airways Plc after the restructuring in 2017. This loan was acquired by NIC Bank Limited in January 2018. The loan repayment term is a tenure of five years.

(c) Covenants

The Group and Company has a number of facilities with African Export-Import Bank (Afrexim) Citibank N.A and JP Morgan N.A for the purchase of aircraft and funding of pre-delivery deposits for aircraft. The facilities contain some financial covenants, which are monitored against the annual audited financial statements. As at 31 December 2018, the Group and Company did not comply with the unrestricted cash to revenue ratio and is in the process of obtaining waivers from the financiers. The facilities have been reclassified to current liabilities as at 31 December 2018 as the Group and Company did not have unconditional rights to defer payment for at least 12 months at the end of the reporting period.

As at 31 December 2017, the Group and the Company did not comply with the cumulative debt service coverage ratio as a result, the facilities have been reclassified to current liabilities as at that date as disclosed in the prior year adjustment in note 40.

(d) Maturities of amounts included in borrowings is as follows:

The borrowings maturity analysis is as follows:

	2018 KShs million	2017 KShs million
Within one year	77,846	86,232
Between two and five years	184	248
Later than 5 years	4,300	4,358
	82,330	90,838

Had the covenants been complied with as at year/ period end, the borrowings would have been payable as follows:

	2018 KShs million	2017 KShs million
Within one year	6,199	7,415
Between two and five years	41,560	32,047
Later than 5 years	34,571	51,376
	82,330	90,838

NOTES TO THE FINANCIAL STATEMENTS (Continued)

27. BORROWINGS - GROUP AND COMPANY (Continued)

(e) The movement in the borrowings is as follows:

	2018 KShs million	2017 KShs million
At start of year/period	90,838	142,340
Additions	-	4,358
Repaid in the year/period	(7,301)	(9,109)
Exchange difference on hedged borrowings	(1,207)	274
Debt converted to equity on restructuring:		
Government of Kenya Loan (note 24 (a))	-	(16,851)
KQ Lenders 2017 Limited (note 24 (a))	-	(17,267)

Debt converted to mandatory convertible note:

Government of Kenya Loan (note 24 (b))	-	(7,744)
KQ Lenders 2017 Limited (note 24 (b))	-	(5,163)
At end of period	82,330	90,838

Movement in exchange differences on hedged borrowings have been dealt with as follows:

	2018 KShs million	2017 KShs million
Total exchange differences on borrowings	1,207	(274)
Realised on settlement of loans	838	1,524
Net hedge effect	2,045	1,250

The Group and Company has multi-currency credit line facilities with a total value of KShs 18,398 million (2017: KShs 18,555 million) with various local banks for tenures of one year and renewable. At 31 December 2018, the Group and Company had utilised letters of credit (LCs) amounting to KShs 13,788 million (2017: KShs 8,637 million) and draw down facilities of KShs 4,610 million (2017: KShs 4,671 million). The Group and Company has unutilized draw down facilities of KShs 5,690 million as at 31 December 2018. A corporate guarantee of KShs 1,000 million is in place for the Kenya Airways & Co-operative Bank Ab Initio Programme.

(f) Analysis of loans by currency:

	2018 KShs million	2017 KShs million
Borrowings in US Dollars	82,330	89,849
Borrowings in Kenya Shillings	-	989

At beginning of the year/period - restated	3,277	-
Issue of mandatory convertible note - liability component	-	3,277
Conversion of mandatory convertible note to ordinary shares (note 24(a))	(2)	-
Interest charged	389	-
Interest paid	(165)	-
Foreign currency differences	(43)	-
	3,456	3,277

(h) Deferred expenditure:

	2018 KShs million	2017 KShs million
At start of the year/period	2,351	2,291
Additions	25	358
Charge for the year/period	(326)	(298)
At end of the year/period	2,050	2,351

The deferred expenditure is presented in the statement of financial position as:

