Message from the Board of Directors

The above unaudited Group and Company statements of financial position, Group and Company statements of comprehensive income, summary consolidated Group statement of changes in equity, and Abridged consolidated Group statements of cash flows for the six-month period ended 30 June 2022 were extracted from the financial statements approved by the Board on 29th August 2022.

The Group recorded lower earnings against the comparable period. The impact of high claims costs across the group, that started in 2021, continue to have a significant impact on the overall earnings. The results were further impacted by unfavourable investment market conditions

It is encouraging to note that all operating companies recorded net premium growth compared to 2021.

A negative economic environment and inflationary pressure has created a difficult environment for customers to afford to buy and maintain insurance payments.

All the businesses remain capitalised well above the regulatory requirements and the group's minimum target and are in a strong position to meet ongoing customer claims.

The adoption of International Financial Reporting Standard (IFRS) 17 from 1 January 2023 will have a significant impact on how insurance entities measure and account for insurance contracts. Significant progress has been made through a co-ordinated governance structure and the Group is confident all the milestones will be achieved to ensure readiness for the adoption of IFRS 17.

P Odera Chairman	G Kioi Acting Group CE	R Shah Director	C Kioni Company Secretary
