

Bank of Kigali Investor Presentation Full Year 2012

Disclaimer

This presentation contains statements that constitute “forward-looking statements”, including, but not limited to, statements relating to the implementation of strategic initiatives and other statements relating to our business development and financial performance.

While these forward-looking statements represent our judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other factors could cause actual developments and results to differ materially from our expectations.

These factors include, but are not limited to, (1) general market, macroeconomic, governmental policies, legislative and regulatory trends, (2) movements in local and international currency exchange rates, interest rates and securities markets, (3) competitive pressures, (4) technological developments, (5) changes in the financial position or credit worthiness of our customers, obligors and counterparties and developments in the markets in which they operate, (6) management changes and changes to the Bank’s structure and (7) other key factors that we have indicated could adversely affect our business and financial performance, which are contained elsewhere in this presentation and in our past and future filings and reports, including those filed with the National Bank of Rwanda and the Rwanda Stock Exchange.

We are under no obligation (and expressly disclaim any such obligations to) update or alter our forward-looking statements whether as a result of new information, future events, or otherwise.

3. Best Bank in Rwanda 2009-2012

4. Best Best African Listing

5. Best Financial Reporting Company 2012, Rwanda

6. Company of the Year 2011

7. AA-/A1 Credit Rating

The rating reflects the Bank's established domestic franchise value, strong capital position, its systemic importance, strong asset quality and financial performance.

Sound Macro Fundamentals

- Politically stable country with sound governance
- Very attractive demographic profile: population of 10.5 million with 83% below the age of 40
- Robust economic growth of 4.1%-11.2% between 2006-2010 and 7.5% expected for 2013
- Moderate inflation: Inflation at 3.9 % in Dec 2012
- Very friendly business environment, recognized as the 2nd most reformer globally 2005-2011 in World Bank Doing Business Report

Significant Banking Sector Potential

- Significant headroom for growth given low banking penetration
- Total assets/GDP of 25%
- Large unbanked population of approximately 77%
- Well regulated banking sector: fairly conservative regulator relative to regulators in the EAC

Market Leadership

- Market leadership by
 - Total assets (RwF 322.8 billion- Dec 2012) – 31.7% market share
 - Net Loans (RwF 185.1 billion –Dec 2012) – 31.5% market share
 - Customer Deposits (RwF 208 billion –Dec 2012) – 28.1% market share
 - Shareholders' equity (RwF 63.1 billion as of Dec 2012) –41.9% market share

Conservative Business Model

- Relatively high capital adequacy ratios ranging from 14.0% - 23.2% between 2007 and 2012
- Manageable level of non-performing loans – 6.5% of gross loans in 2012, down from 19.4% in 2007
- Loans to deposit ratio range of 54.8% - 88.8% between 2007 and 2012.

Experienced Management Team

- Management team with combined banking sector experience of 79 years
- Complemented by an experienced and diversified Board of Directors
- Track record of producing stellar results

Profitable Growth

- Robust asset growth at a CAGR of 27.9% (2008-2012) to RWF 322.8 billion in 2012
- ROAA ranging from 3.0% - 3.9% between 2006 and 2012

Trade Deficit As A % of GDP

Source: Ministry of Finance and Economic Planning, IMF

Trade Structure

- Rwanda's exports are dominated by coffee, tea and minerals (tin, coltan and wolfram).
- The country remains a net importer. Major imports include fuel and oils, intermediary goods especially construction materials, consumer goods, and capital goods.
- Informal cross-border trade is a significant component of Rwandan external trade (approx. 17.4% of total exports). 75% of these exports are destined to DRC.
- Official reserves were estimated at 4.8 months of goods imports as of Dec 2012

Source: NBR Monetary Policy Statement

Current Account Deficit As a % of GDP

Source: National Institute of Statistics Rwanda

Review of the Macro Economic Environment Full Year 2012

Macro Economic Review

- The Rwandan economy continued to perform well despite the uncertainties presented by the slow down in the global economy
- GDP grew by 8% in 2012 exceeding annual real GDP projections of 7.7%. The growth was driven by growth in the services and industry sectors which registered increases of 12% and 7% respectively supported by a continuing improvement in the financing of the economy by the banking system.
- The growth in the services sector was attributed to strong performances in the transport, communication and storage subsector as well financial services subsector which grew by 19% and 17% respectively.
- The annual headline inflation decelerated to 3.9% in December 2012 from 5.92% in June 2012 and 8.34% in December 2011.
- The Central Bank policy rate was increased from 6.5% in December 2011 to 7.5% in May 2012
- Exports value increased by 24.8% in 2012 against 24.1% for imports.
- The imports cover improved to 22.9% (27.7 % incl. informal cross border trade) in 2012 up from 20.5% in the previous year

Inflationary Environment Jan 2012- Mar 2013

Exchange Rate Developments 2012

BANKING SECTOR OVERVIEW

Significant Banking Sector Potential

2012 Banking Assets/GDP

2012 Banking Assets Per Capita⁵

Large Unbanked Population

- Economy is still cash based with bank accounts being used mostly for cash deposits and withdrawals
- Approximately 23% of the population is banked
- 49 % of the adult population (approx. 2.1 million) are under banked i.e. served through non- bank formal financial institutions such as SACCOs and insurance companies

Banking Sector Overview

Rwanda Banking System Total Assets

Source: NBR Monetary Policy & Financial Stability Report 2011

Banking Sector Review 2012

- As at end of 2012, total CAR stood at 23.9% (YE 2011: 25%) well above the regulatory minimum of 15%. The sector's liquidity position stood at 41.2% (YE 2011: 45.3%).
- Net loans in the Banking sector increased by 39%. The distribution of additional credit to private sector is dominated by commerce, restaurants and hotels (40.7%) public works and construction (26.8%), and manufacturing (7.4%)
- The quality of assets improved significantly as the Non-performing loans (NPLs) to total gross loans reduced to 6.1% in 2012 (2011: 8%).