Current portion	484	301
Non-current portion	1,566	2,050
	2,050	2,351

Deferred expenditure relates to costs incurred to obtain financing for the purchase of the Boeing 787-8 and B777-300ER aircrafts, as well as fees paid to banks upon successful restructuring of the short term loans to longer repayment periods in November 2017. The costs include commitment, arrangement, consultants, underwriters and guarantee fees. These costs are amortised over the repayment periods of the various loans.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

28. DEFERRED TAXATION

Deferred income tax is calculated using the enacted income tax rate of 30% (2017 - 30%). The deferred income tax liability/(asset) is made up as follows:

	Group		Company	
	2018 KShs millions	2017 (Restated) KShs millions	2018 KShs millions	2017 (Restated) KShs millions
Leave pay accrual	(656)	(563)	(638)	(552)
Other provisions	(1,763)	(749)	(1,690)	(695)
Tax losses	(24,466)	(24,272)	(24,112)	(23,878)

Deferred tax assets derecognised	24,218	22,168	24,002	21,865
	1,815	1,895	2,013	2,013

Presented in the statement of financial position as follows:

Deferred tax asset	(198)	(118)	-	-
Deferred tax liability	2,013	2,013	2,013	2,013
	1,815	1,895	2,013	2,013

The movement on the deferred tax account is as follows:

At start of year/period	1,895	1,815	2,013	2,013
(Charge)/credit to profit or loss (note 12(a))	(80)	80	-	-
At end of year/period	1,815	1,895	2,013	2,013

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. At 31 December 2018, Kenya Airways Plc and Jambo-Jet Limited estimated/assessed tax losses amounted to at KShs 80,373 million and KShs 433 million respectively (2017: KShs 78,747 million and KShs 799 million respectively). Kenyan Income Tax laws allow for carry forward of tax losses for a maximum period of 10 years. The accumulated tax losses will be utilised to offset future taxable profits.

The Group and Company have not recognised deferred tax assets in the financial statements in view of the uncertainty regarding the ability of the company to generate sufficient taxable profits in the foreseeable future to facilitate utilisation of the benefits from the deductions.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

29. ONEROUS LEASE PROVISION - GROUP AND COMPANY

The airline has sub-leased certain aircraft that are held on operating lease at lease rentals that are lower than that charged by the primary lessors resulting into onerous lease provision as shown below:

Aircraft type	Lessee	Remaining lease period	2018 KShs million	2017 KShs million
B787-800	Oman Air	4 months	49	327
B777	Turkish Airline	16 months	682	1,531
			731	1,858

Onerous lease provision is presented in the statements of financial position as follows:

	2018 KShs million	2017 KShs million
To be realised within one year	701	1,001
To be realised after one year	30	857
	731	1,858

The movement in the onerous lease provision is as follows:

At start of year/period	1,858	2,619
Payments made in the year/period	(1,023)	(755)
Reversal on termination of sub-lease*	(71)	-
Foreign exchange differences	(33)	(6)
At end of year/period	731	1,858

* During the year, the Group and Company terminated one of its sublease agreements with Oman Air. This led to the reversal of all outstanding onerous lease provisions as at the termination date.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

30. RETURN CONDITION PROVISION

Return condition provision relates to a provision for an unavoidable contractual obligation to perform certain activities and regulatory maintenance liability on major aircraft components, on return of aircraft engine and aircraft components as required by the lessors to fulfil the lease return conditions.

	Group		Company	
	2018 KShs million	2017 (Restated) KShs million	2018 KShs million	2017 (Restated) KShs million

At end of year/period	4,175	4,650	3,423	3,898

The return condition provision is presented in the statement of financial position as follows:

Current	1,793	1,521	1,793	1,521
Non-current	2,382	3,129	1,630	2,377
	4,175	4,650	3,423	3,898

NOTES TO THE FINANCIAL STATEMENTS (Continued)

31. SALES IN ADVANCE OF CARRIAGE

The value of the tickets sold and still valid but not used by the end of the reporting period is reported as unearned transportation revenue in the Sales in Advance of Carriage account. The carrying amount of the balance is as presented below:

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
Passengers	17,382	14,960	17,243	14,861
Freight	169	207	169	207
	17,551	15,167	17,412	15,068

Reconciliation of the sales in advance of carriage is as follows:

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
At beginning of the year/period	15,167	15,450	15,068	15,356
Total tickets sold	95,517	65,652	91,712	63,523
Total revenue recognised	(88,714)	(63,841)	(85,056)	(61,927)
Expired tickets recognised in revenue	(4,419)	(2,094)	(4,312)	(1,884)
At the end of the year/period	17,551	15,167	17,412	15,068

The above represents the Group's and Company's obligations to provide services to customers for amounts received in advance as per the Group's policy under note 3(c). In addition, the Group and Company expects to fulfil the related performance obligations arising from sales in advance of carriage within one year.

32. TRADE AND OTHER PAYABLES

NOTES TO THE FINANCIAL STATEMENTS (Continued)

33. PROVISIONS (Continued)

Redundancy provision

The Company implemented a staff restructuring program in the year 2012 aimed at improving operational efficiency. The program affected 599 employees and as at 31 December 2018 a provision of KShs 145 million is held to cover the redundancy payments arising from the accompanying litigation.

The unionisable staff had moved to the Industrial Court to block the restructuring and the Court ruled in their favour, ordering the reinstatement of affected employees. The Company appealed against the decision and on 11 July 2014, the Court of Appeal ruled that the Company was justified in declaring the redundancy but had failed to meet the statutory threshold procedural fairness. The employees challenged the decision further at the Supreme Court; which upheld the decision of the Court of Appeal.

Other provisions

Other provisions relate to various legal cases brought against the Company which are pending determination by the courts. Management has made appropriate provisions in respect of certain cases.

34. LEAVE PAY ACCRUAL

Movement in trade and other payables	2,989	2,570	8,794	3,283
Accrued interest converted to equity	-	3,006	-	3,006
	2,989	5,576	8,794	6,289

36. RELATED PARTY TRANSACTIONS

(a) Nature of related party transactions

During the year, companies within the Group entered into transactions with related parties who are not members of the Group. Details of those transactions are presented below:

(i) Group

KLM Royal Dutch Airlines (KLM)

KLM holds 7.8% (2017:7.8%) equity interest in Kenya Airways Plc, and has a joint operations agreement which commenced in November 1997. The agreement allows the two airlines to co-operate in developing schedules and fares and to share generated revenue benefits and costs for the core routes between Nairobi and Amsterdam.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

36. RELATED PARTY TRANSACTIONS (Continued)

(a) Nature of related party transactions (Continued)

(i) Group (Continued)

Precision Air Services Limited

Kenya Airways Plc holds 41.23% (2017: 41.23%) equity interest in Precision Air Services Limited with code share on the route between Nairobi and Dar es Salaam.

As is common throughout the airline industry, Kenya Airways Plc, KLM Royal Dutch Airlines and Precision Air Services Limited from time to time carry each other's passengers travelling on the other airline's tickets. The settlement between the two carriers is effected through IATA clearing house, of which all airlines are members.

(ii) Company

	2018 KShs million	2017 KShs million
Handling expenses		
African Cargo Handling Limited	124	90
Jambojet Limited	110	-
Management fee income

NOTES TO THE FINANCIAL STATEMENTS (Continued)

36. RELATED PARTY TRANSACTIONS (continued)

(b) Related companies balances (Continued)

(i) Due from related companies (continued)

The movement in the provisions for doubtful related party balances is as follows;

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
At beginning of year/period	255	287	966	949
(Decrease)/increase during the year/period	(50)	(32)	(165)	17
At end of year/period	205	255	801	966
(ii) Due to related companies				
KLM, Royal Dutch Airlines	2,301	2,241	2,263	2,223
Kenya Airfreight Handling Limited	-	-	59	58
African Cargo Handling Limited	-	-	19,903	13,537
	2,301	2,241	22,225	15,818

Amounts due from and due to Kenya Airfreight Handling Limited (KAHL) arise from payments of expenses by Kenya Airways on behalf of KAHL, net of costs apportioned by KAHL for services rendered to Kenya Airways Plc. It also includes a loan amount of KShs 19.6

million secured by KAHL from Kenya Airways Plc. Both the related party and loan balances are interest free and have no fixed repayment terms.