Interest Rate Analysis

Recent Regulatory Reforms To Improve Access To Credit

- Enactment of Law on Mortgages, requiring the registration of mortgages and enabling lenders to foreclose on defaulters
- Establishment of Commercial Courts dealing solely with commercial disputes
- Reorganization of the Land Centre which has computerised records and operations in addition to timely issuance of property titles
- Reorganization of the Office of the Registrar General to enhance and fast track registration of mortgages and foreclosures
- Establishment of Credit Reference Bureau to enhance information sharing among banks and other financial institutions in order to assist with credit risk assessment

CORPORATE GOVERNANCE

Shareholding Structure & Corporate Governance

Shareholding Structure as at 31 December 2012

Free float- 45%

Corporate Governance

- ✚ The Board of Directors has nine independent non-executive directors (including two non-resident directors with extensive expertise in international banking practices)
- ✚ The Board of Directors is approved by the Central Bank and meets on a quarterly basis or more frequently as the business demands
- ✚ The Board sets the strategy and retains full responsibility for the direction and control of the Bank as spelled out in the Memorandum and Articles of Association, the Board Charter and the corporate governance guidelines
- ✚ The Board sub-committees have clear TORs which underscore the scope and context of their performance as approved by the Board & corporate governance regulation
- ✚ The Board receives detailed financial information and regular presentations from the management on the Bank's business performance, this enables the Directors to make informed decisions on governance, strategic, financials and operational issues

STRATEGIC OUTLOOK

Strategic Outlook

Objectives

Strategies

Action

Outcomes

Customer growth in terms of current accounts 100,000 in 2013

Build a ubiquitous branch footprint throughout the country

Build sufficient channel capacity

Expand retail product offering

- ☒ Expand the branch network to 60+ branches by YE 2013
- ☒ Increase the number of ATMs, POS terminals and cards outstanding
- ☒ Build a modern and scalable mobile banking and Internet banking platforms
- ☒ Alternative client acquisition & service channels (retail chains, co-branded cards, utilities, etc)
- ☒ Flexible, offset, variable-rate, etc mortgages
- ☒ Full range of consumer loan products
- ☒ Revolving credit cards
- ☒ Payroll & pension-backed loans & overdrafts
- ☒ Microfinance
- ☒ Modern, multi-currency current accounts with debit cards
- ☒ Ubiquity of ATMs and POS terminals in urban centers and reasonable proximity elsewhere
- ☒ Payment & e-wallet solutions
- ☒ Full range of deposit products

- ☒ Benefit from first-mover advantage outside the capital city, making it more difficult for the competitors to follow suit
- ☒ Reach out to the unbanked (but bankable) population
- ☒ Become the bank of choice and convenience for the middle class and youth entering the employment sector
- ☒ Create capacity to service 500,000+ clients
- ☒ Maximize the product-to-client ratio
- ☒ "Grow with clients"
- ☒ Valuable source of retail clients through payroll programs
- ☒ Growth of loan book and F&C income

Healthy structure & growth of balance sheet >20% growth in 2013

Increase the loan to deposit ratio to 60%

Increase retail loans penetration

Consolidate the leading position in corporate banking

Increase the maturing profile of liabilities

Create a universal banking platform

- ☒ Integrated client coverage
- ☒ Leverage the superior lending capacity
- ☒ Cross-selling opportunities
- ☒ Documentary operations & trade finance, FX, other solutions
- ☒ Rep offices in EAC from 2012

- ☒ Leverage the superior access to wholesale funding to complement the deposit funding base

- ☒ Private Banking, Securities, Insurance

- ☒ Diversification of funding base
- ☒ Expand the share of higher-margin lending
- ☒ Maximise the cross-sell opportunities
- ☒ Grow the share of retail in the loan book up to 30%-40% in the medium term

- ☒ Reduce maturity gap
- ☒ Enable further expansion of long-term lending

- ☒ Further diversification of revenue streams

Earnings growth ~30%
Return on Average Equity > 20%

Maintain profitable growth

- ☒ Continuous improvement of risk management policies & procedures
- ☒ Disciplined capital management, medium term target CAR of 15%-17% and ROAE of 20%+, implying ROAA in the 3.5% range

- ☒ No profitability sacrifices for the sake of market share gains
- ☒ Sensible dividend policy as the growth curve flattens out over time

Management Targets

Return on Average Equity

Gross Loans/Total Assets

Other Selected Management targets

- Grow Net Income by 25% Y-o-Y
- Grow Total Assets by 20% Y-o-Y
- Gross Loans/Assets to 60%
- Lower NPL ratio to less than or equal to 5%
- Increase number of retail current accounts by 100,000
- Launch e-commerce platform by 1H 2013

Branch expansion