The amounts due from African Cargo Handling Limited (ACHL) relate to cargo freight collected by ACHL on behalf of Kenya Airways and the expenses paid by Kenya Airways on behalf of ACHL. The amounts due to ACHL relate to cash transfers from ACHL to Kenya Airways and the ACHL IATA billings. The related party balances are interest free and have no fixed repayment terms.

(c) Remuneration for Directors and key management compensation

The remuneration for Directors and other members of key management during the year were as follows:

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
Salaries and other benefits	255	269	221	237
Non-monetary benefits	33	6	33	6
	288	275	254	243

36. RELATED PARTY TRANSACTIONS (continued)

(c) Remuneration for Directors and key management compensation

The Company and its subsidiaries' Directors' remuneration included in key management compensation above comprise:

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
As executives	58	110	58	110
As non-executives	31	22	31	22
	89	132	89	132
Non - monetary benefits	4	4	4	4
	93	136	93	136

(d) Receivable from directors

Included in other receivables are amounts due from directors amounting to KShs 54 million (2017 - Nil).

37. COMMITMENTS

As at 31 December 2018 and as at 31 December 2017, the Group and Company had purchase commitments for aircraft parts and other equipment incidental to the ordinary course of business as follows:

	2018 KShs million	2017 KShs million
Authorised but not contracted for	5,283	2,705

38. OPERATING LEASES - GROUP AND COMPANY

The future minimum lease payments and reconciliations under non-cancellable operating leases are as follows:

(a) Lease payments

	Group		Company	
	2018 KShs million	2017 KShs million	2018 KShs million	2017 KShs million
Not later than 1 year	9,957	9,420	9,169	8,550
Later than 1 year but not later than 5 years	52,312	50,489	49,159	47,295
Later than 5 years	35,815	47,602	32,854	43,802
	98,084	107,511	91,182	99,647

38. OPERATING LEASES - GROUP AND COMPANY (Continued)

(b) Lease receivables

	2018 KShs million	2017 KShs million
Not later than 1 year	3,061	5,183
Later than 1 year but not later than 5 years	490	3,883
	3,551	9,066

During the year, the Group and Company expensed KShs 7,605 million and KShs 6,448 million (2017: KShs 6,603 million and KShs 6,064 million) respectively in profit or loss in respect of operating leases as disclosed in note 8(b).

During the year, the Group and Company each recognised lease income of KShs 1,461 million (2017: KShs 1,101 million) in profit or loss in respect of operating leases income as disclosed in note 7(a).

The aircraft fleet leasing commitments include the balance of rental obligations under operating leases in respect of the various aircraft.

The Group leases various aircraft under non - cancellable operating leases with varying terms, escalation clauses and renewal rights. On renewal, the terms of the leases are renegotiated. The various lease agreements do not provide for purchase options on expiry of the lease terms. No restrictions have been imposed by the lessors on the Group and company in respect of dividend pay outs, borrowings or further leasing.

39. CONTINGENT LIABILITIES - GROUP AND COMPANY

(a) Contingent liabilities

	2018 KShs million	2017 KShs million
Guarantees	13,788	8,637
Litigation	660	578
	14,448	9,215

(b) Guarantees

In the ordinary course of business, the Group's and Company's bankers have issued guarantees on behalf of the Group and Company in favour of third parties. In the opinion of the Directors, no liability is expected to crystallise in respect of these guarantees.

(c) Litigation

(i) Douala crash - KQ507

A leased aircraft, Boeing 737-800 (registration mark 5Y-KYA) operating as flight number KQ507 crashed shortly after take-off from Douala airport in Cameroon on 5 May 2007. All the 105 passengers and 9 crew members on board perished in the accident. The investigation of the accident carried out under the auspices of the Cameroon civil aviation authorities was completed. Kenya Airways Plc is fully insured for any legal obligations arising out of the accident.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

39. CONTINGENT LIABILITIES – GROUP AND COMPANY

(Continued)

(c) Litigation (Continued)

(i) Douala crash - KQ507 (Continued)

Site clear up

After the accident there had been concerns locally that the accident site had not been made sufficiently safe and secure. On 30 December 2008, the Cameroon Prime Minister appointed a local committee to oversee a clean-up and restoration of the site of the accident. Kenya Airways was asked to nominate a representative and did so. To the Directors knowledge, there have been no further developments since this date regarding the site clear up.

The Directors suspect that given the site is located in a tidal mangrove swamp, is difficult to access and the nearest habitation is some distance from the site, it will be very difficult for the local committee set up to achieve its aims in any event. Given the passage of time since the incident it can safely be assumed that there will be no follow up or future developments.

Criminal action in Cameroon

A Criminal investigation into the accident was opened in the Court of First Instance in Ndokoti, Douala, Cameroon in November 2009. This was separate and distinct from the investigation undertaken by the Official Accident Investigation Commission in accordance with Annex 13 Chicago Convention. The purpose of the criminal process was to establish whether there has been any criminal wrongdoing.

A number of hearings took place. Notwithstanding subsequent publication of the official accident report, the Magistrate has indicated that he wishes to continue with his investigations. It is unclear when the next hearing may be and there have been no recent developments.

(ii) Abidjan crash – KQ 431

On 30 January 2000, a Kenya Airways Airbus 310 aircraft registration 5Y-BEN on flight KQ431 from Abidjan (Ivory Coast) to Nairobi crashed into the sea. A total of 169 passengers perished in the crash. Kenya Airways negotiated and reached agreement in majority of the claims. Only one claim lies dormant and the Directors have taken the pre-caution to keep the file open.

(i) Other material litigation

Nairobi Industrial Court Cause No. 539 of 2011 (Kenya) - action against the Group by a former employee.

There are other various legal cases brought against the Group which are pending determination by the courts. It is not practicable to determine the timing and ultimate liabilities (if any) that may crystallise upon resolution of the pending cases. However, management has made appropriate provisions in respect of certain cases. Due to the nature and sensitivity of these cases, detailed disclosures have not been made for each case as these may be prejudicial to the position of the Group.

40. PRIOR YEAR ADJUSTMENTS

The prior year adjustments relate to the correction of the following errors:

• Prepaid maintenance asset

The lease agreements require the Group and Company to make payments towards maintenance of the aircraft. The lessors are contractually obligated to reimburse the Group and Company for the qualifying maintenance expenditure incurred on the aircraft if the Group and Company has a maintenance reserve credit. The Group and Company had erroneously accounted for its prepaid maintenance asset as an expense.

The prior year adjustments relates to the correction of the following errors: (Continued)

• Return condition provisions

The Group and Company operated 20 and 25 aircraft respectively under operating lease arrangements. Under the terms of the operating lease arrangements with the lessors, the Group and Company is contractually committed to return the aircraft and engines in a certain condition at the date of return. The Group and Company have in the past erroneously had not assessed the return condition provision for the aircrafts under operating lease arrangements.

• Mandatory convertible note

On 14 November 2017, as part of its balance sheet restructuring, Kenya Airways Plc issued the Government of Kenya and KQ Lenders Company 2017 Limited mandatory convertible notes of USD 75 million and USD 50 million respectively.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

40. PRIOR YEAR ADJUSTMENTS (Continued)

• Mandatory convertible note (Continued)

The Government of Kenya note was issued at zero interest while the KQ Lenders Company 2017 Limited mandatory convertible note will earn an interest of 5.11% in year 1 to year 5, 15.34% in year 6 to year 7 and 25.56% in year 8 to year

10. At initial recognition of the compound instrument there was an error in the valuation of the split between debt and equity due to the discounting rate used.

• Borrowings

As at 31 December 2017, the Group and the Company erroneously classified KShs 78,917 million as a non-current liability yet the Group and Company did not comply with the cumulative debt service coverage ratio and as a result the Group and Company did not have unconditional right to defer payment for the next 12 months. The facilities have been reclassified to current liabilities as at that date.

a) Restatement of audited statement of profit or loss and other comprehensive income for the period ended 31 December 2017
